

Horns Of The Goddess

James Hastings, John Alexander Selbie, Louis Herbert Gray

Horns of the Goddess Dolores Cannon, 2022-12-06 In 1983, Dolores was working with several individuals who volunteered for sessions to help her hone her craft in hypnosis. Over the years she had developed her own technique of hypnosis where the client would go into a very deep state of trance and was able to re-live the past life they were seeing. When these individuals went back to a time in the past, it would be like they were actually there. If there was something in our time that was not in their time, they wouldn't know what you were talking about. This book is about the past lives of three of these volunteers who went back to the time of the Druids and were giving information about how it was to live during this time and the difficulties that were experienced while trying to live with the faith of Mother Earth. The Inquisition was always lurking around trying to find these special groups that were not of their religion and were trying to force them to reveal information about their beliefs and practices. The Inquisition believed these special groups had powers and too much influence on the regular people. So, come along with us and take the journey into the past. As Dolores would say "They thought they had gotten rid of us with the torches and burnings; but we're back!"

The Witches' Goddess Janet Farrar, Stewart Farrar, 2012-06-01 From the best-known authors on witchcraft, a three-part reference for discovering and celebrating the Female Principle of Divinity. The Witches' Goddess is of great practical value in discovering and celebrating the transforming energy of the Female Principle of Divinity. A companion to The Witches' God, this is an important, three-part work by the Farrars, providing an in-depth exploration of the Goddess in her many aspects at a time when Western Culture is awakening to the influence of Feminine Divinity, both individually and collectively. In part

one, they outline the numerous faces of the Goddess: her presence throughout history, her Earth and Moon symbolism, her Madonna and Magdalene disguises, her revelation in Woman, and her influence today. In part two, they examine thirteen goddesses from history, including Ishtar, Isis, Hecate, and Aphrodite, and offer rituals for invoking them. Part three is a comprehensive dictionary of more than 1,000 goddesses from cultures all over the world and throughout time. Each section features helpful line drawings, diagrams, and photographic illustrations. The Witches' Goddess is part of The Paranormal, a series that resurrects rare titles, classic publications, and out-of-print texts, as well as publishes new supernatural and otherworldly ebooks for the digital age. The series includes a range of paranormal subjects from angels, fairies, and UFOs to near-death experiences, vampires, ghosts, and witchcraft.

May be the most significant work published in all our lifetimes. – LA Weekly The Chalice and the Blade tells a new story of our cultural origins. It shows that warfare and the war of the sexes are neither divinely nor biologically ordained.
