Legacies of Enslavement in the French Republic Nicola Frith, 2025-05-06 *Legacies of Enslavement in the French Republic* explores the complex dynamics between social movements invested in remembering and addressing the legacies of African enslavement and the French State. Exploring 25 years of activism, from the build-up to the 150th anniversary of the Abolition Act (1998) through to the present day, the book: Investigates strategies used by the French State to delink the recognition of France's enslaving past from contemporary issues with anti-Black racism and reparation. Asks why, in the wake of the first Taubira law that recognized slavery as a crime against humanity (2001), the state has legitimized the work of certain activist groups, while delegitimizing others. Uses critical race theory and decolonial theory to examine the extent to which the State's approach to recognizing its past is structured by a 'colonial matrix of power'. Highlights and contests political and media misconceptions about reparations by showcasing the work of grassroots activists operating in France, the Caribbean and the Indian Ocean. In doing so, *Legacies of Enslavement* showcases some of the key shifts that have taken place in the recent history of activist work operating in parallel with the successive metamorphoses of the French state as it responds to social and political pressure to recognize and repair the nation's enslaving past and its racial legacies today.

Spectres from the Past Portia Owusu, 2019-11-22 *Spectres from the Past: The History of Slavery in West African and African-American Narratives* examines the merit of the claim that West African writers, in comparison to African-Americans authors, deliberately expunge the history of slavery from literary narratives. The book explores slavery in contemporary West African and African-American literature by looking at the politics of history and memory. It interrogates notions of History and memory by considering the possibility that shared traumas, such as West African and African-American experiences of slavery, can be remembered and historicised differently, according to critical factors such as socio-economic realities, cultural beliefs and familial traditions. At the heart of the book are compelling and new readings of slavery in six literary narratives that draws on cultural philosophies, musicology and linguistics to demonstrate diverse and unusual ways that Black writers in West Africa and North America write about slavery in literature.

Running While Black Alison Mariella Désir, 2022-10-18 A searing exposé on the whiteness of running, a supposedly egalitarian sport, and a call to reimagine the industry "Runners know that running brings us to ourselves. But for Black

people, the simple act of running has never been so simple. It is a declaration of the right to move through the world. If running is claiming public space, why, then, does it feel like a negotiation?" Running saved Alison Désir's life. At rock bottom and searching for meaning and structure, Désir started marathon training, finding that it vastly improved both her physical and mental health. Yet as she became involved in the community and learned its history, she realized that the sport was largely built with white people in mind. Running While Black draws on Désir's experience as an endurance athlete, activist, and mental health advocate to explore why the seemingly simple, human act of long distance running for exercise and health has never been truly open to Black people. Weaving historical context—from the first recreational running boom to the horrific murder of Ahmaud Arbery—together with her own story of growth in the sport, Désir unpacks how we got here and advocates for a world where everyone is free to safely experience the life-changing power of movement. As America reckons with its history of white supremacy across major institutions, Désir argues that, as a litmus test for an inclusive society, the fitness industry has the opportunity to lead the charge—fulfilling its promise of empowerment.

Preaching Prophetic Care Phillis Isabella Sheppard, Dawn Ottoni-Wilhelm, Ronald J. Allen, 2018-06-25 Preachers often think of prophetic preaching in the caricature of the prophet as the lonely outsider confronting the congregation, often angrily, with the congregation's complicity in social injustice and with a bracing call for repentance. The twenty-seven essays and sermons in this book offer a different perspective by viewing prophetic preaching specifically--and ministry, practical theology, and theological education more broadly--as pastoral care for the community in prophetic perspective. Such preaching does indeed bring a critical theological analysis of justice concerns to the center of the sermon, but in such a way as to invite the congregation to consider how the move toward justice is a pastoral move-- that is, a move that seeks to build up community. Rather than contributing to the polarization so rampant in today's social world, the preacher seeks to help the congregation build bridges along which concern for justice can travel. The contributions honor the work of the late Dale Andrews, a scholar of preaching and practical theology at the Divinity School, Vanderbilt University, whose seminal work inspires the notions of prophetic care and building bridges to justice.

