**As Above, so Below; as Within, so Without** Hawa Damissa, 2017-04-07 I put together a collection of organic sketches that are perfect for people who need meditative art time. Of course, it isn't limited to age either. This coloring book's simplicity makes coloring easy for a kid. Included are sparking quotes before each floral pair. These quotes are personal to me and, I wish, could touch the souls of those who read them. In *The Alchemist*, it is said, When you want something, all the universe conspires in helping you to achieve it. I pray that my work will bring peace and joy to every soul who uses it. Peace be unto you, people of beauty.

**As Above, So Below** Gina Konstantopoulos, Shana Zaia, 2021-09-08 This volume addresses the nexus of religion and geography in the ancient Near East through case studies of various time periods and regions. Using Sumerian, Akkadian, and Aramaic text corpora, iconography, and archaeological evidence, the contributors illuminate the diverse phenomena that occur when religion is viewed through the lenses of space and place. Gina Konstantopoulos draws upon Sumerian literature to understand mythicized and semimythicized locations. Seth Richardson and Elizabeth Knott focus on the Old Babylonian period, with Richardson addressing the interplay between law, location, and the gods, while Knott turns from text to image, relocating the reader to Syria and realizing the potential of royal iconography when situated in the "right" space. Shana Zaia moves forward to the first millennium, following the capital of the Neo-Assyrian Empire as it shifted from city to city, with divine implications. Finally, Arnulf Hausleiter and Sebastiano Lora focus on northwest Arabia, unearthing a local pantheon and situating it among the various influences in the region from the second millennium onward. Covering a broad geographical and temporal scope while maintaining a cohesive focus on the theme, this book will appeal especially to Assyriologists, scholars of the ancient Near East, and specialists in historical geography.

**Hermeticism Quotes** IntroBooks Team, Hermeticism is a philosophical and religious tradition founded in ancient Greece that stresses the importance of understanding the divine as manifested through nature. It emphasizes the use of metaphor, allegory, and non-linear thinking in understanding the universe. The sacred texts of Hermeticism are known as hermetic code or *Corpus Hermeticum*. They include works on cosmology, magic, metaphysics, divination, and Egyptian hieroglyphs. These texts were compiled near the end of the first century AD by a group of Greek scholars who called themselves the Ptolemaic dynasty after the Pharaoh who sponsored their work. Though it has gone largely unrecognized for

centuries, Hermeticism has profoundly influenced Western thought. Many philosophical ideas that are fundamental to Western thinking were first formulated within its frameworks, such as the belief in individual freedom and responsibility, the concept of Karma, and post-modern skepticism about Truth.

**God Betrayed** Jerald Finney, 2008-08 *God Betrayed* explains: (1) the biblical principles concerning government, church, and separation of church and state which one needs to know in order to understand the First Amendment and why it was adopted; (2) the history of the theological warfare in the colonies that eventually resulted in the adoption of the First Amendment; (3) how and why, soon after the ratification of the Constitution and the First Amendment, many churches subjected themselves to the state; (4) how the Supreme Court has used the First Amendment religion clause to remove God from practically all civil government affairs; (5) how civil government entices many churches to abandon their Supernatural and First Amendment freedoms; and (6) how churches in America can operate totally under God and free from any control by civil government. After graduating from college in 1970 and serving as an army officer in the Viet Nam conflict, Jerald Finney

worked for the railroad and then started and operated a photography studio in Fort Worth, Texas. He was saved in 1982. God called him to enter the legal profession. He entered the University of Texas School of Law in 1990, and was licensed to practice law in 1993. Since that time, the Lord has guided his career. In 2005, he became lead counsel for the Biblical Law Center. This book is the result of his in depth studies of the issue of separation of church and state, the main issue which is addressed by the Biblical Law Center.

*Secrets of The Lost Symbol* Daniel Burstein, Arne de Keijzer, 2010-10-19 What secrets lie at the heart of America? Discover the hidden reality behind Dan Brown's *The Lost Symbol* . . . and America itself. Just as there is only one Dan Brown, there is also only one secrets team that has achieved worldwide bestselling success by exposing the truth beneath Brown's bestselling novels. Dan Burstein and Arne de Keijzer have gathered together world-class authorities—from scientist Richard Dawkins, noetics expert Lynne McTaggart, and religious scholar Karen Armstrong to journalist Jeff Sharlet (author of *The Family: The Secret Fundamentalism at the Heart of American Power*), mathematician and science historian Amir Aczel, FBI consultant Michael Barkun, 33° Freemason Arturo de Hoyos, and a host of renowned philosophers, symbologists, code breakers, art historians, writers, thinkers, and experts on the occult—to give readers the essential tools to understand the conspiracies, codes, cutting-edge science, cultural controversies, and suppressed history at the center of *The Lost Symbol* . . . and the very founding of the United States of America. Which Founding Fathers were members of secret societies? What is the true background of the Ancient Mysteries? Does *The Lost Symbol* have a hidden religious agenda? What is the actual role of Freemasons in American history? What do the hidden codes embedded in the novel tell us?

Our Last First Poets Cary Nelson, 1981 The conflict between poetic vision and historical reality is a recurring one in American poetry. In *Our Last First Poets* Cary Nelson shows how this conflict intensified in the open-form poetry written during the 60's and 70's. His sensitive analysis of five major poets—Theodore Roethke, Galway Kinnell, Robert Duncan, Adrienne Rich and W.S. Merwyn—link the period's political-cultural upheavals with the poets' growing disillusionment with democratic idealism. As if trying to create forms sufficiently fractured to contain their experience, these poets adopted increasingly radical forms as they worked through the years since 1960. These are forms that continually challenge their own accomplishments, yet they are forms that cling tenaciously to their own dissolution (from the cover).
