

Ordeal Linda Lovelace

Joshua Cohen, Archon Fung

Ordeal Linda Lovelace, 2005-12-27 The infamous biography of the legendary Deep Throat star, in which she reveals a systematic programme of abuse and degradation on the part of Chuck Traynor, her partner and director. Its original publication in 1980 marked the public culmination of a startling volte-face that had the woman credited with making porn acceptable denounce the industry and its practices wholeheartedly, claiming that she had been forced at gunpoint to perform scenes and that she had felt no pleasure in what she was doing. Remains the world's best-known book on porn.

Inside Linda Lovelace Linda Lovelace, 1947

Out of Bondage Mike McGrady, Linda Lovelace, 1988-04-01

In Harm's Way Catharine A. MacKinnon, Andrea Dworkin, 1997 This book contains the oral testimony of victims of pornography, spoken on the record for the first time in history. Speaking at hearings on a groundbreaking antipornography civil rights law, women offer eloquent witness to the devastation pornography has caused in their lives. Supported by social science experts and authorities on rape, battery, and prostitution, discounted and opposed by free speech advocates and absolutists, their riveting testimony articulates the centrality of pornography to sexual abuse and inequity today. At issue in these hearings is a law conceived and drafted by Andrea Dworkin and Catharine A. MacKinnon that defines harm done through pornography as a legal injury of sex discrimination warranting civil redress. From the first set of hearings in Minneapolis in 1983 through those before the Massachusetts state legislature in 1992, the witnesses heard here expose the commonplace reality of denigration and sexual subordination due to pornography and refute the widespread notion that pornography is harmless expression that must be protected by the state. Introduced with powerful essays by MacKinnon and Dworkin, these hearings-unabridged and with each word scrupulously verified-constitute a unique record of a conflict over the meaning of democracy itself-a major civil rights struggle for our time and a fundamental crisis in United States constitutional law: Can we sacrifice the lives of women and children to a pornographer's right to free speech? Can we allow the First Amendment to shield sexual exploitation and predatory sexual violence? These pages contain all the arguments for protecting pornography-and dramatically document its human cost.

Cultural Expressions of Evil and Wickedness Terrie Waddell, 2003 This is a fascinating study of the a-temporal nature

of evil in the West. The international authors who have contributed to this text not only concentrate on political, social and legally sanctioned cruelty from the past and present, but also explore the nature of moral transgression in contemporary art, media and literature. Although many forms and practices of what might be called evil' are analysed, all are bound by violence and/or the sexually perverse.

Walking Shadows Ib Johansen, 2015-08-25 *Walking Shadows* focuses on the American fantastic and the American grotesque, attempting in this manner for the first time to establish an overview of and a theoretical approach to two literary modes that have often been regarded as essential to an understanding of the American cultural canon. The central importance of these two literary forms has been pointed out earlier by important theorists such as Stanley Cavell, David Reynolds, and William Van O'Connor. A number of literary works, from the beginning of the nineteenth to the end of the twentieth centuries, are taken up in order to illustrate the inherent links or family resemblances between the two modes, with special reference to the way in which a Bakhtinian reading may facilitate our appreciation of their status within the canon. These excursions into the House of Fantastic and Grotesque Fiction may be of interest not only to hardcore aficionados, but also to philosophically minded readers in general, in particular perhaps to those who have paid acute attention to debates on late twentieth and early twenty-first century post-structuralism and deconstruction (where the classic positions of Foucault, Derrida, et al. still appear to be relevant).

