Scientific English Alessandra Damiani, Aaron Harwood, 2020-12-17 Scientific English: Conceptual Understanding and Abstract Writing è un compendio di Inglese Scientifico scritto in lingua inglese, uno strumento per meglio scrivere e comprendere il linguaggio accademico in lingua. Il testo identifica nei connettivi enunciativi i perni del discorso scientifico, offre una serie di spunti per aumentare la propria velocità di lettura e mostra come scrivere un abstract che risulti corretto da un punto di vista accademico e accattivante da un punto di vista bibliometrico. Il compendio analizza la tipologia degli articoli scientifici e la loro articolazione in sezioni, facendo esplicito riferimento al formato IMRAD; nel contempo, provvede una griglia per la coniugazione dei verbi proprio in funzione di tali sezioni, fornisce uno schema per l'uso e l'identificazione dei connettivi enunciativi, esamina i tipi di paragrafo utilizzati in ambito scientifico, offre una tabella per il corretto posizionamento degli avverbi e una lista di frasi fatte utili nella composizione dei resoconti scientifici. Scientific English: Conceptual Understanding and Abstract Writing is a compendium of Scientific English written in English, and a tool to better understand academic language both spoken and written. The text identifies sentence connectors as the pillars underpinning scientific discourse, offers a number of ideas to increase one's reading speed and shows how to write effective abstracts that are both appropriate from an academic perspective, and conducive to a high bibliometric score. This compendium analyses the typologies of scientific articles and their articulation into sections, making specific reference to the IMRAD format, whilst providing a framework for the conjugation of verbs according to these sections and offering a scheme for the use, as well as identification of sentence connectors. Furthermore, it also examines the various paragraph types used within science, offering a table to assist in the correct positioning of adverbs and providing a list of common phrases and idioms useful in the composition of scientific reports.

Patterns and Meanings of Intensifiers in Chinese Learner Corpora Chunyan Wang, 2016-12-01 Intensification plays a major role in spoken and written interaction, enabling the writer or speaker to express different levels of commitment. This book explores the patterns and meanings of intensifiers in Chinese learner English by ways of comparison with native English. The study is conducted within the theoretical framework of Firthian contextual theory of meaning, Sinclairian model of Extended Units of Meaning (EUM) and Hunston's pattern grammar. The method of contrastive inter-language analysis (CIA) is adopted and the intensifier collocations in learner English and native English are explored by means of quantitative and qualitative analyses of corpora data. This book is the first attempt to investigate the patterning and meaning features of intensifiers systematically with the corpora data in Chinese learner English. Readers will obtain a relatively complete picture of how Chinese learners use intensifiers to realize their attitudinal meanings.

A Taste for Corpora Fanny Meunier, Gaëtanelle Gilquin, Magali Paquot, 2011 The eleven contributions to this volume, written by expert corpus linguists, tackle corpora from a wide range of perspectives and aim to shed light on the numerous linguistic and pedagogical uses to which corpora can be put. They present cutting-edge research in the authors' respective domain of expertise and suggest directions for future research. The main focus of the book is on learner corpora, but it also includes reflections on the role of other types of corpora, such as native corpora, expert users corpora, parallel corpora or corpora of New Englishes. For readers who are already familiar with corpora, this volume offers an informed account of the key role that corpus data play in applied linguistics today. As for readers who are new to corpus linguistics, the overview of approaches, methods and domains of applications presented will undoubtedly help them develop their own taste for corpora. This volume has been edited in honour of Sylviane Granger, who has been one of the pioneers of learner corpus research.

Education and Society in the Middle East and North Africa Milton George, S. Sergio Saleem Scatolini, 2020-01-17 In the past, the Middle East and the so-called Muslim world used to be beacons of learning and critical thought. Although historical variables—such as conquest, internal conflict, and colonization—demoted their position on the global stage, changes are now in the offing. In these interesting times, a growing number of educators, thinkers and visionaries are trying both to find and to generate new approaches to the past, present, and future of the region. This book is a collection of articles which reflect on various aspects related to education and society in the Middle East and North Africa (also known as the MENA region), their peoples and educational processes. It provides a platform for people to join the global conversation and to contribute to it with data which are relevant to regional concerns, research and practices. This is necessary because many of the theories and research findings which are still being used to understand the region were generated elsewhere and, despite their lack of regional representativeness, were generalized as the most trustworthy interpretive tools across the world. Hence, there is a need for the world to open up to the voices from the MENA region.

A World of English, a World of Translation Francisco Javier Díaz Pérez, Ana María Ortega Cebreros, 2004 El título de este volumen resalta dos realidades intrínsecamente ligadas en la sociedad actual: la expansión globalizadora del inglés como lengua franca y la importancia de la traducción en un mundo en el que la comunicación intercultural supone una necesidad cada vez más acuciante. Los distintos capítulos de este libro abordan el tema de la traducción en su relación con la lengua inglesa desde diversos enfoques, como el de la lingüística, la literatura, la enseñanza y el aprendizaje de lenguas o las nuevas tecnologías.
