Multimodality and Aesthetics Elise Seip Tønnessen, Frida Forsgren, 2018-09-21 This volume explores the relationship between aesthetics and traditional multimodal communication to show how all semiotic resources, not just those situated within fine arts, have an aesthetic function. Bringing together contributions from an interdisciplinary group of researchers, the book meditates on the role of aesthetics in a broader range of semiotic resources, including urban spaces, blogs, digital scrapbooks, children's literature, music, and online learning environments. The result is a comprehensive collection of new perspectives on how communication and aesthetics enrich and complement one another when meaning is made with semiotic resources, making this key reading for students and scholars in multimodality, fine arts, education studies, and visual culture.

In Their Lives Andrew Blauner, 2022-12-13 The perfect gift for any Beatles fan, *In Their Lives* is an anthology of essays from a chorus of twenty-nine luminaries singing the praises of their favorite Beatles songs. The Beatles' influence—on their contemporaries, on our cultural consciousness, and on the music industry ever after—is difficult to overstate. We all have a favorite song from the band that made us want to fall in love, tune in, and follow our dreams. Arranged chronologically by the date of the song's release, these essays highlight both the Beatles' evolution as well as the span of generations their music affected. Whether they are Beatlemaniacs who grew up listening to the iconic albums on vinyl or new fans who stream their favorite songs on their phones, all of the contributors explore that poignant intersection between Beatles history and personal history. With contributions from twenty-nine authors and musicians—Roz Chast on "She Loves You," Jane Smiley on "I Want to Hold Your Hand," Rosanne Cash on "No Reply," Gerald Early on "I'm a Loser," Rick Moody on "The End," Maria

Popova on "Yellow Submarine," David Duchovny on "Dear Prudence," Chuck Klosterman on "Helter Skelter," David Hajdu on "You Know My Name (Look Up the Number)," and more—the breadth of the band's impact is clear. From musings on young love and family strife to explorations of racial boundaries and identity, these essays pay tribute to a band that ran the gamut of human experience in a way no musical group has done before or since. "In Their Lives is full of pleasant surprises."—New York Times

The Beatles as Musicians Walter Everett, 1999 Given the phenomenal fame and commercial success that the Beatles knew for the entire course of their familiar career, their music per se has received surprisingly little detailed attention. Not all of their cultural influence can be traced to long hair and flashy clothing; the Beatles had numerous fresh ideas about melody, harmony, counterpoint, rhythm, form, colors, and textures. Or consider how much new ground was broken by their lyrics alone -- both the themes and imagery of the Beatles' poetry are key parts of what made (and still makes) this group so important, so popular, and so imitated. This book is a comprehensive chronological study of every aspect of the Fab Four's musical life -- including full examinations of composition, performance practice, recording, and historical context -- during their transcendent late period (1966-1970). Rich, authoritative interpretations are interwoven through a documentary study of many thousands of audio, print, and other sources.
