*Wendat Women's Arts* Annette W. De Stecher, 2022-04-15 For centuries, women artists of the Wendat First Nation of Wendake in Quebec have created artworks of intricate design and complex meaning in moosehair and quill embroidery. Their work records and transmits ancestral knowledge across generations of artists and remains a vibrant and important practice today. Breaking new ground in Indigenous art histories, *Wendat Women's Arts* is the first book to bring together a full history of the Wendat embroidery art form. Annette de Stecher challenges the historical anonymity of Indigenous women artists by arguing for their central role in community history and ceremony. Through their art, these women played an important part in the diplomatic strategies that advanced the sovereignty of their nation, work that was an extension of their position of authority in their families and clans. Chiefs and community members wore finely embroidered attire as a brilliant focus of ceremonial events, a tradition that continues today. Women artists also supported their community economically as their embroidery was a souvenir of choice for European collectors. In vibrant illustrations, this book reconstructs the rich repertoire of Wendat embroidery now dispersed in collections throughout the world. *Wendat Women's Arts* combines a depth of historical understanding with a keen knowledge of contemporary Wendat artists, demonstrating that the story of Wendat women is one of cultural strength, innovation, resilience, and success.

**Design Principles** Douglas Cardinal, 2016 'The National Museum of Man grows out of the landscape and is indiscernible

from it. It moves and flows with the contours of the land.' ? Douglas Cardinal. In 1982, the Government of Canada engaged in the design and construction of a new National Museum of Man ? now the Canadian Museum of History, an iconic building on the shores of the Ottawa River. Based on the strength of his vision, Douglas Cardinal was selected from among 12 distinguished finalists as the architect of record. Today, the Canadian Museum of History is the largest and most visited museum in the country, and the building is a must-see destination for tourists visiting the region. In his Design Principles, Cardinal reflects on his vision for the building and its surroundings ? how the grand curvilinear forms allow visitors to feel the Museum's connection with nature. Moving through its spaces is an extraordinarily interesting experience that is truly Canadian.

*Contact in the 16th Century* Brad Loewen, Claude Chapdelaine, 2016-05-12 From Labrador to Lake Ontario, the Gulf of Saint Lawrence to French Acadia, and Huronia-Wendaki to Tadoussac, and from one chapter to the next, this scholarly collection of archaeological findings focuses on 16th century European goods found in Native contexts and within greater networks, forming a conceptual interplay of place and mobility. The four initial chapters are set around the Gulf of Saint Lawrence where Euro-Native contact was direct and the historical record is strongest. Contact networks radiated northward into Inuit settings where European iron nails, roofing tile fragments and ceramics are found. Glass beads are scarce on Inuit sites as well as on Basque sites on the Gulf's north shore, but they are numerous in French Acadia. Ceramics on northern Basque sites are mostly from Spain. An historical review discusses the partnership between Spanish Basques and Saint Lawrence Iroquoians c.1540-1580. The four chapters set in the Saint Lawrence valley show Tadoussac as a fork in inland networks. Saint Lawrence Iroquoians obtained glass beads around Tadoussac before 1580. Algonquin from Lac Saint-Jean began trading at Tadoussac after that. They plied a northern route that linked to Huronia-Wendaki via the Ottawa Valley and the Frontenac Uplands. Finally, four chapters set around Lake Ontario focus on contact between this region and the Saint Lawrence valley. Huron-Wendat sites around the Kawartha Lakes show an influx of Saint Lawrence trade in the 16th century, followed by an immigration wave about 1580. Huron-Wendat sites near Toronto show an unabated inflow of Native materials from the Saint Lawrence valley; however, neutral sites west of Lake Ontario show Native and European materials arriving from the south. A review of glass bead evidence presented by various authors shows trends that cut across chapters and bring new impetus to the study of beads to discover 16th-century networks among French and Basque fishers, Inuit and Algonquian foragers and Iroquoian farmers. With contributions from Saraí Barreiro, Meghan Burchell, Claude Chapdelaine, Martin S. Cooper, Amanda Crompton, Vincent Delmas, Sergio Escribano-Ruiz, William Fox, Sarah Grant, François Guindon, Erik Langevin, Brad Loewen, Jean-François Moreau, Jean-Luc Pilon, Michel Plourde, Peter Ramsden, Lisa Rankin and Ronald F. Williamson. Published in English.

