Small and Medium Enterprises in Morocco Sofia Mouhallab,2016 As a heterogeneous group of businesses, Small and Medium Enterprise (SME) has been the most essential component for developing and developed economies. Even their important contribution, SMEs still do not have a unanimous definition either in the national level or in the international one. Therefore, it is important to always search in the current literature for the updates about the definition of the SMEs. Small firms are independent firms, which employ less than a given number of employees and have a specific turnover or a balance sheet. Hence, most of variables defining SMEs varies across countries and are not official. In the following work, we are going to highlight the SME definition's issues in most countries, and especially in Morocco. Then, we will propose some new perspectives to define small businesses and make the existence of this sector more specific and clear basing on literature review and statistics.

Small and Medium Enterprises in Asian Pacific Countries: Roles and issues Moha Asri Hj. Abdullah,Mohd. Isa Haji Bakar,2000 These books provides an overall account of small and medium enterprises in selected Asia-Pacific countries such as Singapore, Malaysia, South Korea, Thailand, Philippines, China, Indonesia, Japan, Australia, New Zealand, United Kingdom and Canada. All of these countries have given high policy agenda on the development of small and medium enterprises since SMEs contribute significantly to the respective national economic development. The books therefore provides various experiences on SMEs, issues and challenges, incentive and policies adopted by various governments and, more significantly, prospects for growth and development potential of SMEs in the new millennium.

Global Perspectives on Small and Medium Enterprises and Strategic Information Systems: International Approaches Bharati, Pratyush, Lee, In, Chaudhury, Abhijit,2010-04-30 Small and medium-sized enterprises (SMEs) play a critical role in rejuvenating and sustaining the modern economy, generating substantial employment and serving as important innovation engines for the global economy. Global Perspectives on Small and Medium Enterprises and Strategic Information Systems: International Approaches aims to spread research conducted on SMEs internationally and place it at

the disposal of academics, practitioners, consultants, the vendor community, and policymakers. The goal of this book is to highlight the challenges faced by SMEs and how they are coping with the adverse environment through skillful use of IT and technologies such as Web 2.0, Enterprise Resource Planning (ERP), e-commerce, open source software, Business Process Digitization (BPD), and other emerging technologies.

The Importance of Small- and Medium-sized Enterprises in Russia in relation to the other BRIC countries Mario Schuler, 2014-05-21 Diploma Thesis from the year 2014 in the subject Economics - International Economic Relations, grade: 1, University of Linz (International Management), language: English, abstract: This diploma thesis provides an overview of the contemporary debate about the importance of small and medium-sized enterprises (SMEs) in the BRIC countries with a special focus on Russia. Conclusions are based on historical perspectives showing that there are huge country-specific divergences and concepts of supporting SMEs. In contrast to multi-national corporations (MNCs), which are not uncommonly supported by the government of the fast-developing country they stem from respectively they are entering and can continue their triumph easily, SMEs often face tremendous difficulties to establish themselves. While the engine of the economy of industrialized countries are SMEs, it seems as if BRICs, especially Russia, struggle to provide appropriate incentives for the foundation of domestic SMEs in order to boost the economic driving force which interviews.

Determinants of Growth for Small and Medium Enterprises in Namibia David Mpunwa, Clive Chikusi, B.

Mvula, 2020-03-31 Academic Paper from the year 2020 in the subject Business economics - Business Management, Corporate Governance, , language: English, abstract: SMEs are still in uncertainty in their quest to run their business effectively. These complications are lack of access to finance, lack of access to market, lack of growth, poor education, lack of family support and poor business skills. All these determinants hamper the SMEs, which ultimately leads to their failure. Globally, SMEs are engines of expansion because they play a strategic role in poverty alleviation, job creation and wealth provision of regional equilibrium through industrial dispersal and reduction of rural-urban migration. We argue that if much had been done by State to promote SMEs, then the rate of unemployment would be one digit, not two digits in Namibia. The ease of making business in Namibia is appalling rated by WHO as an environment which does not promote and not easy to enhance SMEs growth. The regulatory environment for SMEs is very challenging. There are so many prohibiting procedures for starting a business as a local and foreigner. The overall research design of this rubric entailed a survey research method and drew from the procedures for researching small tourism businesses in Katima Mulilo. We made cross-sectional study and involved a sample of 14 entrepreneurs that was got between March 2017 and August 2018. Status of growth for Katima Mulilo shows

that 0-2% have 10% growth, while 20% had 3-4% growth, 60% of the SMEs had average growth 5-9%. The remaining 20% had high growth of 10-25% status of growth in the company. The component score coefficient matrix shows factor component loadings using the principal component analysis. The factor loadings for individual characteristics, social determinants, poor business location and poor financial management, are very low symbolising that they are poor while human capital and planning and ordaining are higher than 0.40. They are symbolising that they are moderately below par. The principal component analysis is a variable reduction analysis and vital for checking redundancy for the figures. Factor analysis in this study assumes that covariation among the observed variable is due to the presence of one or more latent variables which exert directional influenced observed variables. We recommend that the government should have a National Entrepreneurship Policy Framework and Implementation Guideline and put in place an Entrepreneurial Act to promote Entrepreneurs in the Country.