A New Literary History of America Greil Marcus, Werner Sollors, 2012-05-07 America is a nation making itself up as it goes along. A story of discovery and invention unfolding in speeches and images, letters and poetry, unprecedented feats of scholarship and imagination. In these myriad, multiform, endlessly changing expressions of the American experience, the authors and editors of this volume find a new American history. In more than two hundred original essays, *A New Literary History of America* brings together the nation's many voices. From the first conception of a New World in the sixteenth century to the latest re-envisioning of that world in cartoons, television, science fiction, and hip hop, the book gives us a new, kaleidoscopic view of what "Made in America" means. Literature, music, film, art, history, science, philosophy, political rhetoric—cultural creations of every kind appear in relation to each other, and to the time and place that give them shape. The meeting of minds is extraordinary as T. J. Clark writes on Jackson Pollock, Paul Muldoon on Carl Sandburg, Camille Paglia on Tennessee Williams, Sarah Vowell on Grant Wood's American Gothic, Walter Mosley on hard-boiled detective fiction, Jonathan Lethem on Thomas Edison, Gerald Early on Tarzan, Bharati Mukherjee on *The Scarlet Letter*, Gish Jen on *Catcher in the Rye*, and Ishmael Reed on *Huckleberry Finn*. From Anne Bradstreet and John Winthrop to Philip Roth and Toni Morrison, from Alexander Graham Bell and Stephen Foster to Alcoholics Anonymous, Life, Chuck Berry, Alfred Hitchcock, and Ronald Reagan, this is America singing, celebrating itself, and becoming something altogether different, plural, singular, new. Encyclopedia of Prostitution and Sex Work Melissa Hope Ditmore, 2006-08-30 The A-to-Z encyclopedia offers entries related to prostitution and the sex industry, past and present, worldwide (mostly in the West) and in the United States. An introduction overviews the scope of prostitution from the earliest historical records, including the Bible.

On Feminist Ethics and Politics Claudia Card, 1999 For years, mainstream feminist ethics focused criticism on male supremacy. Feminist philosophers in this volume adopt a less male-focused stance to look closely at oppression's impact on women's agency and on women's relations with women. Examining legal, social, and physical relationships, these philosophers confront moral ambiguity, moral compromise, and complicity in perpetuating oppression. Combining personal experience with philosophical inquiry, they vividly portray their daily engagement with oppression as both victims and perpetrators. They explore such issues as how pornography silences women and radical feminist politics' complicity in racism. Among these insightful essays, Sandra Bartky argues that women share guilt for racism when they benefit from it without protest; Susan Brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for rape or murder; Joan Callahan examines fallout of derogatory speech directed at lesbians; Virginia Held proposes carrying care into marketplaces and governments; and, in her introduction, Claudia Card draws on Primo Levi's conception of gray zones in exploring dangers of character damage to victims of misogyny. A fitting companion to Card's highly regarded *Feminist Ethics*, this volume interweaves observations on character, political ethics, violence, and love into an accessible sourcebook for students. It tackles some of feminism's most pressing issues and helps readers to identify and then overcome the real damage caused by oppression.

Pornography and Difference Berkeley Kaite, 1995 This study of pornographic magazine photographsÑsoftcore, hardcore, transsexual/transvestiteÑanalyzes the visual code of these images and engages questions about masculinity and masculine sexuality.

Writing Out Your Life Jo Stanley, 1998 Lively and full of fresh ideas, *Writing Out Your Life* encourages women to write autobiographical in exciting new ways. Designed for both individual and group use, this book covers everything from the moment of starting to the possibilities of publishing and is packed with exercises and examples of other's processes and how to overcome fears and resistance, how to find background material from local history archives, libraries, family memorabilia and oral testimony.

Constitution, Democracy and State Power Joshua Cohen, Archon Fung, 1996 A just society guarantees its members rights to basic civil liberties protecting the political liberties associated with democratic governance, while ensuring state accountability and responsiveness to citizens. Despite broad agreement on these abstract requirements, the conditions that foster justice, thus understood, are a matter of long-standing controversy in political theory. This important collection addresses these controversies with over fifty articles on basic political institutions such as the rule of law, judicial review, federalism, separation of powers, freedom of speech, elections and parties, direct democracy, organized social groups, and administrative agencies.