Trauma Proof Benjamin Perks, 2024-12-19 'Lucid, clear, visionary' - Bessel van der Kolk, author of *The Body Keeps The Score* 'An important book' Bruce Perry, author of *What Happened to You?* 'Buy this book' - Lemn Sissay, author of *My Name is Why* 'A book of profound importance' - Lisa Damour, author of *Untangled* In recent years the word 'trauma' has become ubiquitous. Yet it remains widely misunderstood. In *Trauma Proof* international expert Benjamin Perks redefines how we see childhood trauma, and outlines a new path towards healing and prevention. For 25 years, Perks has worked for the UN and UNICEF on eradicating global barriers to child wellbeing, including poverty, hunger, disease, the mobilisation of child soldiers and population displacement. But he has also been on a personal journey of healing from his own childhood, spent living in the UK's care system and on the streets. Today, new research is revealing little-known aspects of childhood trauma.

It is no surprise that it drives addiction or poor mental health. But how does it explain a heightened risk for heart disease or diabetes? Why does it so comprehensively correlate with poor life outcomes? And how can we not only heal from, but prevent, the types of experiences that negatively impact on child development? In *Trauma Proof*, Perks explains the science behind these findings, and argues that making simple changes can break damaging inter-generational cycles. Ultimately, he shows how building secure attachments and improving the quality of your relationships can radically transform your life, at any age.

Sustainability as a prerequisite for supply chain resilience Isabelle Jaeschke, 2023-03-16 Bachelor Thesis from the year 2023 in the subject Business economics - Supply, Production, Logistics, grade: 1,7, University of applied sciences, Cologne, language: English, abstract: This thesis deals with sustainability as a prerequisite for supply chain resilience. Considering the COVID-19 pandemic, which has shown to a considerable extent how fragile existing supply chains are, the need for implementation of resilient and sustainable supply chains becomes necessary. Due to climate change, environmentally sustainable action should be focused on and need to be implemented in companies' value chains. In this thesis, it is examined to what extent sustainability must be considered as a prerequisite for supply chain resilience. Global political backgrounds are highlighted. Theoretical backgrounds are given regarding sustainability, global supply chains and approaches for measuring sustainability. Furthermore, characteristics of a sustainable and resilient supply chain are presented, by literature review and considering actual, global developments. Finally, recommendations for action are given. Global supply chains need to incorporate regional aspects as far as possible and promote cooperation along the value chain. This is promoted by digitalization processes, effective risk management and binding supply chain alignments toward sustainability.

The Message Ta-Nehisi Coates, 2024-10-08 #1 NATIONAL BESTSELLER • NEW YORK TIMES BESTSELLER • The renowned author of *Between the World and Me* journeys to three resonant sites of conflict to explore how the stories we tell—and the ones we don't—shape our realities. "Ta-Nehisi Coates always writes with a purpose. . . . These pilgrimages, for him, help ground his powerful writing about race."—Associated Press "Coates exhorts readers, including students, parents, educators, and journalists, to challenge conventional narratives that can be used to justify ethnic cleansing or camouflage racist policing. Brilliant and timely."—Booklist (starred review) Ta-Nehisi Coates originally set out to write a book about writing, in the tradition of Orwell's classic *"Politics and the English Language,"* but found himself grappling with deeper questions about how our stories—our reporting and imaginative narratives and mythmaking—expose and distort our realities. In the first of the book's three intertwining essays, Coates, on his first trip to Africa, finds himself in two places at once: in Dakar, a modern city in Senegal, and in a mythic kingdom in his mind. Then he takes readers along with him to Columbia, South Carolina, where he reports on his own book's banning, but also explores the larger backlash to the nation's recent

reckoning with history and the deeply rooted American mythology so visible in that city—a capital of the Confederacy with statues of segregationists looming over its public squares. Finally, in the book's longest section, Coates travels to Palestine, where he sees with devastating clarity how easily we are misled by nationalist narratives, and the tragedy that lies in the clash between the stories we tell and the reality of life on the ground. Written at a dramatic moment in American and global life, this work from one of the country's most important writers is about the urgent need to untangle ourselves from the destructive myths that shape our world—and our own souls—and embrace the liberating power of even the most difficult truths.
