**Guide and Criteria for Program Quality Review** California. State Department of Education, California State Dept. of Education, Sacramento, 1994 This document contains guidelines to be used by California schools in conducting the Program Quality Review (PQR). The goal of the self-review process is to enable the entire school community to focus, through extensive discussion, on how the curriculum and instruction in a school can be improved so that all students can be fully engaged in a high-quality thinking, meaning-centered curriculum. Part 1 presents a question-and-answer format to clarify concerns about the PQR process and describes the major steps in the process--preparation, the curriculum self-review process, and implementation/followup. It also outlines the roles of external consultants. Part 2 specifies criteria for evaluating curricula (such as health education, history and social science, language arts, mathematics, physical education, science, and visual performing arts) and instructional support. Each curriculum criterion includes a focus statement and corresponding examples of student work and professional practices. Instructional support sections contain a focus statement and exemplars of teaching activities. The third part contains sample timelines, student work summaries, improvement plans, and visitation reports. The final part provides information about California regional networks of foundation and partnership schools and lists of relevant organizations and publications. (LMI)
