

Sobre El Mecanismo Psiquico De La Desmemoria

Jorge Rafael Sanabria León

Sobre el olvido Anna Pagès Santacana, 2012-06-05 Este es un ensayo filosófico sobre la experiencia del olvido. Se trata de un tema de largo alcance que, al prolongarse en el tiempo, afecta a varias generaciones, a las familias y a los individuos, a cada uno de nosotros en primera persona. Es una cuestión difícil relacionada con el dolor, con el sufrimiento y la pérdida, con los pensamientos que no nos dejan conciliar el sueño. El lector encontrará en estas páginas un recorrido por lo extraño y contradictorio del recuerdo que huye de sí mismo y se hunde en el olvido. Un día nos damos cuenta de que no se puede vivir así y advertimos que solo una frontera entre un antes y un después permitirá fundar un presente del ahora. Más allá de esa frontera, abandonada la huida, se encuentra el verdadero olvido, aquel que cumple una función de verdad para cada sujeto.

Epistemología Del Psicoanálisis Alfonso Herrera, 2013-11-01 Freud forjó dos conceptos psicoanálisis y metapsicología para nombrar una y la misma entidad de conocimiento. El psicoanálisis le da especificidad a la metapsicología en la valoración de su incidencia clínica, verificando sus principios metodológicos, su rango de competencia y los límites de su campo explicativo. A contrapelo, la metapsicología define el espectro categorial del psicoanálisis al especificar sus postulados y las relaciones lógicas o cronológicas que rigen sus enunciados. En respuesta al descrédito de orden epistémico que las disciplinas oficiales dispensan al corpus freudiano, el presente trabajo sostiene que es posible fundamentar la nocion de una epistemología del psicoanálisis.

Cinco conferencias sobre psicoanálisis Sigmund Freud, 2013-10-12 Pronunciadas en 1909 en la Clark University y destinadas principalmente para los no especialistas, estas conferencias son una buena introducción a la obra de Freud.

Silencio Y Psicoanálisis Alfonso Herrera, 2018-02-07 Lacan postula que no hay estilo retórico en el que lo inconsciente no abunde y que un discurso sin palabras define lo sustantivo del psicoanálisis. Haciendo un corte sagital que va de los primeros casos freudianos hasta las elaboraciones del último Lacan, este libro analiza cómo en la situación analítica las estrategias retóricas dotan al silencio de una vibrante elocuencia. Se disciernen aquí las filosofías en las que la brevilocuencia lacaniana abreva, elucidando la importancia del silencio en la técnica psicoanalítica y en el corpus metapsicológico, para demostrar que una retórica de lo inconsciente solo tiene cabal despliegue en una clínica del silencio.

Sueños y despertares Carolina Koretzky, 2020-06-23 ¿Por qué seguir las pistas del modo en que Freud y Lacan han abordado el sueño y el despertar? El despertar, término comúnmente utilizado en el lenguaje de los psicoanalistas, no siempre ha sido objeto de un estudio sistematizado. No obstante, este término permite dar una nueva mirada a algunos

conceptos fundamentales de la práctica psicoanalítica: el sueño mismo, la interpretación, la identificación, el advenimiento del sujeto del inconsciente, el trauma, e incluso el final del análisis. En su estudio sobre el sueño, Freud encuentra el fenómeno del despertar en relación a los sueños de angustia y a los sueños traumáticos. Lacan empleará el término de despertar y sus opuestos (sueño, deseo de dormir, dormir, adormecimiento) para dar cuenta de la experiencia analítica. Esta variedad de usos del despertar está sostenida en dos grandes tesis lacanianas, nos despertamos para seguir soñando en la realidad y, más tardíamente, nunca nos despertamos. Este libro también demuestra que el concepto de despertar en psicoanálisis va a contrapelo del sentido común, así como de la ideología del amo moderno. Hoy en día, el amo moderno y el psicoanálisis no hacen buenas migas. Allí donde el amo moderno se ubica en el todo, saberlo todo, controlarlo todo, verlo todo, clasificarlo todo, calcularlo todo, no hace más que olvidar lo real. El mundo sin real sostenido por el discurso del amo actual es una voluntad de hacer, de la vida, un sueño. Oponiéndose a este sueño de universal, el psicoanálisis descompleta el todo, porque hace lugar al goce oscuro del síntoma, a lo imposible de un saber sobre el sexo, a la no relación. El despertar en psicoanálisis no está vinculado ni a la claridad, ni a la iluminación, ni a la transparencia, sino, paradójicamente, al sostenimiento de una cierta zona de opacidad. Que el psicoanálisis pueda mantener el reino de lo que despierta dependerá de la apuesta de cada analista por conservar este espacio de ininterpretable.

Desbordar el continente Rodrigo Barraza,2023-12-01 En este libro se invita a pensar las maneras en que es posible apropiarse de un saber que, por más de cien años, se ha construido de manera heterogénea, influenciando nuestra comprensión de la subjetividad, dando lugar a grandes edificios teóricos con la potencialidad de sostener y excluir lo que queda fuera de la palabra convencional. Se busca entonces retornar al germen primario del psicoanálisis, ese que desafía la convención normativa y que propone —desde un gesto infantil— volver a explorar, transformar, utilizar y crear una propuesta propia, una lectura particular, que trascienda los límites del objeto teórico del que nace y del territorio donde se inserta, haciendo uso de una disciplina externa al psicoanálisis y elaborada con elementos del otro lado del mundo —como lo es el cine japonés— para pensar ciertos fenómenos que nos afectan como sujetos culturales.

Lacan con los filósofos Nataliia Sergeevna Avtonomova,Biblioteca del Colegio Internacional de Filosofía,1997 El coloquio Lacan con los filósofos pretende rendir homenaje a quien quiso sacar al psicoanálisis de un peligroso repliegue sobre

sí mismo y reanudar, innovanco, el debate que Freud no había dejado de mantener con los intelectuales de su tiempo. Se abordan los temas esenciales que jalonan el pensamiento de Lacan a partir de la experiencia psicoanalítica y con los filósofos: la ética; la idea del simbolismo; Lacan con Platón; la triplicidad de lo simbólico, de lo real y de lo imaginario; la Palabra y la Verdad; el estatus de la negación; la teoría del sujeto; el psicoanálisis y la ciencia moderna; psicoanálisis y desconstrucción con Jacques Derrida.
