Book Preview: #1 John Rowlands, the man who would accomplish what Tuckey tried to do, was born in 1841. He was the first of five illegitimate children born to Betsy Parry, a housemaid. His father may have been John Rowlands, a local drunkard who died of delirium tremens, or a prominent and married lawyer named James Vaughan Horne. #2 At fifteen, John left St. Asaph's and went to live with a succession of relatives. He was afraid he would be thrown out again, and so he decided to give himself a new name. He became Henry Morton Stanley. #3 Stanley's autobiography is full of exaggerations and lies. He left the Welsh workhouse in melodramatic terms: he leaped over a garden wall and escaped, he claims, after leading a class rebellion against a cruel supervisor named James Francis. But workhouse records show Stanley leaving not as a runaway but to live at his uncle's while going to school. #4 Stanley's life was so entwined with disgrace that he had to invent events in his autobiography and journal entries about a dramatic shipwreck and other adventures that never happened. He went first to St. Louis, and then to San Francisco.

SUMMARY and ANALYSIS: KING LEOPOLD's GHOST by Adam Hochschild's Gulf publishers, 2020-07-06 Leopold II, King of the Belgians, privately controlled and owned the Congo Free State from 1885 to 1908. In 1908, the area was annexed by Belgium as a colony known as the Belgian Congo. Leopold used his personal control to strip the country of vast amounts of wealth, largely in the form of ivory and rubber. These labor-intensive industries were serviced by slave labor, and the local peoples were forced to work through various means, including torture, imprisonment, maiming and terror. Christian missionaries and a handful of human rights organizers internationally publicized these atrocities. Slowly, various nations, including Great Britain and the United States of America, began to object to Leopold's tyranny with the result that the country's administration was transferred to Belgium. Little changed inside the country, however, until the ivory and rubber were exhausted. European interest in the African continent can be traced back to the late 1400s, when a European explorer sailed the west coast and discovered the Congo River. By the 1860s, most African coastal regions were claimed as colonies of European powers, but the vast interior of the continent remained unknown to Europeans. Henry Morton Stanley, a complicated man and renowned explorer, ventured through much of that unknown during a descent of the Congo River. Leopold II, King of the Belgians, was fascinated with obtaining a colony and focused upon claiming the interior of Africa--the only unclaimed sizable geographic area. Moving within the European political paradigm existing in the early 1880s, Leopold gained international concessions and recognition for his personal claim to the Congo Free State.

Bury the Chains Adam Hochschild, 2006-02-10 From the author of *King Leopold's Ghost*, a narrative history of the social justice campaign formed in the fight to free the slaves of the British Empire. In early 1787, twelve men—a printer, a lawyer, a clergyman, and others united by their hatred of slavery—came together in a London printing shop and began the world's first grass-roots movement, battling for the rights of people on another continent. Masterfully stoking public opinion, the movement's leaders pioneered a variety of techniques that have been adopted by citizens' movements ever since, from

consumer boycotts to wall posters and lapel buttons to celebrity endorsements. A deft chronicle of this groundbreaking antislavery crusade and its powerful enemies, *Bury the Chains* gives a little-celebrated human rights watershed its due. A San Francisco Chronicle Bestseller A Book Sense Selection “By far the most readable and rounded account we have of British antislavery, a campaign that, as the author rightly claims, helped to change the world and can be seen as a prototype of the modern social justice movement.” —Robin Blackburn, Los Angeles Times Book Review “A thrilling, substantive, and oftentimes raw work of narrative history. In its own fashion, it furthers the abolitionists’ crucial work of lifting our moral blindness.” —Maureen Corrigan, National Public Radio’s Fresh Air

Lessons from a Dark Time and Other Essays Adam Hochschild, 2018-10-02 In this rich collection, bestselling author Adam Hochschild has selected and updated over two dozen essays and pieces of reporting from his long career. Threaded through them all is his concern for social justice and the people who have fought for it. The articles here range from a California gun show to a Finnish prison, from a Congolese center for rape victims to the ruins of gulag camps in the Soviet Arctic, from a stroll through construction sites with an ecologically pioneering architect in India to a day on the campaign trail with Nelson Mandela. Hochschild also talks about the writers he loves, from Mark Twain to John McPhee, and explores such far-reaching topics as why so much history is badly written, what bookshelves tell us about their owners, and his front-row seat for the shocking revelation in the 1960s that the CIA had been secretly controlling dozens of supposedly independent organizations. With the skills of a journalist, the knowledge of a historian, and the heart of an activist, Hochschild shares the stories of people who took a stand against despotism, spoke out against unjust wars and government surveillance, and dared to dream of a better and more just world.

