

Learn To Love The Questions Poem

H Kauffman

The Watchword ,1909

Poems about Art, Science, Love and Life ,2010-10 These poems came out of the love Dr. Yadusky has for his wife, Margaret, and his children. The will to create and the will to love are one. Poems make love visible, and by doing so they uplift and heal, because in the presence of love everything is healed. Poetry at its essence depicts a spiritual world, because the mind seeks truth, the heart seeks love, and the spirit seeks goodness and God. Poems awaken something in the reader's heart that is beyond knowledge. We can define poetic creation in the same way that we define art itself, namely, spirit expressed into matter. Poets say tangibly what they feel intangibly to give finite form to the infinite. When Dr. Yadusky depicts this creative spirit of love, he shows us the face of God.

Discovery & Reminiscence: Essays on the Poetry on Mona Van Duyn (p) Michael Burns,1998 Mona van Dyun is a former U.S. poet laureate (1992) and winner of a Pulitzer Prize (1991). To help broaden and inform our understanding of her work, the editor of this volume has gathered together ten essays, a poem, and a biographical sketch, as well as the author's own laureate address to the Library of Congress. The first section of this collection include tributes by other poets that elucidate the special effect Van Duyn's poetry has had on their work and thought, as well as a poem that extols the qualities of her poems and places those qualities within her contemporary scene. The second section contains eight essays exploring aspects as varied as Van Duyn's penchant for particularity, her remarkable ability to rediscover for us the strangeness of everyday living, and her elegant style, fluid in both free verse and form. The final section opens with Van Duyn's overview of the state of poetry in America at the close of the twentieth century, and a short narrative history of her literary career.

Love's Legacy Susan E. Harris,2009-10-21 Love's Legacy chronicles a lifetime of inspirational writings, poems, proverbs, and songs on a variety of universally shared human experiences. It inspires respect for the unique heritage we each have; examines the various love relationships we all encounter in our lives; and attempts to show how those relationships influence the person we have become. It encourages us to understand that our lives make a difference in the lives of those we meet and offers suggestions of how we can determine the legacy we choose to leave for future generations to observe.. At times, the author summons up a bit of a nostalgic atmosphere as she issues the challenge to recall past events that have had a profound influence on the reader. There is always the ever present reminder that each life lived affects the lives of those living today and in the future. Everyone alive has a unique history that is influenced not only by genetics, nurturing and environment; but also, by our heritage, our ancestors. This book encourages the reader to explore and respect their unique heritage. This is great conversation starter and an ideal book for family and friends to read together.
