*English for young learners from pre-school to lower secondary* Olivia Mair,Amanda Murphy,2018-06-29 This collection of essays examines English language learning in formal education contexts from pre-school to lower secondary level. Focused on an in-service teacher education project that aimed to enhance the teaching of English in a group of schools, it takes into account the perspectives of multiple stakeholders - heads of school, teachers, parents and children. Its novelty lies in the variety of themes it covers, such as the account of a vertical implementation of a Content and Language Integrated Learning (CLIL) project at three school levels, teachers' attitudes to using picturebooks in L2 settings, cultural differences in the presentation of content in textbooks, and the role of the native language assistant. "English for Young Learners" makes a valid contribution to research on a matter of crucial importance in Italian education in the 21st century, the improvement of the teaching and learning of English. It will be of interest to student teachers, educators, practitioners and researchers.

Teaching Essential Literacy Skills in the Early Years Classroom Tara Concannon-Gibney,2018-11-12 Teaching and learning literacy in the early years can be a joyful, explorative and meaningful experience. This accessible book will give teachers and practitioners the practical and theoretical skills and knowledge they require to successfully and confidently teach reading, writing and oral skills in the early years classroom. Foregrounding the ways in which literacy instruction can be made enjoyable and meaningful from the very beginning, Teaching Essential Literacy Skills in the Early Years Classroom explores the theory and practice of teaching various aspects of literacy and language, from phonological awareness, phonics and fluency, to vocabulary and comprehension. in writing instruction, illustrate how language and literacy can be developed through play, and outline how a teacher might use the environment to enhance children's learning. Downloadable resources, examples of planning, classroom activities and vignettes can be quickly and easily adapted for use in any early years setting. A rich and comprehensive source of information, ideas, activities and tips, this will be a key resource for pre- and in-service teachers and practitioners looking to adopt a cohesive, effective and meaningful approach to literacy teaching and learning.

Total Speech: Blending Techniques in Speech and Language Therapy Karen Massey, Gemma Lester, 2023-07-25 This book explores how speech and language therapists can use a wide range of multi-modal therapy techniques to elicit speech sound. Due to the nature of the approach, there is a limited evidence base in the area, so this book draws on the authors' extensive experience, as well as testimonials from families who have been successfully supported by the approach, to offer a new and unique perspective for therapy. By using a total communication approach, the book provides clinicians with the confidence to be more open and experimental in their practice, when traditional routes are proving unsuccessful, to best meet the needs of clients with more complex clinical backgrounds. Chapters include the following: Setting the scene. Persistent speech sound disorders. Popular techniques. Adding the extra dimension. Case studies. How to run a Total Speech group. Total Speech shares success stories of how well-known techniques can be blended to achieve progress and results. It will be a useful addition to any speech and language therapist's therapy toolkit.

Retos de la educación bilingüe Richard Johnstone, Yen-Ling Teresa Ting, Raquel Cañadas Blanco, Borja Garrido Aguayo, Denise Beverley Heather, Claire Manners, Anna Amin, Alan Dobson, Maite Vega Manjón, Lia Limcaoco, Elena Del Pozo Mazano, Jesús Fidalgo Fernández, 2011 Desde 1996, los programas de enseñanza bilingüe con lenguas extranjeras están presentes en el panorama educativo español. En los últimos cinco años se ha producido una notable expansión de estos proyectos. Como toda novedad, esta situación plantea nuevos retos al profesorado y los centros: ¿Cómo plantear la

transmisión de conocimientos en otras lenguas? ¿Cómo conseguir mantener los niveles de rendimiento con el aumento del esfuerzo requerido por parte del alumnado y profesorado? ¿Cómo encontrar materiales didácticos apropiados? ¿Cómo hacer frente a las necesidades lingüísticas y de contenido en cada área? ¿Cómo evaluar los contenidos a través de una segunda lengua? Esta publicación surge con la intención de ofrecer respuestas prácticas a estos cuestionamientos del profesorado. Se presentan propuestas generales de trabajo en el aula, propuestas más específicas de trabajo en distintas áreas curriculares, propuestas de evaluación y vías de trabajo para alumnado con dificultades de aprendizaje de naturaleza lingüística.

### **Muros de discriminación y exclusión en la construcción de identidades: la mirada de las ciencias sociales.**

Almudena Cotán Fernández, José Carlos Ruiz Sánchez, 2021 Si algo caracteriza a la globalización contemporánea es la apertura, flexibilización y, sobre todo, la hibridación de la que estamos siendo testigos a la hora de construir las identidades. Antes de que la interacción en internet por medio de las redes sociales hiciera acto de presencia, la edificación de identidades tenía un marcado carácter de proximidad y presencialidad. Los referentes en torno a lo cuales pivotaba la pedagogía identitaria estaban configurados en los círculos de intimidad que se experimentaban en vivo y en directo, que poseían un testimonio claro y personalmente conocido. En este sentido, el plano mediático como eje referencial para esta construcción de la personalidad se percibía desde la lejanía y se caracterizaba por un halo ilusorio.
