**Sebastian Brünink**

**The Big Picture** Karen Kearns, 2016-08-17 The Big Picture, 4e is written to support training delivery in CHC30113 Certificate III in Early Childhood Education and Care. It provides students with a practical introduction to working in a children's service environment, whilst helping to bridge the gap between theory and best practice. It is designed to address the relevant units of competency in a holistic and integrated way while covering the skills and knowledge students need to be deemed competent in this qualification.

**Teaching: Early Childhood, Primary and Secondary 1e** Diana Whitton, Dona Martin, Denise Wood, Nina Maadad, Sheelagh Daniels-Mayes, 2021-11-01 'Teaching' uses the Australian Professional Standards for Teachers (APST) as a guide to develop a comprehensive text for beginning teachers giving the best teacher practice. The text draws together research to identify the knowledge and skills of the teaching and learning process of the planning, teaching and assessing cycle. Linking case studies, vignettes and visuals with current and established research developments in teaching and learning for early childhood, primary and secondary student teachers, 'Teaching' addresses the processes of how to become a confident and competent practitioner in a diverse and changing world. Teaching Early Years Susanne Garvis, 2020-07-16 'This new early childhood text provides a comprehensive overview of early childhood education in Australia for children from birth to eight years. It reports on a wide variety of significant early childhood topics and is written in a style directed towards early childhood professionals.' - Kim Walters, President, Early Childhood Teachers Association The early years of care and learning are recognised as crucial for ongoing educational success and future participation in society. Early childhood professionals need specialist preparation to understand and effectively support early years learners. Teaching Early Years offers a systematic, research-based introduction to educating children from birth to eight years. Leading educators identify the key priorities in early years education and cover developmental issues, curriculum, pedagogy and assessment. Each chapter concludes with questions that guide reflection of the concepts developed in the chapter. Written for early childhood education students, childcare workers and education leaders, Teaching Early Years is an essential resource for anyone involved in caring for and educating early years learners.

**An Interdisciplinary Approach to Early Childhood Education and Care** Susanne Garvis, Matthew

Manning,2017-02-03 An Interdisciplinary Approach to Early Childhood Education and Care explores early childhood education and care in Australia from a variety of perspectives, highlighting the complexity of working within the field and the need for a truly interdisciplinary approach. It argues that only a holistic understanding of each perspective will allow a clear future for early childhood education within Australia, and that all government parties should provide better outcomes around policy and provision to ensure the support and development of the sector. Chapters offer insights into how children and families are positioned in educational reform by examining current government policy, as well as individual and collective initiatives. Key paradigms considered include positivist, behavioural, developmental, economic, sociocultural, and postmodern models. Garvis and Manning identify challenges to the field and propose improvements needed to develop an interdisciplinary approach to help close the disadvantage gap on educational outcomes. With recommendations aimed at stakeholders within different disciplines, it is hoped that this book will encourage significant improvements to early childhood education and care within Australia. Providing important insights into the landscape of early childhood education and care, this book will promote new ways of thinking of policy and provision development for the future. As such, it will be of interest to researchers, academics, and postgraduate students in the fields of early years education, education policy and politics, and sociology of education, as well as those studying childcare alongside economics, criminology and sociology.

**Teaching Early Years** Donna Pendergast,Susanne Garvis,2023-06-12 Edited by Donna Pendergast and Susanne Garvis, this new edition of Teaching Early Years provides a comprehensive overview of and introduction to educating children from birth to eight years. Structured around the key priorities for early childhood education and care – curriculum, pedagogy, and assessment – this book supports readers to develop and enhance their knowledge and understanding of the essential theory, scholarship, and practical applications. This second edition has been thoroughly revised to reflect the significant innovation and development across the sector, ensuring that coverage of content, the latest research, and references to curricula and professional standards are up to date and relevant to today’s pre- and in-service educators. The new edition includes a greater focus on a number of areas compared to the first edition, including: Sustainability education Health and nutrition Innovative and age-appropriate pedagogies Increased coverage of Aboriginal and Torres Strait Islander perspectives New understandings of the early years learner. Each chapter provides case studies, examples from practice, chapter summaries and reflection questions, encouraging the reader to engage more deeply with the key concepts and learning points. Bringing together leading scholars and practitioners, Teaching Early Years provides the specialist knowledge and preparation required for early years educators, in all learning environments, to deliver exceptional education and care to all children in the early years.