Half the Way Home Adam Hochschild, 2005 From the author of the best-selling *King Leopold's Ghost*, this haunting and deeply honest memoir tells of Adam Hochschild's conflicted relationship with his father, the head of a multinational mining corporation. The author lyrically evokes his privileged childhood on an Adirondack estate, a colorful uncle who was a pioneer aviator and fighter ace, and his first explorations of the larger world he encountered as he came of age in the tumultuous 1960s. But above all this is a story of a father and his only son and of the unexpected peace finally made between them.

To End All Wars Adam Hochschild, 2011-04-11 In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the “war to end all wars.” Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history’s most senseless spasms of carnage, defying rational explanation. *To End All Wars* focuses on the long-ignored moral drama of the war’s critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain’s most

prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn't cooler heads prevail? And can we ever avoid repeating history?

The Unquiet Ghost Adam Hochschild, 2003 Until glasnost, nobody in the USSR could speak or write about the genocide which occurred under Stalin's regime. In this book the author speaks to many people coming to terms with repressed memories as a result of the mass abuse of human rights.

Bury the Chains Adam Hochschild, 2005 Eighteenth-century Britain was the world's leading exponent of the slave trade: profits soared and among the beneficiaries were the Church of England and London's Tate Gallery. Yet in the space of a few short years, beginning in 1788, a group of Abolitionists moved the cause of anti-slavery to the very centre of British political life, from the floor of Parliament to the homes of 300,000 people boycotting Caribbean sugar. At their head was Thomas Clarkson, a divinity student who travelled 35,000 miles on horseback documenting abuses, talking to supporters, and evading attempts on his life. With Granville Sharp and James Phillips he founded the Society for Effecting the Abolition of the Slave Trade, and gave platforms to freed slaves such as Olaudah Equiano, who had experienced the horrors in full. Clarkson's movement resembled nothing England had ever seen before: outside both Parliament and Church, it was the first major embodiment of the forces that today we call civil society, and Hochschild, drawing on the voluminous letters and journals of the characters involved, brings it compellingly to life.

American Midnight Adam Hochschild, 2022-10-04 National Bestseller • One of the year's most acclaimed works of nonfiction A BEST BOOK OF THE YEAR: New York Times, Washington Post, New Yorker, Chicago Tribune, Kirkus, New York Post, Fast Company From legendary historian Adam Hochschild, a masterly (New York Times) reassessment of the overlooked but startlingly resonant period between World War I and the Roaring Twenties, when the foundations of American democracy were threatened by war, pandemic, and violence fueled by battles over race, immigration, and the rights of labor. The nation was on the brink. Mobs burned Black churches to the ground. Courts threw thousands of people into prison for opinions they voiced—in one notable case, only in private. Self-appointed vigilantes executed tens of thousands of citizens' arrests. Some seventy-five newspapers and magazines were banned from the mail and forced to close. When the government stepped in, it was often to fan the flames. This was America during and after the Great War: a brief but appalling era blighted by lynchings, censorship, and the sadistic, sometimes fatal abuse of conscientious objectors in military prisons—a time whose toxic currents of racism, nativism, red-baiting, and contempt for the rule of law then flowed directly through the intervening decades to poison our own. It was a tumultuous period defined by a diverse and colorful cast of characters, some of whom fueled the injustice while others fought against it: from the sphinxlike Woodrow Wilson, to the fiery antiwar advocates Kate

Richards O'Hare and Emma Goldman, to labor champion Eugene Debs, to a little-known but ambitious bureaucrat named J. Edgar Hoover, and to an outspoken leftwing agitator—who was in fact Hoover's star undercover agent. It is a time that we have mostly forgotten about, until now. In *American Midnight*, award-winning historian Adam Hochschild brings alive the horrifying yet inspiring four years following the U.S. entry into the First World War, spotlighting forgotten repression while celebrating an unforgettable set of Americans who strove to fix their fractured country—and showing how their struggles still guide us today.

American Midnight Adam Hochschild, 2022 A character-driven look at a pivotal period in American history, 1917-1920: the tumultuous home front during WWI and its aftermath, when violence broke out across the country thanks to the first Red Scare, labor strife, and immigration battles--

To End All Wars Adam Hochschild, 2011-05-20 In this brilliant new work of history, Adam Hochschild follows a group of characters connected by blood ties, close friendships or personal enmities and shows how the war exposed the divisions between them. They include the brother and sister whose views on the war could not have been more diametrically opposed – he a career soldier, she a committed pacifist; the politician whose job was to send young men who refused conscription to prison, yet whose godson was one of those young men and the suffragette sisters, one of whom passionately supported the war and one of whom was equally passionately opposed to it. Through these divided families, Hochschild paints a vivid picture of Britain poised between the optimism of the Victorian era and the era of Auschwitz and the Gulag – a divided country, fractured by the seismic upheaval of the Great War and its aftermath.

