Guida all'Università e ai test di ammissione 2022/2023 Ulrico Hoepli, 2022-02-12T00:00:00+01:00 L'università a portata di mano. L'edizione 2022-2023 della Guida all'Università e ai test di ammissione, aggiornata alla nuova offerta formativa, con una sezione dedicata all'orientamento e con nuove prove simulate, fornisce gli strumenti per conoscere tutti i corsi di laurea, scegliere con consapevolezza la propria università e mettersi alla prova con i test di ammissione. Le università sono suddivise per regione e numerate progressivamente, in modo da poterle reperire con facilità grazie all'indice geografico e all'indice delle università per classi di laurea. Il volume, completamente rivisto nella struttura, consente così di: • autovalutarsi grazie a un questionario di orientamento; • conoscere il percorso formativo universitario; • scoprire gli atenei regione per regione; • identificare, grazie a delle icone immediate, i corsi di laurea con programmazione; • simulare un test di ammissione, completo di soluzione, così da verificare la propria preparazione.

Guida all'università e ai test di ammissione 2020/2021 Ulrico Hoepli, 2020-01-20T00:00:00+01:00 La Guida all'Università e ai test di ammissione 2020/2021, aggiornata alla nuova offerta formativa con una nuova sezione dedicata all'orientamento e nuove prove simulate, fornisce gli strumenti per conoscere tutti i corsi di laurea, scegliere con consapevolezza e mettersi alla prova con i test di ammissione. Il linguaggio giuridico Giuliana Garzone, Francesca Santulli, 2008

Allargamento dell'Europa a Est e rapporto tra corti costituzionali e corti europee Oreste Pollicino, 2010

Post-Truth, Philosophy and Law Angela Condello, Tiziana Andina, 2019-05-09 In the wake of Brexit and Trump, the debate surrounding post-truth fills the newspapers and is at the center of the public debate. Democratic institutions and the rule of law have always been constructed and legitimized by discourses of truth. And so the issue of post-truth or fake truth can be regarded as a contemporary degeneration of that legitimacy. But what, precisely, is post-truth from a theoretical point of view? Can it actually change perceptions of law, of institutions and political power? And can it affect our understanding of

society and social relations? What are its ideological premises? What are the technical conditions that foster it? And most importantly, does it have anything to teach lovers of the truth? Pursuing an interdisciplinary perspective, this book gathers both well-known and newer scholars from a range of subject areas, to engage in a philosophical interrogation of the relationship between truth and law.

Social Europe, the Road Not Taken Aurélie Dianara Andry, 2022 Examines the European Left's attempt to think and give shape to an alternative type of European integration-a 'social Europe'-during the long 1970s, showing that the western European Left-in particular social democratic parties, trade unions, and 'Eurocommunist' parties-formulated a project to turn 'capitalist Europe' into a 'workers' Europe'.

