The Journey of Israel - Teacher's Manual PDF Dr. Brian J. Bailey, 2020-01-10 The study of Israel's journey from Egypt to the Promised Land is in reality a picture of the spiritual progression of a believer from new born babes in Christ to becoming mature fathers and mothers in the faith. Dr. Bailey will take you on a journey, where you will be given keys to attaining ever-greater heights in your relationship with Christ, until you come unto spiritual Mount Zion, and can say with the Apostle Paul, "I press toward the mark for the prize of the high calling of God in Christ Jesus."

Love Earth Now Cheryl Leutjen, 2018-01-15 How to live sustainably in an unsustainable society—and not let the world discourage your spirit. Do you find yourself wondering what on Earth you can do about the very serious environmental challenges we face on our planet today? Do you worry there's nothing any one person can do that will make a difference? Most people say that they would like to do something to make the world a better place, but they just don't believe they have the time, energy, money, or power to make a real difference. Love Earth Now invites us to explore our own thoughts and feelings about the challenge, and to check in with internal guidance about the waste and negative environmental impacts we see on a daily basis. While most of us can't stop the Arctic icepack from melting, we can decide to make better choices like avoiding excessive packaging with our purchases, walking more and driving less, planting organic veggies in the front yard instead of a water-wasting lawn, and even going as green as possible at work and at home. Does your office lack a recycling and composting program? Do the research and start one yourself! Each chapter concludes with a "Diving In" section, a simple and immediate exercise, much like a guided meditation, to prompt us toward our own sustainable solutions. By practicing eco-mindfulness, we can discover that one thing we can do to make a difference today and for all our tomorrows. This is not only a source of inspiration but a sourcebook of direct actions—large and small—we can all take to ensure our children and their children's children have a healthy future on this planet. Drawing from her experiences as an engineering geologist, environmental law attorney, small shop owner, and mindfulness practitioner, Cheryl Leutjen also reminds us about the importance of simplicity—and how all our possessions and the constant shopping for more are no better for us than they are for the planet itself, contributing to landfills and a tech-tethered society that is increasingly isolated. Both helpful and hopeful, Love Earth Now is brimming with creative suggestions that will get us closer to a sustainable lifestyle, one day at a time.

Against the War Roland Menge,2012-10-15 AGAINST THE WAR is a historical novel examining the response of the Vietnam War generation to the Vietnam War and the effect of the war on American society. The novel follows the intertwined lives of four friends, rowing team mates, who graduate from college in 1967, at the height of the war. Two of the four friends become involved in the war, one as a combat pilot and one as a medic. The other two of the four friends, in seeking to avoid the war, become involved in the counter culture that arises from the anti-war movement. The novel also follows the lives of the four women who become the eventual companions of the four men.

Knowledge, Class, and Economics Theodore Burczak,Robert Garnett Jr.,Richard McIntyre,2017-10-16 Knowledge, Class, and Economics: Marxism without Guarantees surveys the Amherst School of non-determinist Marxist political economy, 40 years on: its core concepts, intellectual origins, diverse pathways, and enduring tensions. The volume's 30 original essays reflect the range of perspectives and projects that comprise the Amherst School—the interdisciplinary community of scholars that has enriched and extended, while never ceasing to interrogate and recast, the anti-economistic Marxism first formulated in the mid-1970s by Stephen Resnick, Richard Wolff, and their economics Ph.D. students at the University of Massachusetts-Amherst. The title captures the defining ideas of the Amherst School: an open-system framework that presupposes the complexity and contingency of social-historical events and the parallel overdetermination of the relationship between subjects and objects of inquiry, along with a novel conception of class as a process of performing, appropriating, and distributing surplus labor. In a collection of 30 original essays, chapters confront readers with the core concepts of overdetermination and class in the context of economic theory, postcolonial theory, cultural studies, continental philosophy, economic geography, economic anthropology, psychoanalysis, and literary theory/studies. Though Resnick and Wolff's writings serve as a focal point for this collection, their works are ultimately decentered—contested, historicized, reformulated. The topics explored will be of interest to proponents and critics of the post-structuralist/postmodern turn in Marxian theory and to students of economics as social theory across the disciplines (economics, geography, postcolonial studies, cultural studies, anthropology, sociology, political theory, philosophy, and literary studies, among others).