The Mirror at Midnight Adam Hochschild, 2017-11-01 A stunning blend of reportage, travelogue, history and meditation by the New York Times–bestselling author of *King Leopold's Ghost* (Publishers Weekly). National Book Award finalist Adam Hochschild brings a lifetime's familiarity with South Africa to bear in this eye-opening examination of a critical turning point in that nation's history: the Great Trek of 1836–39, during which Dutch-speaking white settlers, known as Boers, journeyed deep into the country's interior to escape the British colonial administration. The mass migration culminated with the massacre of indigenous Zulus in the 1838 Battle of Blood River. Looking at the tensions of modern South Africa through the dramatic prism of the nineteenth century, Hochschild vividly recreates the battle—and its contentious commemoration by rival groups 150 years later. In his epilogue, Hochschild extends his view to the astonishing political changes that have occurred in the country in recent decades—and the changes yet to be made. Hochschild's incisive take on these events, noted Nadine Gordimer, is far more than an outsider's perception of the drama of our country. Read him, in particular, to understand the rise of white extremism which is threatening the democratic vision of the African National Congress and its allied progressive constituency among people of all colors. A good book for anyone who wants a succinct

and precise account of how this fascinating country has got where it is. . . . This is a book I recommend warmly. —Archbishop Desmond Tutu One of the most illuminating books ever written on contemporary South Africa. — Publishers Weekly Thoroughly researched, immensely readable . . . A work of vivid reportage and astute political analysis. — San Francisco Chronicle

Spain In Our Hearts Adam Hochschild, 2016-03-29 A NEW YORK TIMES BESTSELLER. A sweeping history of the Spanish Civil War, told through a dozen characters, including Hemingway and George Orwell: A tale of idealism, heartbreaking suffering, and a noble cause that failed. For three crucial years in the 1930s, the Spanish Civil War dominated headlines in America and around the world, as volunteers flooded to Spain to help its democratic government fight off a fascist uprising led by Francisco Franco and aided by Hitler and Mussolini. Today we're accustomed to remembering the war through Hemingway's *For Whom the Bell Tolls* and Robert Capa's photographs. But Adam Hochschild has discovered some less familiar yet far more compelling characters who reveal the full tragedy and importance of the war: a fiery nineteen-year-old Kentucky woman who went to wartime Spain on her honeymoon, a Swarthmore College senior who was the first American casualty in the battle for Madrid, a pair of fiercely partisan, rivalrous New York Times reporters who covered the war from opposite sides, and a swashbuckling Texas oilman with Nazi sympathies who sold Franco almost all his oil — at reduced prices, and on credit. It was in many ways the opening battle of World War II, and we still have much to learn from it. *Spain in Our Hearts* is Adam Hochschild at his very best. "With all due respect to Orwell, *Spain in Our Hearts* should supplant *Homage to Catalonia* as the best introduction to the conflict written in English. A humane and moving book.—New Republic "Excellent and involving . . . What makes [Hochschild's] book so intimate and moving is its human scale." — Dwight Garner, New York Times

Congo Stories John Prendergast, Fidel Bafilemba, 2025-04-08 From the author of the New York Times bestselling and award-winning *Not on Our Watch*, John Prendergast co-writes a compelling book with Fidel Bafilemba—with stunning photographs by Ryan Gosling—revealing the way in which the people and resources of the Democratic Republic of Congo have been used throughout the last five centuries to build, develop, advance, and safeguard the United States and Europe. The book highlights the devastating price Congo has paid for that support. However, the way the world deals with Congo is finally changing, and the book tells the remarkable stories of those in Congo and the United States leading that transformation. The people of Congo are fighting back against a tidal wave of international exploitation and governmental oppression to make things better for their nation, their neighborhoods, and their families. They are risking their lives to resist and alter the deadly status quo. And now, finally, there are human rights movements led by young people in the United States and Europe building solidarity with Congolese change-makers in support of dignity, justice, and equality for the Congolese people. As a result, the way the world deal with Congo is finally changing. Fidel Bafilemba, Ryan Gosling, and John

Prendergast traveled to Congo to document some of the stories not only of the Congolese upstanders who are building a better future for their country but also of young Congolese people overcoming enormous odds just to go to school and help take care of their families. Through Gosling's photographs of Congolese daily life, Bafilemba's profiles of heroic Congolese activists, and Prendergast's narratives of the extraordinary history and evolving social movements that directly link Congo with the United States and Europe, Congo Stories provides windows into the history, the people, the challenges, the possibilities, and the movements that could change the course of Congo's destiny. Chosen by Amazon as the Best Book of the Month for December 2018 in Biographies & Memoirs, History, and Nonfiction.
