Jean-Louis CLARET

As If Human Nigel Shadbolt, Roger Hampson, 2024-05-14 A new approach to the challenges surrounding artificial intelligence that argues for assessing AI actions as if they came from a human being Intelligent machines present us every day with urgent ethical challenges. Is the facial recognition software used by an agency fair? When algorithms determine questions of justice, finance, health, and defense, are the decisions proportionate, equitable, transparent, and accountable? How do we harness this extraordinary technology to empower rather than oppress? Despite increasingly sophisticated programming, artificial intelligences share none of our essential human characteristics—sentience, physical sensation, emotional responsiveness, versatile general intelligence. However, Nigel Shadbolt and Roger Hampson argue, if we assess AI decisions, products, and calls for action as if they came from a human being, we can avert a disastrous and amoral future. The authors go beyond the headlines about rampant robots to apply established moral principles in shaping our AI future. Their new framework constitutes a how-to for building a more ethical machine intelligence.

Metamorfoses Karolina Watroba, 2024-09-23 O livro que conta a história de Franz Kafka através da interpretação de seus leitores do mundo todo Cem anos após a morte de Franz Kafka, leitores de todo o mundo revisitam suas obras. Muitos deles buscam aprender mais sobre o homem por trás dos clássicos repletos de tribunais misteriosos e insetos monstruosos. Quem, exatamente, foi Franz Kafka? Karolina Watroba, a primeira germanista eleita membro do All Souls College, em Oxford, conta a história de Kafka para além das fronteiras de linguagem, tempo e espaço, viajando desde Praga, cidade natal do autor, até o trabalho de escritores contemporâneos da Ásia Oriental, cujos romances premiados são, em parte, homenagens ao grande escritor. Metamorfoses é uma jornada não cronológica pela vida de Kafka, reunindo sua erudição literária com as respostas de seus leitores ao longo do tempo. É tanto uma investigação da vida de Kafka quanto uma emocionante abordagem da história literária.

Thriveology HeeKap Lee, 2021-10-15 Can our students learn something positive for themselves in spite of traumatic and toxic situations? Can they thrive in their cognitive, emotional, and social capacities to transform their painful and challenging current COVID-19 environment? What do teachers need to do for this? These questions guided this book to suggest a new perspective of education, called the Pedagogy of Thriveology, which challenges students to overcome the current toxic social environments based on the biblical perspective. In fact, Jesus presents many effective teaching cases in Scripture. In this

book, I identify specific cases of audiences who experienced trauma (that are related to physical, emotional, relational, spiritual, cultural, ethical identity issues) along with appropriate learning strategies and instructional processes that are used by Jesus so that the specific audience in each case would be equipped with resilience needed to overcome their trauma.

Picturing Shakespeare Jean-Louis CLARET, 2024-05-07 This study investigates the capacity of Shakespeare's texts - obviously destined for stage performances - to generate images and mental colours in the readers' and in the spectators' minds. Such notions as *Ut pictura poesis* and the *paragone* are discussed in the first part of this book, along with the function and nature of colours. After considering the sets of correspondences and the major differences between texts and images, the author presents and analyzes some of his own illustrations of Shakespearean characters. Jean-Louis Claret, both a university professor specialized in Shakespeare's theatre and an illustrator, proposes to shed light on the process that led him from the perusal of the written text to the visualization of visages. The voice of poets is unconventionally called upon to shed light on the complex mechanisms he describes.
