In their Time of Need: Volume 6, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations Steven Bullard, 2017-08-04 This volume of The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations recounts the activities of Australia's military forces in response to overseas natural disasters. The military's involvement in overseas emergency management is focused primarily on the period immediately after disaster strikes: transporting relief supplies, providing medical assistance, restoring basic services and communications and other logistical support. Beginning with the 1917-18 influenza epidemic that ravaged the Pacific and culminating with the 2005 Pakistan earthquake, this book covers Australia's response to some of the most catastrophic natural events of the twentieth century. In their Time of Need is richly detailed, as Steven Bullard weaves together official government records and archival images with the personal narratives and photographs of those who served. This volume is an authoritative and compelling history of Australia's efforts to help their neighbours.

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small, 2021-09-24 Drawing on a wealth of academic research, statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society, and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding, budgets, management and organisational strategies and evolution.

The Tragedy of Australian Foreign Policy Randall Doyle, 2022-01-27 The Evolution of Australian Foreign Policy is a book that presents a modern-day argument concerning Australia's external affairs policies in the 21st century. The book makes the case that it is time for Australia to move on from its historic British colonial roots and its subsequent subservient roles within the empires of Great Britain and the United States since Federation in 1901. The ongoing military debacle and strategic disaster of the U.S.-led Iraq War has triggered a movement within Australia's intellectual and political communities to rethink Australian foreign policy. An impressive group of dissenters began to question Australia's blind obedience to the post-World War II American empire. And, since the extraordinary publication of The Palace Letters, in 2020, the charm and distinction of being a part of the British Commonwealth has begun to lose its glory and uniqueness for a growing number of Australians. In truth, Australia is a nation in transition. It is becoming an independent Republic. A nation of Australians. Led by an Australian president elected by Australians. The nation of Australia has come of age. No more masters of any kind to rule over it. Australia has finally become the master of its own destiny and fate in the 21st century.

Time Briton Hadden, Henry R. Luce, 1982-10

Taking a Stand Robert Tickner, 2003 As a result of initiatives of the Hawke and Keating governments, for the first time indigenous Australians had recourse to international human rights forums.

Keating Kerry O'Brien, 2015-10-21 Paul Keating is widely credited as the chief architect of the most significant period of political and economic reform in Australia's history. Twenty years on, there is still no story from the horse's mouth of how it all came about. No autobiography. No memoir. Yet he is the supreme story-teller of politics. This book of revelations fills the gap. Kerry O'Brien, the consummate interviewer who knew all the players and lived the history, has spent many long hours with Keating, teasing out the stories, testing the memories and the assertions. What emerges is a treasure trove of anecdotes, insights, reflections and occasional admissions from one of the most loved and hated political leaders we have known—a man who either led or was the driving force through thirteen years of Labor government that changed the face of Australia. This is a man who as prime minister personally negotiated the sale of a quarter of the government-owned Qantas in his own office for \$665 million, then delighted in watching the buyer's hand shake so much that champagne spilt down his shirtsleeve. He tells of his grave moment of doubt after making one of the riskiest calls of his political life, and how he used an acupuncturist and a television interviewer to seize the day. There are many stories of this kind. The revealing inside stories and even glimpses of insecurities that go with the wielding of power, from a man who had no fear collecting his share of enemies and ended up with more than enough, but whose parliamentary performances from 25 years ago are watched avidly on YouTube today by a generation that was either not yet born or in knee pants when he was at his peak. We'll never get an autobiography or a memoir from Keating. This is as good as it gets—funny, sweeping, angry, imaginative, mischievous, with arrogance, a glimmer of humility and more than a touch of creative madness. Keating unplugged.

The Andren Report Peter Andren, 2003 This biography of Australian Parliamentarian Peter Andren tells the story of an intelligent and sensitive man who became a politician because he could see that the values he held and the people he cared for had been abandoned by the major parties. Andren's run as an independent and his capture of the federal seat of Calare in central-western New South Wales in 1996 is detailed. His third victory in 2001, which he secured with an amazing majority of the vote, is also discussed, as is how Andren accomplished all of this in a rural electorate, without the benefit of a party organization, and while holding views what are to the left of the Labor, Liberal, and National Parties.

Australia John F. Grabowski, 2002 The history of Australia is the story of the blending of two very different cultures, those of the Aborigines who have lived there for more than 50,000 years, and the Europeans who settled there in the late 18th century.