An Ethnographic Study into the Social Organisation of a Small Medium Enterprise a Snapshot from 1983 to 2009 Frances Marian Ryder, 2024-04-26 Because of their uniqueness, there cannot ever be enough literature on the organisational life of the Small-Medium Enterprise and its employees, wherever their location and whoever they serve. These legal entities contain an extensive array of social interactions as people form teams, work groups and relationships with others, within the confines of the operational environment and their own personal experience of everyday working life. This book is about one such limited company and one individual who helped to form the SME which remained commercially successful in the engineering sector for over 30 years. The working life of the employees in the SME were researched using an ethnographic approach to frame the social and working interactions into Ceremonial Rites. These rites have already been successfully researched by others and the book adds to that body of work. In the book some rites repeat in a similar manner as has already been discovered. The more modern-day organisations may be able to recognise similar emerging or continuing patterns themselves that were found within the results of the study. Other students now have the opportunity to update and extend this work further in their own qualitative research on Small-Medium Enterprises or Organisational Life.

Entrepreneurship in Sub-Saharan Africa John O. Ogbor, John Ogbor, 2009 The importance of entrepreneurship as an engine for innovation, economic growth, job creation and wealth especially in the context of Sub-Saharan Africa cannot be

overemphasized. Entrepreneurship in Sub-Saharan Africa examines the socio-cultural, global, economic, financial, political, infrastructure and organizational contexts of entrepreneurship in Sub-Saharan Africa. Second, the book presents a strategic management approach for the management of entrepreneurial and small business ventures in the region. Written with a focus on theory and practice, the book is suitable for undergraduate and graduate courses in business and management studies and as a reference tool for practicing and prospective entrepreneurs, small business owners and economic change agents. Keywords: Entrepreneurship, Small Business Management, Sub-Saharan Africa, Strategic Management, Marketing, Globalization, Business Plan, Socio-cultural, financial, political, institutional, infrastructure and organizational contexts.

Small and Medium Enterprises Across the Globe Meghana Ayyagari, 2016 This paper describes a new cross-country database on the importance of small and medium enterprises (SMEs). This database is unique in that it presents consistent and comparable information on the contribution of the SME sector to total employment and GDP across different countries. The dataset improves on existing publicly available datasets on several grounds. First, it extends coverage to a broader set of developing and industrial economies. Second, it provides information on the contribution of the SME sector using a uniform definition of SMEs across different countries, allowing for consistent cross-country comparisons. Third, while we follow the traditional definition of the SME sector as being part of the formal sector, the new database also includes the size of the SME sector relative to the informal sector. This paper describes the sources and the construction of the different indicators, presents descriptive statistics, and explores correlations with other socioeconomic variables. This paper - a product of Finance, Development Research Group - is part of a larger effort in the group to study SME-related issues.

The APEC Survey on Small and Medium Enterprises Tsung-che Li, Zongzhe Li, 1994 Studies the environment for SME development within the APEC region, as well as the directions and contents of SME trade and investment. Presents and discusses on the contents of the survey questionnaire with the APEC members during the First APEC Experts Meeting on SMEs held in Jakarta, Indonesia on April 26, 1994.

Small and Medium Enterprises in Global Perspective Chandra Shekhar Prasad, 2004 Small and Medium Enterprises (SMEs) have emerged as an engine of growth in several developed and developing economies of the world. In India also they have emerged as a vibrant and dynamic component of Indian economy by virtue of their significant contribution to GDP, industrial production and exports. The main objective of this book is to examine the constraints and the required changes

which could convert the challenges to opportunities so that the SMEs sector emerges as the saviour of the Indian economy in terms of employment generation. This book examines all these issues and attempts to suggest measures which would enhance the competitiveness of SMEs in order to enable this sector to put India on global map.

Development of Small & Medium Enterprises in Indonesia from the Asia-Pacific Perspective Tulus Tambunan, 2006 Looks at the performance and transformation patterns of SMEs during the period 1997-2003, with a comparative view to industrialized countries in the region. Focuses on export development, competitiveness, and strategic alliance behaviour.
