Evaluación y tratamiento psicopedagógicos Ana Salvador Alcaide,1993-06-02 El presente libro está especialmente dirigido a psicólogos y pedagogos que se enfrentan con las tareas propias del Departamento de Orientación, en un centro educativo. Estas tareas son complejas, difíciles y de una gran responsabilidad, y van encaminadas a enriquecer el proceso educativo en todos sus ámbitos. Por tanto, de la forma en que se lleven a cabo y de su rigor y eficacia, depende en gran medida el que ese derecho esencial del alumno a la ayuda, que a lo largo de toda su escolaridad le debe proporcionar el Departamento de Orientación , se convierta en una realidad fructífera y bien lograda. En esta tercera edición se han incorporado las últimas novedades legislativas y se ha actualizado el capítulo dedicado a la ética profesional con los principios éticos básicos del orientador. También se ha hecho una revisión bibliográfica de la obra. Finalmente se aportan novedades importantes, en los Anexos, con la incorporación de dos técnicas muy actuales, la Batería IGF (1995) de Yuste y el ACRA (1994) de Román y Gallego sobre Estrategias de aprendizaje. La intención de la autora ha sido poner en manos de los responsables de la orientación escolar, casi un manual que exponga de manera clara y práctica dichas tareas, poniendo a contribución su ya larga experiencia en este ejercicio profesional.

La evaluación psicopedagógica a debate. Reflexiones y experiencias profesionales de titulaciones educativas Aránzazu Cejudo-Cortés,Celia Corchuelo-Fernández,2018-05-01 Esta obra ha sido creada por un grupo de profesionales del ámbito educativo -maestros/as, pedagogos/as y psicólogos/as- que han aunado esfuerzos motivados por la necesidad de mejorar continuamente, por la responsabilidad de conocer más y mejor su profesión, pero sobre todo, por el cariño y respecto de los/las niños/as con los que van a compartir sus vidas. Este manuscrito ha sido el fruto de una experiencia educativa innovadora llevada a cabo en el Máster de Psicopedagogía de la Universidad de Sevilla. Esta práctica innovadora se desarrolló en la asignatura Evaluación Psicopedagógica de dicho máster en la que participaron 28 estudiantes cuyas titulaciones universitarias previas estaban estrechamente vinculadas al diagnóstico y/o intervención del alumnado con Necesidades Específicas de Apoyo Educativo (NEAE). Es por ello, que en las páginas siguientes se recoge a través de los distintos capítulos, un debate argumentado, crítico y minucioso de la labor del orientador en el proceso de prevención, diagnóstico e intervención de las necesidades de los estudiantes, que puede servir para reflexionar hacia dónde debemos ir

en nuestro trabajo como orientadores y orientadoras. A lo largo de los capítulos se mostrarán claves para detectar indicios de NEAE relacionados con el desarrollo cognitivo, motor, sensorial, comunicativo y lingüístico, social y afectivo, de atención y concentración y/o de aprendizajes básicos (como la lectura, escritura o el cálculo). Además se presentan los modelos e instrumentos más habituales en las evaluaciones psicopedagógicas -poniendo el acento en pros y contras de estos recursos- para terminar con casos prácticos resueltos que pueden servir a modo de ejemplo a otros profesionales y estudiantes de titulaciones educativas. CAPÍTULOS: INTRODUCCIÓN: La evaluación psicopedagógica a debate CAPÍTULO 1. Protocolo de identificación del alumnado con Necesidades Específicas de Apoyo Educativo CAPÍTULO 2. Disminución de la eficacia visual. Evaluación psicopedagógica CAPÍTULO 3. La discapacidad intelectual y su evaluación psicopedagógica . CAPÍTULO 4. Sociology Richard T. Schaefer, Robert P. Lamm, 1994 By focusing closely on the basic ideas behind sociological theory and research, this concise text provides a firm knowledge base without overwhelming students with nonessential material. Because theories and research methods are applied to substantive areas throughout the text, students develop the kind of meaningful understanding often acquired only through more expensive, full-length texts.

Tests in Print IV Linda L. Murphy, Jane Close Conoley, James C. Impara, 1994 Customers who place a standing order for the Tests in Print series or the Mental Measurements Yearbook series will receive a 10% discount on every volume. To place your standing order, please call 1-800-848-6224 (in the U.S.) or 919-966-7449 (outside the U.S.). Designed to complement the Mental Measurements Yearbooks, Tests in Print fills a pressing need for a comprehensive bibliography of all commercially available English language tests in print. Although these volumes are useful in and of themselves, their maximum usefulness requires the availability and use of the Mental Measurements Yearbooks. Although information on available tests and specific test bibliographies is valuable, the greatest service which Tests in Print can perform is to encourage test users to choose tests more wisely by consulting the MMY test reviews, test reviews from journals, and the professional literature on the construction, use, and validity of the tests being considered. Tests in Print IV contains information on over four thousand instruments. Along with a brief description, entries include population, scoring, pricing, publisher information, and a reference list of professional literature citing articles relevant to individual instruments. Indexes of titles, classified subjects, names, and scores, as well as a publisher's directory and index are included, with notations for out-of-print instruments. Information is given for tests in a wide range of areas, including education, psychology, counseling, management, health care, career planning, sociology, child development, social science, and research. Tests in Print IV also provides a comprehensive index to the Mental Measurements Yearbook by directing readers to the appropriate volume for reviews of

specific tests.
