The Liberal Media Industrial Complex Mark Dice, 2019-11-12 The “media” used to mean television, radio, newspapers, and magazines; but today it largely involves social media, which has swallowed up all of these other forms and is now controlled by a small group of Silicon Valley titans who decide what billions of people are able to see and hear online. The convergence of old technology and new has centralized unimaginable power into the hands of a few gigantic corporations that now dictate how we communicate with each other and perceive the outside world. Media analyst Mark Dice details how the rise of social media that tipped the balance of power regarding the production and distribution of information has also resulted in a massive backlash from those conspiring to regain the influence they once held. Now conservatives are experiencing widespread censorship as the tech giants scramble to put the genie back in the bottle. The liberal media has launched an information war against President Trump and his supporters, and are using their monopolies to manipulate public opinion in order to further their aims of a socialist revolution.

Modern Jeremiahs Mark Stephen Jendrysik, 2008-01-01 This book identifies where modern Jeremiahs place the sources of national decline and their purposed solutions and its analysis also reveals the central problem faced by this form of writing: the need to balance condemnation of certain practices within the democratic polity with calls for repentance. For these writers and political actors, the tensions created by these demands prove impossible to resolve, as the modern jeremiad further divides an already divided nation.

The World According to Bill O'Reilly Ken Lawrence, 2011-05-13 Bill O'Reilly, FOX News commentator and host of the political talk show *The O'Reilly Factor*, is known for expressing his opinions. Is he fair and balanced or unabashedly partisan? In *The World According to Bill O'Reilly*, his words speak for themselves: Once the war against Saddam Hussein begins, we expect every American to support our military, and if you can't do that, just shut up. Americans, and indeed our foreign allies who actively work against our military once the war is underway, will be considered enemies of the state by me. Putting your ego above the welfare of others equals the loss of all credibility. Americans deserve honest, fair reporting from all news organizations. In this age of terror, we must have accurate information and hear both sides of issues in order to adequately

protect ourselves and our families. This is not a conservative/liberal issue. This is an honesty issue. The country needs its premier newspapers to be trustworthy and look out for us, but not so be bitterly ideological that they can't report the news straight.

Kidding Around Alexander N. Howe, Wynn Yarbrough, 2014-01-16 *Kidding Around: The Child in Film and Media* is a collection of essays generated by a conference of the same title held at the University of the District of Columbia. The works gathered examine a variety of children's media, including texts produced for children (e.g., children's books, cartoons, animated films) as well as texts about children (e.g., feature-length films, literature, playground architecture, parenting guides). The primary goal of *Kidding Around* is to analyze and contextualize contested representations of childhood and children in various twentieth- and twenty-first-century media while accounting for the politics of these narratives. Each of the essays gathered offers a critical history of the very notion of childhood, at the same time as it analyzes exemplary children's texts from the twentieth and twenty-first centuries. These chapters depart from various methodological approaches (including psychoanalytic, sociological, ecological, and historical perspectives), offering the reader numerous productive approaches for analyzing the moments of cultural conflict and impasse found within the primary works studied. Despite the fact that today children are one of the most coveted demographics in marketing and viewership, academic work on children's media, and children in media, is just beginning. *Kidding Around* assembles experts from this inchoate field, opening discussion to traditional and non-traditional children's texts.

Encyclopedia of Political Communication Lynda Lee Kaid, Christina Holtz-Bacha, 2008 Political communication began with the earliest studies of democratic discourse by Aristotle and Plato. However, modern political communication relies on an interdisciplinary base, which draws on concepts from communication, political science, journalism, sociology, psychology, history, rhetoric, and others. This two-volume resource considers political communication from a broad interdisciplinary perspective, encompassing the many different roles that communication plays in political processes in the United States and around the world. The *Encyclopedia of Political Communication* discusses the major theoretical approaches to the field, including direct and limited effects theories, agenda-setting theories, sociological theories, framing and priming theories, and other past and present conceptualizations. With nearly 600 entries, this resource pays considerable attention to important political messages such as political speeches, televised political advertising, political posters and print advertising, televised political debates, and Internet sites. The audiences for political communications are also central, necessitating concentration on citizen reactions to political messages, how the general public and voters in democratic systems respond to political messages, and the effects of all types of media and message types. Key Features: Encompasses several channels of political communication including interpersonal and public communication, radio, television, newspapers, and the World Wide Web

Analysis James Zimmerhoff, 2017-10-11 Killing England Killing England: The Brutal Struggle for American Independence, is the first announcement in Mr. O'Reilly's popular history series since Fox fired him. Every fall for the latter seven years, Bill O'Reilly, the retired Fox News host, printed a new title in his blockbuster Killing series. And time without fail, the books reach the top of the nonfiction best-seller list. It is a book he wrote with Martin Dugard about the Revolutionary War. The subject only ought to be attractive to his conservative fan base. There are many reasons for these listless preorder sales, including maybe the erosion of Mr. O'Reilly's fan base after reports that he had settled claims by five females who accused him of sexual harassment or verbal abuse. The scandal and the resulting advertising boycotts cost him his job at Fox, divesting him of a platform to promote his books to a nightly audience of almost four million viewers. But Mr. O'Reilly's publishing career isn't over by any stretch. As sales prove and his publisher, Henry Holt, persisted by him after Fox fired him. And big book retailers like Amazon and Barnes & Noble continue to sell his books. A spokeswoman for Barnes & Noble stated that the chain would present Killing England prominently in its buildings and that the company was treating it like all best-selling books. A representative for Holt said the company had a national media and advertising plan for the title. We are just as passionate and supportive of Bill O'Reilly's newest book, 'Killing England, ' as we have been about his other best-selling titles we've printed for him. But Mr. O'Reilly's Killing books, which he writes with Mr. Dugard, succeeded in large part because they were a piece of his massive media empire. The titles have typically sold more than a million copies in the first

few months - a colossal figure for nonfiction. Previous editions in the series, all instant No. 1 New York Times bestsellers, were Killing Kennedy, Killing Lincoln, Killing Jesus, Killing Reagan, Killing Patton, and Killing the Rising Sun. Together, more than 17 million impressions of those titles are in distribution in all formats, including audiobooks, digital books, and young readers' editions. In its first week last year, Killing the Rising Sun sold more than a quarter of a million copies, according to a news release from Holt. The book went on to be the best-selling adult book of 2016, selling 1.1 million copies, according to Publishers Weekly. Even though Holt has continued committed to Mr. O'Reilly since the scandal, other partnerships have dissolved. Not long after Fox let Mr. O'Reilly go, National Geographic dropped its planned adaptation of Killing Patton, that explores the death of Gen. George S. Patton. Four of the initial Killing books went into the documentaries for National Geographic. The documentaries pulled in an average of 3.1 million viewers, giving the books another flow of exposure. After the documentary about Patton cancelation, the network announced that it was a creative decision. Other creative partnerships seem to have ended quietly. Last year, Mr. O'Reilly distributed Give Please a Chance, a children's picture book promoting good manners, together with another best-selling writer, James Patterson. The book, for 2- to 5-year-olds, printed by Mr. Patterson's children's book imprint, Jimmy Patterson. This fall, Mr. Patterson is releasing a sequel. It's still unclear how or if severely Mr. O'Reilly's sales will be affected by the fallout from the harassment disgrace. Transactions for his 2016 best seller, Killing the Rising Sun, dropped after his firing, but sales of prior books in the series often declined in the spring and summer. A study by NPD BookScan of the first 52 weeks of sales in his Killing series noticed the recent drop is consistent with previous years.
