You ll find the power, the ability to change and elevate not only your life, but your world as well. It s in your hands. Discover THE POWER OF NOW.

The Power of Now Eckhart Tolle, 1999-09-27 Eckhart Tolle is emerging as one of today's most inspiring teachers. In *The Power of Now*, already a word-of-mouth bestseller in Canada, the author describes his transition from despair to self-realization soon after his 29th birthday. Tolle took another ten years to understand this transformation, during which time he evolved a philosophy that has parallels in Buddhism, relaxation techniques, and meditation theory but is also eminently practical. In *The Power of Now* he shows readers how to recognize themselves as the creators of their own pain, and how to have a pain-free existence by living fully in the present. Accessing the deepest self, the true self, can be learned, he says, by freeing ourselves from the conflicting, unreasonable demands of the mind and living present, fully, and intensely, in the Now.

Practising the Power of Now Eckhart Tolle, 2002 The essential companion volume to the phenomenal self-help bestseller *THE POWER OF NOW* - 'the must-read bible du jour'. Eckhart Tolle's book describes the experience of heightened consciousness that radically transformed his life - and shows how by living in the moment we can also reach a higher state of being where we can find joy and peace and where problems do not exist. The invaluable companion volume - *PRACTISING THE POWER OF NOW* - contains all the essential techniques we need to start to put this important book into practice in our

own lives. No reader will be complete without it.

Practicing the Power of Now Eckhart Tolle,2009-04-03 This manual-style book instantly dives into Eckhart Tolle's principles of living in the moment, which could be a jarring experience for readers who haven't read his preceding book, The Power of Now. For the initiated, though, this makes an excellent companion guide--rich in exercises and meditations to help readers get out of their minds so they can live more peacefully in their bodies. Sometimes it's hard to fathom what on earth Tolle is talking about: To regain awareness of Being and to abide in that state of 'feeling-realization' is enlightenment. Be patient. All concepts will be revealed (or at least more carefully explained). Ultimately, Tolle leads readers into a new form of thinking (or actually not thinking) that erases the consuming habits of waiting, worrying, and being in fear. The first step is ending the delusion of time. He asks, Are you always trying to get somewhere other than where you are? ... Is most of your doing just a means to an end? If so, Tolle has a book full of advice for you. As simplistic as this may sound, Tolle's work has spiritual merit and depth, especially for frantic Westerners who find their lives diminished by packed schedules and busyness.

The Power of Now Eckhart Tolle,2010-04-06 It's no wonder that The Power of Now has sold over 2 million copies worldwide and has been translated into over 30 foreign languages. Much more than simple principles and platitudes, the book takes readers on an inspiring spiritual journey to find their true and deepest self and reach the ultimate in personal growth and spirituality: the discovery of truth and light. In the first chapter, Tolle introduces readers to enlightenment and its natural enemy, the mind. He awakens readers to their role as a creator of pain and shows them how to have a pain-free identity by living fully in the present. The journey is thrilling, and along the way, the author shows how to connect to the indestructible essence of our Being, "the eternal, ever-present One Life beyond the myriad forms of life that are subject to birth and death." Featuring a new preface by the author, this paperback shows that only after regaining awareness of Being, liberated from Mind and intensely in the Now, is there Enlightenment.
