**The Encyclopedia of Film Composers** Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

**Crime and Spy Jazz on Screen Since 1971** Derrick Bang, 2020-04-01 Henry Mancini's Peter Gunn theme. Lalo Schiffrin's Mission: Impossible theme. Isaac Hayes' theme from Shaft. These iconic melodies have remained a part of the pop culture landscape since their debuts back when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies and heist-minded criminals. Hundreds of additional films and television shows made from the mid-1950s and beyond have been propelled by similarly swinging title themes and underscores, many of which have (undeservedly) faded into obscurity. This meticulously researched book begins with Hayes' game-changing music for Shaft, and honors the careers of traditional jazz composers who—as the 1970s gave way to the '80s and beyond—resolutely battled against the pernicious influx of synth, jukebox scores and a growing corporate disinterest in lavish ensembles. Fans frustrated by the lack of attention paid to jazz

soundtrack composers--including Mort Stevens, Laurie Johnson, Mike Post, Earle Hagen, David Shire, Elmer Bernstein and many, many others--will find solace in these pages (along with all the information needed to enhance one's music library). But this is only half the story; the saga's origins are discussed in this book's companion volume, *Crime and Action Jazz on Screen: 1950-1970*.

*Crime and Spy Jazz on Screen, 1950-1970* Derrick Bang, 2020-04-01 Henry Mancini's Peter Gunn theme. Lalo Schiffrin's Mission: Impossible theme. John Barry's arrangement of the James Bond theme. These iconic melodies have remained a part of the pop culture landscape since their debuts in the late 1950s and early '60s: a golden decade that highlighted an era when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies and heist-minded criminals. Hundreds of additional films and television shows made during this period were propelled by similarly swinging title themes and underscores, many of which have (undeservedly) faded into obscurity. This meticulously researched book traces the embryonic use of jazz in mainstream entertainment from the early 1950s--when conservative viewers still considered this genre the devil's music--to its explosive heyday throughout the 1960s. Fans frustrated by the lack of attention paid to jazz soundtrack composers--including Jerry Goldsmith, Edwin Astley, Roy Budd, Quincy Jones, Dave Grusin, Jerry Fielding and many, many others--will find solace in these pages (along with all the information needed to enhance one's music library). The exploration of action jazz continues in this book's companion volume, *Crime and Action Jazz on Screen Since 1971*.

**Richard Strauss** Derrick Puffett, 1989 The contributions to this handbook bring together a full-length study of Elektra in English. The volume examines the many facets of one of Richard Strauss's most complex operas. First, P. E. Easterling surveys the mythological background, while Karen Forsyth discusses Hofmannsthal's adaptation of his sources. The second part brings the music to the fore. Derrick Puffett offers an introductory essay and synopsis; Arnold Whittall considers the tonal and dramatic structure of the composition; Tethys Carpenter explores the musical language of the work in detail, with special focus given to part of the Klytaemnestra scene. The third part of the volume offers two contrasting critical essays: Carolyn Abbate provides an interpretation informed by her recent work on narrative, and Robin Holloway analyses Strauss's orchestration of the opera. The book also contains a discography and an appendix of excerpts from the Strauss-Hofmannsthal correspondence.
