Vision Quest Peter James Ford, 2023-12-13 “VISION QUEST” is a book recording the continual soul expansion of the seeker, Peter James Ford. Peter’s journey began after a powerful spiritual experience in the little historic seaport in Newburyport, Massachusetts. In Peter’s late night meditations which were along the Merrimac River, the boardwalk, the Salisbury Reservation on the Atlantic Ocean, Plum Island, Maudsley Estate State Park, Pow Wow Hill (Native American Burial Grounds) and Old Hill Burial Grounds he was having vivid explosions in his mind of ‘seemingly’ past life experiences and powerful insights. Peter began seeing the hidden secrets of this quaint little seaport that people never take the time to see. Peter’s intuition and senses increased in an almost scary powerful way giving Peter wisdom from unseen sources. The source may be the Akashic Records/Library that is not a physical library but a place in the ethers that contains all the wisdom

and knowledge ever known to anyone over the eons. We can access this power through ancient spiritual practices and apparently Peter has done just that. Stories and Tales began flowing from Peter and he wrote his first book. In the last three years Peter has written eight more books and shares everything he has found from his journeys to the inner worlds. Peter wrote a seven-book series under the title "MYSTICISM IN NEWBURYPORT" with an eighth bonus/companion book called "MYSTIC". Now you are holding his new writings in your hands. Peter laughingly calls himself "An Unlikely Messenger" as his younger years were nothing resembling anything spiritual. So, here is the story of just another seeker realizing his divinity and returning to his own heart...

Ancient Computing Technology Mary B. Woods, Michael Woods, 2011-01-01 Did you know . . . • Ancient cultures measured time accurately with water clocks? • An engineer in the first century B.C. designed an odometer to calculate distance traveled? • People computed the first values of pi about four thousand years ago? Computing technology is as old as human society itself. The first humans on Earth used basic computing skills. They counted by carving tally marks in bone. They used body parts and basic tools to measure. Over the centuries, ancient peoples learned more about computing. People in the ancient Middle East used scales to measure goods for trading. The ancient Egyptians wrote textbooks including multiplication and division problems. The ancient Chinese developed an abacus for speedy calculations. Ancient Greeks made advances in geometry. What kinds of tools and techniques did ancient mathematicians use? Which of their inventions and discoveries have stood the test of time? And how did the ancients set the stage for our own modern computing? Learn more in Ancient Computing Technology.
