Lloyd's Register of Classed Yachts 1994 Lloyd's Register Foundation,1994-01-01 The Lloyd's Register of Yachts was first issued in 1878, and was issued annually until 1980, except during the years 1916-18 and 1940-46. Two supplements containing additions and corrections were also issued annually. The Register contains the names, details and characters of Yachts classed by the Society, together with the particulars of other Yachts which are considered to be of interest, illustrates plates of the Flags of Yacht and Sailing Clubs, together with a List of Club Officers, an illustrated List of the Distinguishing Flags of Yachtsmen, a List of the Names and Addresses of Yacht Owners, and much other information. For more information on the Lloyd's Register of Yachts, please click here:

Lloyd's Register of British and Foreign Shipping ,1964

The Oxford Handbook of Archaeological Ceramic Analysis Alice M. W. Hunt,2016-12-15 The Oxford Handbook of Archaeological Ceramic Analysis draws together topics and methodologies essential for the socio-cultural, mineralogical, and geochemical analysis of archaeological ceramic. Ceramic is one of the most complex and ubiquitous archaeomaterials in the archaeological record: it occurs around the world and through time in almost every culture and context, from building materials and technological installations to utilitarian wares and votive figurines. For more than 100 years, archaeologists have used ceramic analysis to answer complex questions about economy, subsistence, technological innovation, social organization, and dating. The volume is structured around the themes 'Research design and data analysis', 'Foundational concepts', 'Evaluating ceramic provenance', 'Investigating ceramic manufacture', 'Assessing vessel function', and 'Dating ceramic assemblages'. It provides a common vocabulary and offers practical tools and guidelines for ceramic analysis using techniques and methodologies ranging from network analysis and typology to rehydroxylation dating and inductively coupled plasma mass spectrometry. Each chapter provides the theoretical background and practical guidelines, such as cost and destructiveness of analysis, for each technique, as well as detailed case studies illustrating the application and interpretation of analytical data for answering anthropological questions.

Lloyd's Register of Shipping ,1964 Lists of shipbuilders with existing ships they have built; marine enginebuilders and boilermakers; dry and wet docks; telegraphic addresses and codes used by shipping firms; marine insurance companies.

Encyclopedia of World History Anita Ganeri,2004 A journey through the history of the human race. Over 1000 illustrations, detailed maps, date panels and timelines.

Current Approaches to the Analysis and Interpretation of Small Lithic Sites in the Northeast Christina B. Rieth,2008 This volume reflects the continuing interest and important contributions being made by archaeologists to the study of small lithic sites in the Northeast. The articles in this volume challenge existing notions that these small sites do not produce meaningful data about the past by highlighting the ways in which prehistoric populations exploited the local landscape for settlement purposes. This work has been enhanced by the use of modern analytical, recovery, and archaeometric techniques, which not only have allowed for the reanalysis of older data sets but also have added new information to an already large regional data set. The articles in this volume are grouped around three general themes: Defining and Assessing the Research Potential of Small Lithic Sites, Small Lithic Sites and their Contributions to Local and Regional Settlement Systems, and Managing and Evaluating the National Register Significance of Small Lithic Sites. Small lithic sites dating from the Archaic Period (c. 10,000 B.P.) to European Contact (c. 500 B.P.) are discussed within the volume's chapters.--Publisher's description.
