

Day Of The Oprichnik

George Vernadsky

Day of the Oprichnik Vladimir Sorokin, 2011-03-15 One of The Telegraph's Best Fiction Books of 2011 “Vladimir Sorokin is one of Russia's greatest writers, and this novel is one of his best . . . A joy to read—more entertaining, dynamic, engaging, and deeply hilarious than a dystopian novel has any right to be.” —Gary Shteyngart, author of *Absurdistan* and *Super Sad True Love Story* A startling, relentless portrait of a troubled and troubling Russian empire, Vladimir Sorokin's *Day of the Oprichnik* is at once a richly imagined vision of the future and a razor-sharp diagnosis of a country in crisis. Moscow, 2028. A scream, a moan, and a death rattle slowly pull Andrei Danilovich Komiaga out of his drunken stupor. But wait—that's just his ring tone. So begins another day in the life of an oprichnik, one of the czar's most trusted courtiers—and one of the country's most feared men. In this new New Russia, where futuristic technology and the draconian codes of Ivan the Terrible are in perfect synergy, Komiaga will attend extravagant parties, partake in brutal executions, and consume an arsenal of drugs. He will rape and pillage, and he will be moved to tears by the sweetly sung songs of his homeland. Vladimir Sorokin has imagined a near future both too disturbing to contemplate and too realistic to dismiss. But like all of his best work, Sorokin's new novel explodes with invention and dark humor.

Unstuck in Time Eliot Borenstein, 2024-11-15 Today's Russia, *Unstuck in Time* suggests, is a nation of time travelers, living either in memories of the Great Patriotic War and a society that provided for all its citizens or in an alternative future in which the USSR never collapsed. Eliot Borenstein examines the ways in which films, fiction, television, social media, political parties, and even theme parks use the conventions of time travel and alternate history to fantasize about narratives that are more appealing than the post-Soviet present. *Unstuck in Time* explores the centrality of an uncannily persistent USSR in the post-Soviet cultural imagination through deeply engaged and entertaining readings of an impressive array of texts: fantasies in which characters time-crash into the Soviet past, fictions of triumphant far-future Soviet societies, and real-life enterprises feeding the belief that the Soviet Union never ended. Whether channeled into benign nostalgia or dangerous mythmaking, the cases that Borenstein analyzes reveal the extent to which the psychic shock of the end of the Soviet Union left Russians adrift, caught between a past many still long for and a future few can imagine.

Russian Literature since 1991 Evgeny Dobrenko, Mark Lipovetsky, 2015-11-12 An international team of leading experts provide the first comprehensive account of post-Soviet Russian literature.

Vladimir Sorokin's Discourses Dirk Uffelmann, 2020-04-21 Vladimir Sorokin is the most prominent and the most controversial contemporary Russian writer. Having emerged as a prose writer in Moscow's artistic underground in the late 1970s and early 80s, he became visible to a broader Russian audience only in the mid-1990s, with texts shocking the moralistic expectations of traditionally minded readers by violating not only Soviet ideological taboos, but also injecting vulgar language, sex, and violence into plots that the postmodernist Sorokin borrowed from nineteenth-century literature and Socialist Realism. Sorokin became famous when the Putin youth organization burned his books in 2002 and he picked up neo-nationalist and neo-imperialist discourses in his dystopian novels of the 2000s and 2010s, making him one of the fiercest critics of Russia's "new middle ages," while remaining steadfast in his dismantling of foreign discourses.

The Sugar Kremlin Vladimir Sorokin, 2025-09-30 Presenting a wide variety of genres and tones, *The Sugar Kremlin* lays out a frightening vision of speculative mercilessness and carnivalesque political horror. *The Sugar Kremlin* is the follow-up to Vladimir Sorokin's *Day of the Oprichnik*, taking place in the same New Medieval universe over the course of fifteen chapters that all return to the object of the title: replicas of the Moscow Kremlin made of sugar. Thousands of these creations are given away to children during the holidays, then make their way through each stratum of Russian society. We follow the trajectories of these candied gifts from the hands of harried paupers to secret political dissidents, from torture-obsessed civil servants to sex workers in a nearby bordello... As Sorokin shifts from story to story and style to style, he draws the reader through grotesquely Russian scenes, creating an aberrantly metaphysical encyclopedia of the New Medieval Russian soul. The candy's sweetness is deceptive—underneath it, you may detect notes of blood and excrement.

