Carlos Fuentes

Aura Carlos Fuentes, 2013-05-14 The classic—and controversial—Mexican novella: “A beautiful horror story, a horrifying story of beauty, a combination of Poe, Baudelaire, and Isak Dinesen.” —Newsweek Felipe Montero is employed in the house of an aged widow to edit her deceased husband’s memoirs. There Felipe meets her beautiful green-eyed niece, Aura. His passion for Aura and his gradual discovery of the true relationship between the young woman and her aunt propel the story to its extraordinary conclusion. This ebook edition of Carlos Fuentes’ novel includes only the English translation by Lysander Kemp. The Spanish text is not included. “Carlos Fuentes is a major force in contemporary Mexican letters. An heir to the exacerbated social conscience which burst forth in the flood of so-called ‘novels of the Mexican Revolution,’ he distinguishes himself today not only by his writing but also by the forceful leadership which he gives to the intellectual life of his country.” —The New York Times “An incredible story of love, death, and fate . . . a haunting and mesmerizing experience.” —The Sunflower “A novella by the author of *Where the Air is Clear*, *The Good Conscience*, and *The Death of Artemio Cruz* finds him at brilliant dark play as he swiftly carries the horror to its proof and inevitable fulfillment . . . Black on black, with all the accoutrements of the classic horror tale, this attains a fatalism that is the fullest realization of fantasy.” —Kirkus Reviews

Aura Peter Standish, 2011-05-15 Since its publication in 1962, Carlos Fuentes' novel, *Aura*, remains not merely an object of academic interest but a continuous source of controversy in Mexico. It was the explosive combination of sex and religion that incensed the Ministro de Hacienda, Salvador Abascal, and linked *Aura* to the recent polemical Mexican film *El Crimen del Padre Amaro*. *Aura* is preoccupied with the place and persistence of the sacred in modern Mexico rather than simply the secret abuses of institutional Catholicism. This critical edition of the work is accompanied by an introduction and notes on the text.

Postcolonial concepts of hybridity and identity in Carlos Fuentes' "*Aura*" Antonia Lilie, 2012-01-26 Seminar paper from the year 2011 in the subject Romance Studies - Latin American Studies, grade: 1,3, University of Toronto, language: English, abstract: In her essay "Postcolonialism and Latin American literature: the case of Carlos Fuentes" Nadia Lie describes two different currents of Postcolonialism: the first one is the literature that grew out of colonial experience in Latin America and is considered an answer to the over present literature of the oppressing European literary traditions. The second one is characterized by a set of theoretical concerns and reading strategies. Rather than merely "writing back", a term introduced by Bill Ashcroft, Gareth Griffiths and Helen Tiffin, this approach suggests that cultural differences are constructed by replacing the strong binary opposition "us" versus "the other" with concepts of hybridity, in-betweenness and border thinking (see Lie 2005: 139-140). The early work of Mexican author Carlos Fuentes (*1928) can be seen in an intermediate position between these two concepts. Even though the theme of otherness and opposition is very present in his work, as can be seen in *La frontera de cristal* (1995) and his early novel *Aura* (1962), his writing is full of intertextual references that show his appreciation for both European and Latin American literary tradition. As part of the "Boom" movement in Latin American literature he also uses supernatural and gothic elements that sometimes make it hard or even impossible to distinguish between reality and illusion: According to this aesthetic, unreal things are treated as if realistic and

mundane, and mundane things as if unreal. Plots, while often based on real experiences, incorporate strange, fantastic, and legendary elements, mythical peoples, speculative settings, and characters who, while plausible, could also be unreal, and combine the true, the imaginary, and the nonexistent in such a way that they are difficult to separate. (Pope 1996: 229) Fuentes' novel *Aura* is an early example of this tradition. The purpose of this essay will be a postcolonial approach to the novel, showing Fuentes' position in the discourse of postcolonial identities and literatures. The argument will be based on notions of time, space and intertextual references that can be found in *Aura*.

Ordinary Enchantments Wendy B. Faris, 2004 *Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction, defines its characteristics and narrative techniques, and proposes a new theory to explain its significance. In the most comprehensive critical treatment of this literary mode to date, Wendy B. Faris discusses a rich array of examples from magical realist novels around the world, including the work not only of Latin American writers like Gabriel Garcia Marquez, but also of authors like Salman Rushdie, Gunter Grass, Toni Morrison, and

Ben Okri. Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary, magical realism destabilizes the dominant form of realism based on empirical definitions of reality, gives it visionary power, and thus constitutes what might be called a remystification of narrative in the West. Noting the radical narrative heterogeneity of magical realism, the author compares its cultural role to that of traditional shamanic performance, which joins the worlds of daily life and that of the spirits. Because of that capacity to bridge different worlds, magical realism has served as an effective decolonizing agent, providing the ground for marginal voices, submerged traditions, and emergent literatures to develop and create masterpieces. At the same time, this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within. In addition to describing what many consider to be the progressive cultural work of magical realism, Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity. And finally, drawing on the narrative innovations and cultural scenarios that magical realism enacts, she extends those principles toward issues of gender and the possibility of a female element within magical realism.

Self-conscious Art Susan L. Fischer, 1996 Self-conscious art constitutes a significant and previously neglected feature of modern literature and is a crucial concern of contemporary criticism. The essays in this volume consider such questions as

the limits of self-consciousness, the creative and circumstantial tensions that produce its various features, the ludic nature of art, the role of interpretation, and the aesthetic, social, and mythic reverberations of self-reflexive art.
