Nabokov's Favorite Word Is Mauve Ben Blatt, 2017-03-14 Data meets literature in this “enlightening” (The Wall Street Journal), “brilliant” (The Boston Globe), “Nate Silver-esque” (O, The Oprah Magazine) look at what the numbers have to say about our favorite authors and their masterpieces. There’s a famous piece of writing advice—offered by Ernest Hemingway, Stephen King, and myriad writers in between—not to use -ly adverbs like “quickly” or “angrily.” It sounds like solid advice, but can we actually test it? If we were to count all the -ly adverbs these authors used in their careers, do they follow their own advice? What’s more, do great books in general—the classics and the bestsellers—share this trait? In the age of big data we can answer questions like these in the blink of an eye. In Nabokov’s Favorite Word Is Mauve, a “literary detective story: fast-paced, thought-provoking, and intriguing” (Brian Christian, coauthor of Algorithms to Live By), statistician and journalist Ben Blatt explores the wealth of fun findings that can be discovered by using text and data analysis. He assembles a database of thousands of books and hundreds of millions of words, and then he asks the questions that have intrigued book lovers for generations: What are our favorite authors’ favorite words? Do men and women write differently? Which bestselling writer uses the most clichés? What makes a great opening sentence? And which writerly advice is worth following or ignoring? All of Blatt’s investigations and experiments are original, conducted himself, and no math knowledge is needed to enjoy the book. On every page, there are new and eye-opening findings. By the end, you will have a newfound appreciation of your favorite authors and also come away with a fresh perspective on your own writing. “Blatt’s new book reveals surprising literary secrets” (Entertainment Weekly) and casts an x-ray through literature, allowing us to see both the patterns that hold it together and the brilliant flourishes that allow it to spring to life.

The Female Defender Annette Harper,

Read to Succeed Joy Court, 2011-08-31 Concern about children's reading is an international issue highlighted by continuing OECD research. Government actions such as the priority given to reading in the review of the National Curriculum reflect current UK concern. Reading is an essential life skill not only for an individual's development and life chances but for social cohesion and a developed democracy. In an era of public spending cuts it is important to reflect upon the impact that libraries can have in growing readers for the future. This much-needed book provides valuable evidence of

successes so far both nationally and internationally, and offers ideas for future development as well as inspiration for current practice. An edited collection contributed by expert practitioners, it covers all aspects of promoting reading to and with children and young people from birth right through to teenage years, including the following key topics: the importance of Bookstart how children begin to read creating young readers literacy, libraries and literature in New Zealand the Summer Challenge in libraries Stockport does Book Idol restoring reading to the classroom promoting excellence - shadowing the CILIP Carnegie and Kate Greenaway medals local book awards the sport of reading libraries and partnerships the hard to reach reader in the 21st century creative reading. Readership: Offering future scoping for managers and aiming to inspire partnership and cooperation, this will be invaluable reading for practitioners and students of librarianship in both the public and school sectors. It will also be of great interest to all teachers, consultants and educators concerned with literacy and reading, and to policy makers in both the school and library sectors.

The Final Frame Harmony Reed, 2023-03-22 He sacrificed his family for ambition — but now they're all he has left. Cameron Parrish became Hollywood's #1 action director by refusing to use AI-assist technology. Every film is a box office success, but neither fame nor fortune makes up for the fact that Cameron's dying to make real cinema — an Oscar-worthy movie that will show the world he's an auteur, not the clever hack that the critics make him out to be. But mere hours after being greenlit for the film he knows he was born to shoot, director Cameron Parrish is diagnosed with terminal brain cancer. There's no treatment, and if he's lucky, he might make it another year, but more likely, he's got a few months left. As word gets out about his illness, Cameron realizes he has no true friends. No real family either: his obsession with finding perfection behind the camera lens has long since alienated his ex-wife and his adult son. Desperate to make his final days matter, he signs up for an experimental program that promises to help him discover the meaning of his life — and his death. Accompanied by an artificial intelligence named Sofia, Cameron embarks on a bucket list journey — from the Maldives and Bhutan to Toledo and Morocco — designed to round out his unbalanced life and help him make peace with his impending death. But what if it's too late for Cameron to see the world through a new lens? Eat, Pray, Love meets The Bucket List in this vibrant but poignant story exploring the possibility of second chances and the unexpected beauty of an imperfect life.