Europa contro Claudio Consalvo Corduas, Enzo Mattina, 2019-12-16T00:00:00+01:00 Prefazione di Emma Bonino Europa contro porta l'attenzione sugli ostacoli che si frappongono ad un futuro condiviso dell'Unione europea e prende le mosse da tre interrogativi che gli autori si sono posti: perché non se ne può fare a meno? Come la si può rimettere in corsa con soluzioni praticabili in tempi ravvicinati? Come superare la emergente dicotomia dell'Europa contro molti e di molti contro essa? Nella prima parte, L'Europa tra idealità e necessità, si affronta l'aspetto politico. Si esamina la genesi e lo sviluppo della IV Rivoluzione industriale: dalle tecnologie digitali, alla finanziarizzazione dell'economia e liberalizzazione degli scambi commerciali. Gli effetti di questa trasformazione toccano le condizioni di vita di milioni di persone e le loro aspettative, divenute decrescenti dopo essere state percepite per decenni come crescenti. Disorientamento, paura e sfiducia si coniugano oggi con l'affidamento a partiti e movimenti politici che propongono la chiusura nei confini nazionali ed il depotenziamento delle Istituzioni sovranazionali, in primis dell'Unione europea. Deriva azzardata e pericolosa, perché l'attuale Ordine mondiale multipolare è caratterizzato da tre preponderanti attori (Stati Uniti, Russia, Cina) in competizione tra loro per la ridefinizione delle aree geografiche d'influenza. In questo contesto, un forte interlocutore europeo garantirebbe prospettive di pace, governabilità della IV Rivoluzione industriale e sviluppo condiviso. Nella seconda parte, L'Europa incompiuta, si analizza l'assetto istituzionale dell'Unione per individuare le cause dell'attuale stallo della UE. Viene affrontata l'esigenza di dotare l'Unione europea di una comprensibile ed agile Costituzione, per stabilire le regole del gioco democratico di un popolo europeo con il diritto di essere pienamente sovrano. Il processo storico della costituzionalizzazione dei principi che regolano i Trattati europei è particolarmente complesso e rappresenta finora un'opera incompleta e poco conosciuta, sebbene abbia concorso al passaggio da un'Europa essenzialmente mercantile ad un'Europa fondata sui diritti. Una formale Costituzione europea rappresenterebbe anche la migliore difesa delle autonomie locali, dello stato di diritto, della libertà e della giustizia sociale in tutti gli Stati membri. Inoltre, il processo costituente e di riagggregazione della UE con soluzioni innovative potrebbe rappresentare il punto d'incontro di tutte le anime della vicenda europea, anche quelle ora antagoniste, e avvicinare i cittadini alle Istituzioni eurounitarie. Nel silenzio attuale sulla rilevanza dell'esperienza

dell'Unione europea, le due parti del libro, politica ed istituzionale, consentono di comprendere l'importanza anche per il quotidiano di ciascun europeo dell'evoluzione transnazionale e democratica della UE.

Intimations of Global Law Neil Walker, 2014-11-22 A strain of law reaching beyond any bounded international or transnational remit to assert a global jurisdiction has recently acquired a new prominence. *Intimations of Global Law* detects this strain in structures of international law claiming a planetary scope independent of state consent, in new threads of global constitutional law, administrative law and human rights, and in revived notions of *ius gentium* and the global rule of law. It is also visible in the legal pursuit of functionally differentiated global public goods, general conflict rules, norms of 'legal pluralism' and new legal hybrids such as the global law of peace and humanity law. The coming of global law affects how law manifests itself in a global age and alters the shape of our legal-ethical horizons. Global law presents a diverse, unsettled and sometimes conflicted legal category, and one which challenges our very understanding of the rudiments of legal authority.

Transnational Legal Processes Michael Likosky, 2002-04 This work comprises 24 linked essays by leading transatlantic scholars in international law and the social sciences examining the sociolegal aspects of multi-jurisdictional legal techniques and trans-jurisdictional social phenomena. The contributors bring a range of disciplinary expertises including anthropology, economics, law and sociology to bear on key questions raised by transnational legal processes. The pieces explore legal developments in multiple territories including Africa, Asia, Latin America and the United States. The volume is designed as a general reader for courses on law and globalisation and related studies. The collection is made up of four parts, each addressing a central theme in transnational law and legal action (law-making and compliance), human rights, commerce and governance. The essays discuss such diverse problems as: the role of foreign actors in the ethnic conflicts of Kosovo and Rwanda; the power the United States and the UK wield over international capital markets; and the adaptability of existing public international law to deal with the challenges wrought by globalisation.

Preparing our students for the transnational legal challenges of a global society Hofstra University. School of Law,

The New Global Law Rafael Domingo, 2010-02-26 The dislocations of the worldwide economic crisis, the necessity of a system of global justice to address crimes against humanity, and the notorious 'democratic deficit' of international institutions highlight the need for an innovative and truly global legal system, one that permits humanity to re-order itself according to acknowledged global needs and evolving consciousness. A new global law will constitute, by itself, a genuine legal order and will not be limited to a handful of moral principles that attempt to guide the conduct of the world's peoples. If the law of nations served the hegemonic interests of Ancient Rome, and international law served those of the European nation-state, then a new global law will contribute to the common good of all humanity and, ideally, to the development of durable world peace. This volume offers a historical-juridical foundation for the development of this new global law.

Transnational Law Michael W. Dowdle, 2022-09-08 Offers a comprehensive exploration of transnational law and advances

a framework for investigating transnational regulatory institutions.

