

Si Los Tiburones Fueran Hombres Analisis

L Towne

Investigación histórica. Manual para la enseñanza de la historia de la filosofía Magdalena García González, Félix García Moriyón, Ignacio Pedrero Sancho, 1995 Manual para el profesorado que utiliza en sus clases Luces y Sombras, con numerosos textos, sugerencias y propuestas de actuación global para el estudio de la filosofía.

Economía Ecológica: un análisis comparativo entre neoliberalismo y Cuarta Transformación en México
,2025-04-05 Este libro tiene la intención de aportar un análisis teórico-crítico de la forma en la que dos tipos de gobiernos gestionan el patrimonio natural de un país. Por un lado, se analizan las acciones, reformas y consecuencias de los gobiernos neoliberales de México (1982-2018) a través de la perspectiva teórica de la economía ambiental que propone que el neoliberalismo puede mantener a la economía en una vía de crecimiento y expansión económica —en un espacio de recursos naturales limitados— si convierte a la naturaleza en mercancías que puedan transarse en los mercados. Por otro lado, se analiza el cambio que significó en la gestión del patrimonio natural del país la llegada al poder de un gobierno de corte nacionalista e interventor de la economía, nombrado la Cuarta Transformación por parte del actual presidente Andrés Manuel López Obrador. Este tipo de gobierno se analiza usando la perspectiva teórica de la Economía Ecológica que es crítica del neoliberalismo y propone que los intereses económicos se subordinen a las necesidades sociales y a las dotaciones físicas de naturaleza con el fin de priorizar la sobrevivencia del ser humano y la renovabilidad de la naturaleza. La confrontación entre ambos enfoques obliga a una reflexión en torno a las posibilidades de vida de las siguientes generaciones humanas en el planeta si no se limitan los intereses privados sobre los públicos. Los autores son economistas especializados en el campo de la Economía Ecológica con una trayectoria académica y de investigación de más de 10 años. DOI:

Las Brigadas Prosublime Jesús Pérez Caballero,2015-11-12 Siglo XXX. Un narrador de historias vuelve a la ciudad de su infancia, una ciudad en la que dos núcleos de poder obligan a tomar partido: Calígula, gobernante arbitrario y sin rostro, por un lado; por otro, una organización terrorista que elimina a quien no sea sublime sin interrupción, llevando al extremo el axioma del Charles Baudelaire.

Ictionimia andaluza Alberto Manuel Arias García,Mercedes de la Torre García,2020-01-08 Nadie con una mínima capacidad de asombro puede sustraerse a la admiración que causa la enorme variedad de formas, colores, tamaños y comportamientos de los animales marinos. Y es que el mar y los seres que lo habitan, sorprendentemente distintos de los terrestres, constituyen un mundo fascinante a la vez que, para la mayoría de las personas, desconocido y aun misterioso. De hecho, son pocas las que son capaces de reconocer especies que no sean las que están habituadas a ver (y que aprecian por razones gastronómicas), pues el conocimiento en profundidad de esta materia generalmente está restringido a dos grupos de expertos: por una parte, los biólogos, y, por otra, los profesionales que capturan y comercializan los productos que les ofrece el mar, principalmente los pescadores. En ambos colectivos desempeña un papel central la terminología que permite identificar, diferenciar y clasificar las especies, la terminología que hace posible la comunicación entre los miembros que integran la comunidad profesional. El ingente volumen de información acopiado, el rigor metodológico y la profundidad del análisis que caracterizan la obra son fiel reflejo de la competencia científica de sus autores: Alberto Arias, biólogo con una extensa experiencia como experto en cuestiones ictológicas vinculado al Instituto de Ciencias Marinas de Andalucía del Consejo Superior de Investigaciones Científicas, y Mercedes de la Torre, profesora de la Universidad Pablo de Olavide y lingüista especializada en Lexicología y Dialectología Hispánicas. Pero todo este saber desplegado es más que la simple suma de los conocimientos de cada uno de los dos coautores: es sobre todo el resultado de la eficaz conjugación de las dos perspectivas complementarias —la del lingüista y la del biólogo marino— que deben unirse para esclarecer de forma global un objeto de estudio tan polifacético como la ictionimia popular.
