Material Conflicts Neil Jarman, 2020-08-04 The deep and abiding sectarian divide splintering Northern Ireland has been the focus of considerable attention recently. In particular, the role parades and visual displays play in underscoring opposition has come into the spotlight with the emergence of heightened tensions, close on the heels of a tentative peace. Providing penetrating insights into the historical roots of Northern Ireland's ethnic hostilities, this timely book explores the role of images and material culture in shaping present attitudes. Ritual, identity, class and memory are shown to be potent forces informing trenchant animosities -- animosities which are visually reflected in banners and murals for unionists and nationalists alike. The pivotal role of the Twelfth of July parade in Belfast, when an estimated 100,000 either parade or watch the Orangemen, is highlighted. Anyone interested in the future of Northern Ireland and concerned about escalating conflict across the globe will warmly welcome this impressive study.

Race and Respectability in an Early Black Atlantic Cassander L. Smith, 2023-10-25 Race and Respectability in an Early

Black Atlantic examines the means through which people of African descent embodied tenets of respectability as a coping strategy to navigate enslavement and racial oppression in the early Black Atlantic world. The term “respectability politics” refers to the way members of a minoritized population adopt the customs and manners of a dominant culture in order to gain visibility and combat negative stereotypes about their subject group. Today respectability politics can be seen in how those within and outside Black communities police the behavior of Black celebrities, critique protest movements, and celebrate accomplishments by people of African descent who break racial barriers. To study the origins of the complicated relationship between race and respectability, Cassander L. Smith shows that early American literatures reveal Black communities engaging with issues of respectability from the very beginning of the transatlantic slave trade. Concerns about character and comportment influenced the literary production of Black Atlantic communities, particularly in the long eighteenth century. Uncovering the central importance of respectability as a theme shaping the literary development of cultures throughout the early Black Atlantic, Smith illuminates the mechanics of respectability politics in a range of texts, including poetry, letters, and life writing by Phillis Wheatley, Olaudah Equiano, and expatriates on the west coast of Africa in Sierra Leone. Through these early Black texts, *Race and Respectability in an Early Black Atlantic* considers respectability politics as a malleable strategy that has both energized and suppressed Black cultures for centuries.

Journey to the Aisle Carmen Treviño Moreno, 2010-05-10 *Journey to the Aisle* shares a life experience growing up in the barrio in south Texas where Spanish and Mexican cultural influences and traditions, being the norm, presented obstacles and conflicts while experiencing immersion into educational environments. Practicing Catholicism was the core of daily existence in the lives of families. Growing up in a family with ten siblings, the author shares stories about learning how to survive daily in a male-dominant Spanish-speaking home environment where gender roles were defined through unwritten rules. Attending an Irish Catholic School in the barrio and ultimately a public school system led to a journey of reflective questioning of cultural expectations. She relates personal struggles and conflicts encountered as she journeys through the process of deciding to make a commitment to marrying.