**Trading on Art** Sarah E.K. Smith, 2025-05-01 The 1989 Canada-US Free Trade Agreement and 1994 North American

Free Trade Agreement reinvented the concept of North America as a cohesive whole, united by free trade. But within the bold concept of continental unity lay a paradox. While art was mobilized to frame the new narrative, culture itself was explicitly excluded from the agreements that implemented this vision. *Trading on Art* brings culture to the fore by examining how artworks, exhibitions, and museum programs from the 1980s to 2010 mediated North American free trade, from government-supported cultural diplomacy initiatives to activist art that confronted impending US hegemony. Sarah E.K. Smith reveals how Canadian artists engaged with, contested, and reflected on free trade, paying particular attention to the ways in which art was used to forge ties between Canada and Mexico and to circulate ideas about North American identity. Her nuanced analysis convincingly makes the case for the centrality of art in conceptualizing continental unity.

**The History and Archaeology of the Iroquois du Nord** Ronald F. Williamson, Robert von Bitter, 2023-03-21 In the mid-to late 1660s and early 1670s, the Haudenosaunee established a series of settlements at strategic locations along the trade routes inland at short distances from the north shore of Lake Ontario. From east to west, these communities consisted of Ganneious, on Napanee or Hay Bay, on the Bay of Quinte; Kenté, near the isthmus of the Quinte Peninsula; Ganaraské, at the mouth of the Ganaraska River; Quintio, on Rice Lake; Ganatsekwyagon, near the mouth of the Rouge River; Teiaiaagon, near the mouth of the Humber River; and Qutinaouatoua, inland from the western end of Lake Ontario. All of these settlements likely contained people from several Haudenosaunee nations as well as former Ontario Iroquoians who had been adopted by the Haudenosaunee. These self-sufficient places acted as bases for their own inhabitants but also served as stopovers for south shore Haudenosaunee on their way to and from the beaver hunt beyond the lower Great Lakes. The Cayuga village of Kenté was where, in 1668, the Sulpicians established a mission by the same name, which became the basis for the region's later name of Quinte. In 1676, a short-lived subsidiary mission was established at Teiaiaagon. It appears that most of the north shore villages were abandoned by 1688. This volume brings together traditional Indigenous knowledge as well as documentary and recent archaeological evidence of this period and focuses on describing the historical context and efforts to find the settlements and presents examinations of the unique material culture found at them and at similar communities in the Haudenosaunee homeland. French Immigrants and Pioneers in the Making of America Marie-Pierre Le Hir, 2022-03-08 Americans have long had a rich if complicated relationship with France. They adore all things French, especially food and fashion. They visit the country and learn the language. Historically, Americans have also been quick to blame France at certain times of international crisis, and find fault with their handling of domestic issues. Despite ups and downs, the friendship between the countries remains very strong. The author explains the strength of Franco-American relations lies in the diplomatic ties that extend back to the founding of the United States, but more importantly, in the French DNA that is imprinted on American culture. The French were the first Europeans to settle the regions now known as Florida, Illinois, Minnesota, Iowa, Wisconsin, Missouri, Kansas

and Arkansas--and Frenchman remained in Louisiana after the land was purchased by the United States. This book explores the effects that France has had on American culture, and why modern Americans of French descent are so fascinated by their ancestry.

**A World Inside** Christy Vodden, Ian Dyck, Canadian Museum of Civilization, 2006 In the 1850s, Canada's national museum was little more than a piece of legislation governing the Geological Survey of Canada's small collection of First People's artifacts in Montreal. Despite decades of wars and worldwide economic depression, funding and staff shortages, and a struggle for a permanent home, it has emerged as a renowned human history and cultural institution. This 150th anniversary history profiles the institution as well as the people who tirelessly championed it to ensure a lasting legacy for generations of Canadians.--BOOK JACKET.

**From Ancient Gaul to Canada** Dennis Kish, From the Celtic peoples of ancient Gaul to the French settlers of Québec, this is the epic tale of how we became Canadians. In 390 BC, the ancient ancestors of the French-speaking peoples lived in a huge region of western Europe known as Gaul. From Ancient Gaul to Canada charts the journey of this culture from Roman times through the formation of France, the founding of Canada's first European settlement at Québec, the French Revolution, Confederation, the two World Wars, and the creation of the Canadian Charter of Rights and Freedoms. Sprinkled into this timeline is the migration of the French people who settled what was to become Canada and their fight for survival in their new home. The book connects its audience to their ancestors by sharing history from a personal and intimate point of view, diving into what it felt like to live in the past and to experience the hardships the French people endured across history.