Russian Studies in Literature , 2009

Their Four Hearts Vladimir Sorokin, 2022-06-21 In many respects, *Their Four Hearts* is a book of endings and final things. Vladimir Sorokin wrote it in the year the Soviet Union collapsed and then didn't write fiction for ten years after completing it—his next book being the infamous *Blue Lard*, which he wrote in 1998. Without exaggerating too much, one might call it the last book of the Russian twentieth century and *Blue Lard* the first book of the Russian twenty-first century. It is a novel about the failure of the Soviet Union, about its metaphysical designs, and about the violence it produced, but presented as God might see it or Bataille might write it. *Their Four Hearts* follows the violent and nonsensical missions carried out by a group of four characters who represent Socialist Realist archetypes: Seryozha, a naive and optimistic young boy; Olga, a dedicated female athlete; Shtaube, a wise old man; and Rebrov, a factory worker and a Stakhanovite embodying Soviet manhood. However, the degradation inflicted upon them is hardly a Socialist Realist trope. Are the acts of violence they carry out a more realistic vision of what the Soviet Union forced its "heroes" to live out? A corporealization and desacralization of self-sacrificing acts of Soviet heroism? How the Soviet Union truly looked if you were to strip away the ideological infrastructure? As we see in the long monologues Shtaube performs for his companions—some of which are scatological nonsense and some

of which are accurate reproductions of Soviet language--Sorokin is interested in burrowing down to the libidinal impulses that fuel a totalitarian system and forcing the reader to take part in them in a way that isn't entirely devoid of aesthetic pleasure. As presented alongside Greg Klassen's brilliant charcoal illustrations, which have been compared to the work of Bruno Schulz by Alexander Genis and the work of Ralph Steadman as filtered through Francis Bacon by several gallerists, this angular work of fiction becomes a scatological storybook-world that the reader is dared to immerse themselves in.

A History of Russia Volume 1 Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US, Canada and around the world. Moss's accessible history includes full treatment of everyday life, the role of women, rural life, law, religion, literature and art. In addition, it provides many other features that have proven successful with both professors and students, including: a well-organized and clearly written text, references to varying historical perspectives, numerous illustrations and maps that supplement and amplify the text, fully updated bibliographies accompanying each chapter as well as a general bibliography of more comprehensive works, a glossary, and chronological and genealogical lists. Moss's A History of Russia will appeal to academics, students and general readers alike.

Russian and Soviet Music Boris Schwarz, Malcolm Hamrick Brown, 1984

The Blizzard Vladimir Sorokin, 2015-12-01 Long-listed for the 2016 PEN Translation Prize A New York Times Book Review Editor's Choice A dazzling, utterly distinctive saga from the internationally celebrated and controversial novelist Vladimir Sorokin, the shock jock of Russian letters (Harper's). Vladimir Sorokin [is] Russia's most inventive contemporary author . . . [Gambrell's] translation is as elegant, playful and layered as the original. —Masha Gessen, The New York Times Book Review Garin, a district doctor, is desperately trying to reach the village of Dolgoye, where a mysterious epidemic is turning people into zombies. He carries with him a vaccine that will prevent the spread of this terrible disease, but is stymied in his travels by an impenetrable blizzard. A trip that should last no more than a few hours turns into a metaphysical journey, an expedition filled with extraordinary encounters, dangerous escapades, torturous imaginings, and amorous adventures. Trapped in an existential storm, Vladimir Sorokin's characters fight their way across a landscape that owes as much to Chekhov's Russian countryside as it does to the postapocalyptic terrain of science fiction. Hypnotic, fascinating, and richly drawn, *The Blizzard* is a seminal work from one of the most inventive authors writing today. Sorokin has created yet another boldly original work, which combines an avant-garde sensibility with a taste for the absurd and the grotesque, all while delivering stinging truths about contemporary life and modern-day Russia.

Tchaikovsky Peter Ilich Tchaikovsky,Aleksandra Anatol'evna Orlova,1990 This unique documentary biography is the first to draw on the composer's own private documents--over 5,000 letters, his diaries, and articles--to present the most complete and compelling picture ever of his turbulent life and work. Linking the documents with concise, explanatory comments, Orlova charts chronologically the events of his life and sheds new light on all aspects of his personality, including his methods of working and his views on such subjects as philosophy, religion, literature, and music. Of particular interest is the clear evidence Orlova presents for the theory that Tchaikovsky did not die of cholera in 1893, but committed suicide to preserve his honor and cover up a personal scandal. Suppressed in the Russian edition of the book, the suicide theory has since been corroborated by another source and receives its fullest exposition to date in this English-language edition.