**Programming and Planning in Early Childhood Settings** Leonie Arthur,Bronwyn Beecher,Elizabeth Death,Susan Dockett,Sue Farmer,2017-08-07 Programming & Planning in Early Childhood Settings explores a range of approaches to

curriculum and to documenting children's learning in early childhood settings. This valuable resource for early childhood education students and practitioners provides a broad view of the concepts and issues in early childhood curriculum. Chapters reflect ongoing discussions about what is meant by the terms 'planning' and 'programming' in the context of early childhood, what is authentic curriculum for young children, and effective teaching strategies to extend young children's learning. The strong focus on sociocultural theories of learning promotes awareness of children's diverse experiences, competencies and learning styles, and helps readers recognise the need for collaborative partnerships between educators, children and families in order to develop appropriate programs. Thoroughly revised and updated, this new edition shows how chapters of the text are relevant to the Australian Professional Standards for teachers, and highlights connections to the school-based context. Numerous real-life examples, reflections, articles and case studies assist students to understand a variety of educational theories, philosophies and frameworks. Throughout the book there is a focus on the processes of reflection, evaluation and ongoing improvement.

**Understanding Early Childhood Education and Care in Australia** Joanne Ailwood, 2020-07-16 In order to effectively practise as an early childhood educator it is essential to understand the theories, policies and pedagogy that shape the discipline. *Understanding Early Childhood Education and Care in Australia* provides core foundational knowledge that is critical for best practice. Part One looks at concepts of childhood and the development of mass education before examining influential theories including developmental psychology, sociology, feminisms and critical theory. Specific approaches are also analysed including Reggio Emilia, Montessori, Multiple Intelligences and HighScope. Part Two focuses on the guiding frameworks and policies in Australia and explores in depth issues affecting Indigenous children and provisions for recognising diversity and the practice of inclusion. The final section examines teaching and leadership and considers curriculum, pedagogy and assessment, building relationships between staff and families, the care of babies and infants, the environment in which early childhood education takes place and the responsibilities and professional development of teachers. This essential reference will ensure pre-service teachers develop a sophisticated understanding of how theory underpins effective practice in early childhood education.

**Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope** Antonia Elisabeth Enikoe Baumeister, Hui Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care (ECEC) are to offer children from all social backgrounds a good start in their lives, to support parenting as well as families' workforce participation, and, thereby, to sustainably strengthen the national economy over current and future generations. High-quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors. For these reasons, governments, ECEC providers, and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality. At the

same time, however, research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high-quality ECEC can only be reached when all stakeholders' needs are acknowledged and sufficiently met. For example, recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders, and thus, the sustainability of these quality efforts may be in doubt. New challenges also include the ever-changing nature and circumstances affecting ECEC stakeholders, for example, the greater flows of refugee families and the impact of the Covid-19 pandemic. This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments, providers, and the scientific community about best practices and new solutions for conceptualizing, measuring, and improving ECEC quality. The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing, assessing, and improving quality in ECEC. We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC, including government regulatory authorities, service providers, educators, families, communities, and children. We also believe that wide-ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society. Two further foci are set on ECEC practices: (1.) that support participation, diversity, and inclusion of all children and families and (2.) that are suitable for developing countries and diverse populations within countries. In this, the focus is not only on best practices but also on the limitations of practices. In soliciting research articles on ECEC stakeholder perspectives, we describe stakeholders as inclusive of government/non-government regulatory agencies, service providers, teachers and caregivers, families, communities, and children. Themes of interest include but are not limited to: • Assessment of quality in ECEC, including self-assessment approaches; • The design of and use of quality frameworks in ECEC; • Effects of quality and of quality improvement on children and families; • Drivers and indicators of quality improvement; • Acceptance and sustainability of quality efforts among ECEC stakeholders; • Policy expectations of quality rating and improvement systems (e.g., funding policy); • The role of teacher and caregiver professionalization; • All types of center-based and home-based ECEC. We are interested both in quantitative and qualitative research designs as well as in mixed-methods research. Cross-sectional, longitudinal, (quasi-)experimental and case study designs are welcome. The following article types are welcome: original research, empirical studies, systematic reviews, community case studies, policy briefs articles, and brief research reports.