Reflections on Global Law Shavana Musa, Eefje de Volder, 2013-11-21 Reflections on Global Law provides an interesting and vital look into the newly emerging field of global law. It allows the possibility for readers to discover global law from the perspective of various academic experts who stem from a whole range of different legal disciplines. In a globalised world, it is important that one is able to look beyond the local, given that there are now a whole host of different types of jurisdictions at work. This book touches upon the interdisciplinary character and complexities of global law and demonstrates the further need, within academia, to delve into this newly emerging field of law.

Backstage Practices of Transnational Law Lianne J.M. Boer, Sofia Stolk, 2019-04-16 This book explores the 'backstage' of transnational legal practice by illuminating the routines and habits that are crucial to the field, yet rarely studied. Through innovative discussion of practices often considered trivial, the book encourages readers to conceptualise the 'backstage' as emblematic of transnational legal practice. Expanding the focus of transnational legal scholarship, the book explores the seemingly mundane procedures which are often taken for granted, despite being widely recognized as part of what it means to 'do transnational law'. Adopting various methodologies and approaches, each chapter focuses on one specific practice: for example, mooted exercises for law students, international travel, transnational time, the social media activities of lawyers and legal scholars, and the networking at the ICC's annual Assembly of States Parties. In and of themselves, these chapters each provide unique insights into what happens before the curtain rises and after it falls on the familiar 'outputs' of transnational law. It does more, however, than provide a range of different practices: it takes the next step in theorizing on the importance of the marginal and the everyday for what we 'know' to be 'the law' and what the international legal field looks like. Furthermore, by interrogating undiscussed academic practices, it provides students with a candid view on the perils and promises of transnational legal scholarship, inviting them to join the discussion and to practice their discipline in a more reflexive way. Written in an accessible format, containing a readable collection of personal and recognizable accounts of transnational legal practice, the book provides an everyday insight into transnational law. It will therefore appeal to international legal scholars, alongside any reader with an interest in transnational law.

Studies in Transnational Legal Policy, 1972

Transnational Legal Orders Terence C. Halliday, Gregory Shaffer, 2015-01-19 This book offers a path-breaking, empirically grounded theory that reframes the study of law and society. It shifts research from a predominantly national context to one that places transnational, national and local lawmaking and practice within a single, coherent, analytic frame. By presenting and elaborating a new concept, transnational legal orders, Halliday and Shaffer present an original approach to legal orders that affect fundamental economic and social behaviors. The contributors generate arrays of hypotheses about how transnational legal orders rise and fall, where they compete and cooperate, and how they settle and unsettle. This

original theory is applied and developed by distinguished scholars from North America, Europe and Asia in business law (taxation, corporate bankruptcy, secured transactions, transport of goods by sea), regulatory law (monetary and trade, finance, food safety, climate change), and human rights law (civil and political rights, rule of law, right to health/access to medicines, human trafficking, criminal accountability of political leaders).

Transnational Legal Ordering and State Change Gregory C. Shaffer, 2012-11-26 Law can no longer be viewed through a purely national lens. Transnational legal ordering affects the boundary of the state and the market, the allocation of power among national institutions, the role of professions and their expertise, and associational patterns that provide new normative frames. This book breaks new ground for understanding the impacts of transnational legal ordering within nation-states in today's globalized world. The book addresses the different dimensions of state change at stake and the factors that determine these impacts. It brings together leading scholars from sociology and law who study the effects of transnational legal ordering within different countries. Their case studies illustrate how transnational legal ordering interacts with national law and institutions in different regulatory areas, and cover anti-money laundering, bankruptcy, competition, education, intellectual property, health, and municipal water law and policy in different countries. The book explains the extent and limits of transnational legal ordering in today's world.

Studies in Transnational Legal Policy, 1976

Studies in transnational legal policy,

The Pillars of Global Law Giuliana Ziccardi Capaldo, 2008 This book addresses important changes in key legal issues; it reconstructs a complex legal framework, and the emergence of a new international order that has still not been studied in depth, providing a compass that will prove a useful resource for students, researchers and policy makers within the field of law and with an interest in international relations.
