Rumba Dance Encyclopedi Thomas L. Nelson, 2009-05 Kalif Brown is an inspiring basketball star, who has what it takes to make it to the NBA. He's a high school senior with big dreams. But his off the court lifestyle of drugs and guns, may land him in jail or dead. Growing up in a drug infested neighborhood filled with junkies, and criminals, doesn't make his situation any better. And like most young black men and women he's living in a single parent home with his mother. He doesn't have a father figure; therefore he turns to a local dealer to fill that image of a father. Kalif must make a choice. Will it be Hustling or Hooping? And he must make this decision fast because his dreams and life may depend on it. Many young inner city athletes and those not into sports, deal with the pressures of everyday life. And many find it hard to deal with especially if they don't have anyone to talk to. Hustling or Hooping may be a fictional book, but there is a Kalif Brown in every urban city in the U.S. Many young black men grow up fatherless, and turn to the streets for a family. The out come is usually negative. But many do make it out of their situations. This book is highly recommended for any young man, or woman who is growing up in a negative environment, and feels as though he or she cannot make that change for the good. This book can be a tool, to make that negative situation a positive one. But also this book reveals the consequences of not making that change for the better.

Who We're Reading When We're Reading Murakami David Karashima, 2020-09-01 How did a loner destined for a niche domestic audience become one of the most famous writers alive? A fascinating look at the business of bringing a best-selling novelist to a global audience (The Atlantic)—and a “rigorous” exploration of the role of translators and editors in the creation of literary culture (The Paris Review). Thirty years ago, when Haruki Murakami's works were first being translated, they were part of a series of pocket-size English-learning guides released only in Japan. Today his books can be read in fifty languages and have won prizes and sold millions of copies globally. How did a loner destined for a niche domestic audience become one of the most famous writers alive? This book tells one key part of the story. Its cast includes an expat trained in art history who never intended to become a translator; a Chinese American ex-academic who never planned to work as an editor; and other publishing professionals in New York, London, and Tokyo who together introduced a pop-inflected, unexpected Japanese voice to the wider literary world. David Karashima synthesizes research, correspondence, and interviews with dozens of individuals—including Murakami himself—to examine how countless behind-the-scenes choices

over the course of many years worked to build an internationally celebrated author's persona and oeuvre. His careful look inside the making of the "Murakami Industry uncovers larger questions: What role do translators and editors play in framing their writers' texts? What does it mean to translate and edit "for a market"? How does Japanese culture get packaged and exported for the West?

Teaching Postwar Japanese Fiction Alex Bates, 2023-01-17 As Japan moved from the devastation of 1945 to the economic security that survived even the boom and bust of the 1980s and 1990s, its literature came to embrace new subjects and styles and to reflect on the nation's changing relationship to other Asian countries and to the West. This volume will help instructors introduce students to novels, short stories, and manga that confront postwar Japanese experiences, including the suffering caused by the atomic bombings of Hiroshima and Nagasaki, the echoes of Japan's colonialism and imperialism, new ways of thinking about Japanese identity and about minorities such as the zainichi Koreans, changes in family structures, and environmental disasters. Essays provide context for understanding the particularity of postwar Japanese literature, its place in world literature, and its connections to the Japanese past.

Relevance and Marginalisation in Scandinavian and European Performing Arts 1770-1860 Randi Margrete Selvik, Svein Gladsø, Annabella Skagen, 2020-12-30 *Relevance and Marginalisation in Scandinavian and European Performing Arts 1770-1860: Questioning Canons* reveals how various cultural processes have influenced what has been included, and what has been marginalised from canons of European music, dance, and theatre around the turn of the nineteenth century

and the following decades. This collection of essays includes discussion of the piano repertory for young ladies in England; canonisation of the French minuet; marginalisation of the popular German dramatist Kotzebue from the dramatic canon; dance repertory and social life in Christiania (Oslo); informal cultural activities in Trondheim; repertory of Norwegian musical clocks; female itinerant performers in the Nordic sphere; preconditions, dissemination, and popularity of equestrian drama; marginalisation and amateur staging of a Singspiel by the renowned Danish playwright Oehlenschläger, also with perspectives on the music and its composers; and the perceived relevance of Henrik Ibsen's staged theatre repertory and early dramas. By questioning established notions about canon, marginalisation, and relevance within the performing arts in the period 1770–1860, this book asserts itself as an intriguing text both to the culturally interested public and to scholars and students of musicology, dance research, and theatre studies.
