**Planet of the Apes as American Myth** Eric Greene, 2024-05-15 How do political conflicts shape popular culture? This book explores that question by analyzing how the Planet of the Apes films functioned both as entertaining adventures and as apocalyptic political commentary. Informative and thought provoking, the book demonstrates how this enormously popular series of secular myths used images of racial and ecological crisis to respond to events like the Cold War, the race riots of the 1960s, the Civil Rights movement, the Black Power movement, and the Vietnam War. The work utilizes interviews with key filmmakers and close readings of the five Apes films and two television series to trace the development of the series' theme of racial conflict in the context of the shifting ideologies of race during the sixties and seventies. The book also observes that today, amid growing concerns over race relations, the resurgent popularity of Apes and Twentieth Century--Fox's upcoming film may again make Planet of the Apes a pop culture phenomenon that asks who we are and where we are going. *The Primate Origins of Human Nature* Carel P. Van Schaik, 2016-01-26 The Primate Origins of Human Nature (Volume 3 in The Foundations of Human Biology series) blends several elements from evolutionary biology as applied to primate behavioral ecology and primate psychology, classical physical anthropology and evolutionary psychology of humans. However, unlike similar books, it strives to define the human species relative to our living and extinct relatives, and thus highlights uniquely derived human features. The book features a truly multi-disciplinary, multi-theory, and comparative species approach to subjects not usually presented in textbooks focused on humans, such as the evolution of culture, life history, parenting, and social organization.

*Barye; Life and Works of Antoine Louis Barye, Sculptor* Charles De Kay, 1889 The volume offered by the Barye Monument Association to those interested in the fund for a monument to Antoine Louis Barye at Paris is the memorial of a very uncommon event. The United States has no sentimental feeling with regard to France as the fatherland, like that which a large number of Americans cherish toward Great Britain and Ireland. Bonds of amity were knit in the past, and others have been formed since France became a republic ; but the difference of tongue more than offsets these. Therefore great merit must exist in the artist whose work exercises enough fascination to set Americans on the task of gathering funds for a monument that is to stand three thousand miles away across the ocean. It is often said that art has no country. But when, before this, has a foreign land raised a monument to a sculptor of modern times? -- Preface note.
