The Secret Life Of Sunflowers Marta Molnar, Dana Marton, 2022-07-19 This book draws all the emotions out of you. I went from tears to snorting with laughter. It was both lighthearted and heart breaking, yet it inspires me to live my best life! Michele Cox When Hollywood auctioneer Emsley Wilson finds her famous grandmother's diary while cleaning out her New York brownstone, the pages are full of surprises. The first surprise is, the diary isn't her grandmother's. It belongs to Johanna Bonger, Vincent van Gogh's sister-in-law. Johanna inherited Vincent van Gogh's paintings. They were all she had, and they weren't worth anything. She was a 28 year old widow with a baby in the 1800s, without any means of supporting herself, living in Paris where she barely spoke the language. Yet she managed to introduce Vincent's legacy to the world. The inspiration couldn't come at a better time for Emsley. With her business failing, an unexpected love turning up in her life, and family secrets unraveling, can she find answers in the past? This book was so much more than I had expected, and I had high expectations... one of the most beautiful stories I've read in years. Kaela Stokes

**Diary of a Citizen Scientist** Sharman Apt Russell, 2023-03-14 A critically acclaimed nature writer explores the citizen scientist movement through the lens of entomological field research in the American Southwest. Award-winning nature writer Sharman Apt Russell felt pressed by the current environmental crisis to pick up her pen yet again. Encouraged by the phenomenon of citizen science, she decided to turn her attention to the Western red-bellied tiger beetle, an insect found widely around the world and near her home in the Gila River Valley of New Mexico. In a lyrical, often humorous voice, Russell shares her journey across a wild, rural landscape tracking this little-known species, an insect she calls “charismatic,” “elegant,” and “fierce.” What she finds is renewed optimism in mysteries still left to be explored, that despite the challenges of climate change, there is a growing diversity of ways ordinary people can contribute to the research needs of scientists today in the name of environmental activism. Offering readers a glimpse into the pioneering field of citizen science, *Diary of a Citizen Scientist* documents one woman’s transformation from a feeling of powerlessness to engaged hopefulness. Winner of the John Burroughs Medal and the WILLA Literary Award for Best Creative Nonfiction Named one of the top ten best nature books of 2014 by GrrlScientist in *The Guardian*

**I've Got John** Sherry Ann White, 2013-04-29 Is it possible that I was once a woman who lived first in New Orleans, then in New York City in the 1800s? The next nine chapters chronicle the life and times of a woman by the name of Sarah Anne Wells, who was later in her lifetime known as Sunflower. Most of the information within this biography has been given to me through messages in the form of synchronistic coincidence and spiritual readings, private prayer and meditation, hypnotic past-life regression session, spirit photographs, and through meeting many people in this life whom I am sure were a part of my past lifetime. Ive had many dreams later come true. Ive also been given little physical gifts that are difficult to explain as just coincidence. These gifts were given to me from someone on the other side of the looking glass. Once I accepted the possibility that it was possible to communicate with those on the other side of this reality, the memories of Sarah's life came to me quite easily. They continue to this day. As I wrote each chapter of her life, she began to feel very real to me. I began to hear her voice, feel how her clothing felt next to her skin, and see her image in my mind's mirror. Born into slavery then sold into prostitution, I learned through many messages how difficult it was for her to just survive. My reason for putting all of these messages from Spirit into words is simple. If by reading my book, it provides some comfort and hope, then all the efforts by not only me but all those on the other side of reality, has meaning. WE ARE ONE

*Whispers of the Wild* Crystal Neumann D.B.A. M.H.,2025-04-14 Whispers of the Wild explores ways to interact directly with plants, learn their language, and develop personal connections with nature as spiritual plant allies. This book combines traditional botanical knowledge with modern spiritual practices, providing readers with a distinctive framework for connecting with plants, one that extends beyond the garden and into the heart of the natural world. Through a combination of meditative practices, actionable steps, and specific messages from various plants, the book leads readers to develop personal relationships with specific plant allies. Readers can learn more about experiencing firsthand how plants communicate through energetic exchanges. The book is informed by recent studies in plant cognition and parallels these discoveries with spiritual insights, illustrating how readers can use plant communication for personal healing and emotional support. With an emphasis on interspecies communication and nature-based spirituality, it seeks to redefine our bond with the natural world, encouraging readers to see plants as sentient beings capable of teaching us about balance, patience, and interconnectedness.