Good Luck Cat Lissa Warren, 2014-10-07 Lissa Warren's father needed a retirement companion while his wife and daughter were at work. Enter Ting, a seven-pound Korat who changed his life, and the life of the family. All kittens are mischievous, but Ting "the cat grenade" was real trouble. She was also smart, endearing, and the soul of the Warren family. In late 2008, Lissa's father died of a heart attack. The images from that night still haunt her—especially the EKG readout ending in one long, devastating em dash. Less than a year later, Lissa and her mother stared at another EKG readout, this time for Ting. A living feline extension of the man they missed so much—the man they had tried, but failed, to save—she was diagnosed with a potentially fatal heart condition. The only option was to have a human pacemaker implanted in the cat—a procedure even the best animal hospital in Boston hadn't performed in a decade. Determined not to lose another family member, they embarked on a medical odyssey on behalf of the gray cat who had been her father's shadow—a journey that would prepare one of them for her own serious diagnosis. A gorgeously written memoir about grief, hope, and how pets both complicate and enrich our lives, *The Good Luck Cat* is a testament to the power of the human—and the feline—spirit.

The Book of Two Ways Jodi Picoult, 2020-09-22 #1 NEW YORK TIMES BESTSELLER • From the author of *Small Great Things* and *A Spark of Light* comes a “powerful” (The Washington Post) novel about the choices that alter the course of our lives. Look for Jodi Picoult’s new novel, *By Any Other Name*, now available! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE Everything changes in a single moment for Dawn Edelstein. She’s on a plane when the flight attendant makes an announcement: Prepare for a crash landing. She braces herself as thoughts flash through her mind. The shocking thing is, the thoughts are not of her husband but of a man she last saw fifteen years ago: Wyatt Armstrong. Dawn, miraculously, survives the crash, but so do all the doubts that have suddenly been raised. She has led a good life. Back in Boston, there is her husband, Brian, their beloved daughter, and her work as a death doula, in which she helps ease the transition between life and death for her clients. But somewhere in Egypt is Wyatt Armstrong, who works as an archaeologist unearthing ancient burial sites, a career Dawn once studied for but was forced to abandon when life suddenly intervened. And now, when it seems that fate is offering her second chances, she is not as sure of the choice she once made. After the crash landing, the airline ensures that the survivors are seen by a doctor, then offers transportation to wherever they want to go. The obvious destination is to fly home, but she could take another path: return to the archaeological site she left years before, reconnect with Wyatt and their unresolved history, and maybe even complete her research on *The Book of Two Ways*—the first known map of the afterlife. As the story unfolds, Dawn’s two possible futures unspool side by side, as do the secrets and doubts long buried with them. Dawn must confront the questions she’s never truly asked: What does a life well lived look like? When we leave this earth, what do we leave behind? Do we make choices . . . or do our choices make us? And who would you be if you hadn’t turned out to be the person you are right now?

THE #1 NEW YORK TIMES BESTSELLER 'A writer the world should be reading right now.' Independent Who would you be, if you hadn't turned out to be the person you are now? Dawn is a death doula, and spends her life helping people make the final transition peacefully. But when the plane she's on plummets, she finds herself thinking not of the perfect life she has, but the life she was forced to abandon fifteen years ago - when she left behind a career in Egyptology, and a man she loved. Against the odds, she survives, and the airline offers her a ticket to wherever she needs to get to - but the answer to that question suddenly seems uncertain. As the path of her life forks in two very different directions, Dawn must confront questions she's never truly asked: what does a well-lived life look like? What do we leave behind when we go? And do we make our choices, or do our choices make us? Two possible futures. One impossible choice. -----
