Surah Yasin - the Heart of the Qura'n Jamiatul Ulama Talimi Board Kzn, 2015-12 Surah Yasin was revealed in Makkah with eighty-three verses arranged into five sections. Surah Yasin begins with affirming of Muhammad's [PBUH] prophethood by invoking the Qur'an, the book of wisdom and assuring him that he is on the right guidance. Then it proceeds to describe the fate of the inhabitants of a certain settlement; they repudiated the prophets sent to them and invited Allah's wrath on themselves which wiped them off the face of earth. This account of the attitude of the people of the settlement makes a very

significant point; the truth which the high, proud and sophisticated people of the city failed to see was recognized by a simple, lowly man from the suburbs. After narrating the story of the settlement the surah once again calls upon people to observe and ponder over the vast and varied phenomena of nature - from the stars and planets to the rich productivity of earth - and decide who else but the supreme being who created and subjected the entire universe to an ordered, integrated system is worthy of worship. The surah also declares that the prophet is not a poet and that what he preaches is the Message of Allah I whose knowledge has no bounds, and not imaginary tales, exaggerated descriptions and false assertions (which are the stock-in-trade of decadent poets). All praise is due to Allah Ta'ala, The Supreme Master of all the worlds. Countless Durood and Salaam be upon our beloved Nabi, Sayyidina Muhammad(PBUH).

The order of lessons and the syllabus in this book is completely different from any other Tajweed book. The methodology used in this book since 2010, is based on Noor Ul Bayan, that is the spelling of individual letters of the verses in the Qur'an. As we spell the verse out we study all rules we encounter. So when we reach the end of a verse we will know how to read it correctly, completely, practically, and also have the knowledge of all the rules that the verse contains. This course is structured to help you comprehend each rule in each verse easily. Try to master the rules of each section, apply them in your daily recitation(even just 15 minutes will greatly develop your reading). The rules themselves can be studied independently, but their correct application can only be achieved by listening to, reciting to and being corrected by a qualified teacher of Qu'ran Providing step by step tutorial videos on my YouTube channel: <https://www.youtube.com/user/tajweedtutor/playlists> please support the spreading of this knowledge and getting more books from this type by buying this book, ask your friends to buy it, and write down a good review.
