Description and Analysis of the VA National Formulary Institute of Medicine,Division of Health Care Services,VA Pharmacy Formulary Analysis Committee,2000-10-03 The VA National Formulary generated controversy, which motivated congressional scrutiny and a directive to the VA to commission this report reviewing the experience with the National Formulary and formulary system. This Institute of Medicine committee was pleased to assist the Congress with this review, in

part because the committee saw in the VHA example an opportunity to understand and anticipate problems that all publicly funded programs are likely to encounter in this new age of pharmaceuticals. The Congress asked the committee to review the restrictiveness of the National Formulary, its impact on the costs and quality of care in the VHA, and how it compared to formularies and drug management practices in the private sector and in other public programs, especially Medicaid. Detailed in the pages that follow, the committee's findings and conclusions on these questions are, the committee believes, highly instructive, though not always in the ways that we anticipated.

The Social Construction of Age Patricia Andrew,2012-01-11 This book explores the social construction of age in the context of EFL in Mexico. It is the first book to address the age factor in SLA from a social perspective. Based on research carried out at a public university in Mexico, it investigates how adults of different ages experience learning a new language and how they enact their age identities as language learners. By approaching the topic from a social constructionist perspective and in light of recent work in sociolinguistics and cultural studies, it broadens the current second language acquisition focus on age as a fixed biological or chronological variable to encompass its social dimensions. What emerges is a more complex and nuanced understanding of age as it intersects with language learning in a way that links it fundamentally to other social phenomena, such as gender, ethnicity and social class.

CPD for Teaching and Learning in Physical Education Susan Capel,Julia Lawrence,Melanie Martens,Hanif Abdul Rahman,2022-04-25 Drawing on best practice for the continuing professional development (CPD) of practising physical education teachers, this book encourages teachers to reflect on their own practices and how these can be developed as they continue their professional journey to support student learning. The book covers three main themes: improving students' learning and supporting student progress; the teacher as learner - developing your expertise as a teacher; and supporting professional development - how as a teacher you can lead and own your continuing learning in a sustainable manner. Throughout the book, teachers are encouraged not just to reflect on where they are now, but also what changes they INTEND to make to their practice, how they IMPLEMENT those changes and then to review the IMPACT this has had on students' learning. Each chapter includes tasks embedded within the content to encourage the reader to reflect on how they could apply the new knowledge they are acquiring from reading and engaging with the chapter. Written for a global

audience, the book brings together examples from the Singapore Physical Education and Sports Teacher Academy (PESTA), which provides CPD to teachers in the high-performing Singaporean system.
