*Existentialism is a Humanism* Jean-Paul Sartre, 2007-07-24 This book presents a new English translation of two seminal works by Jean-Paul Sartre, the most dominant European intellectual of the post-World War II decades. The volume includes Sartre's 1945 lecture "Existentialism Is a Humanism" and his analysis of Camus's *The Stranger*, along with a discussion of these works by acclaimed Sartre biographer Annie Cohen-Solal. This edition is a translation of the 1996 French edition, which includes Arlette Elkäim-Sartre's introduction and a Q&A with Sartre about his lecture. In her foreword, intended for an American audience, acclaimed Sartre biographer Annie Cohen-Solal offers an assessment of both works. It was to correct common misconceptions about his thought that Sartre accepted an invitation to speak on October 29, 1945, at the Club Maintenant in Paris. The unstated objective of his lecture ("Existentialism Is a Humanism") was to expound his philosophy as a form of "existentialism," a term much bandied about at the time. Sartre asserted that existentialism was essentially a doctrine for philosophers, though, ironically, he was about to make it accessible to a general audience. The published text of his lecture quickly became one of the bibles of existentialism and made Sartre an international celebrity. The idea of freedom occupies the center of Sartre's doctrine. Man, born into an empty, godless universe, is nothing to begin with. He creates his essence—his self, his being—through the choices he freely makes ("existence precedes essence"). Were it not for the contingency of his death, he would never end. Choosing to be this or that is to affirm the value of what we choose. In choosing, therefore, we commit not only ourselves but all of mankind.

This engaging summary presents an analysis of Existentialism and Humanism by Jean-Paul Sartre, a text which focuses on the philosopher's idea of existentialism in a more accessible and simplified manner than ever before. By directly addressing the main criticisms levelled against his work, Sartre dispels many of the misconceptions surrounding his ideas and proves, once and for all, that existentialism is neither pessimistic nor depressing, but rather "a doctrine of action". However, the work received mixed reviews, with many readers challenging its factual and philosophical accuracy. Sartre himself later agreed with this criticism, and dismissed many of the arguments he had made in Existentialism and Humanism. A prominent French philosopher and novelist, Sartre was also well known for his relationship with Simone de Beauvoir, as well as being the first person to ever turn down a Nobel Prize. **Existentialism Versus Marxism** George Novack,1966 There is an increasing division between Existentialism and Marxism, despite Jean-Paul Sartre's attempts to bridge these two influential philosophies of the twentieth century. The chief difference lies in the rational and irrational conceptions of the nature of the universe and of society. The expression of this condition has become vehement and widespread, as is indicated in Existentialism versus Marxism. Included in this original and rich anthology are such classical figures as Nietzsche, Marx, and Engels, and such modern thinkers as Sartre, Camus, Marcuse, Lukacs, Schaff, et al. The editors illuminating introduction sets up the battle lines clearly, enabling the reader to understand the meaning and engage in the excitement of the confrontation.

Thematic Distinction Between Essence and Existence James Alabi,2018-08-20 Essay from the year 2009 in the subject Philosophy - Miscellaneous, , language: English, abstract: The terms essence and existence have dominated philosophical discussions for centuries, at least from the era of Plato up to the contemporary times. The central issue at the heart of this discourse in the preliminary stage had to do with the question of what actually makes an essence of an existing entity. For example, if you say God, philosophers will probe further to ask: what is the essence of God? In other words, 'what are those characteristics that are truly exclusive to God? If, again, you say a Satsuma (a type of orange) exists, then one will be prompted to ask as to what features distinguish it from a tangerine. That is, what are those distinctive qualities - essentially immaterial - that will not make me call an existential Satsuma a tangerine? What the inquirer is demanding is simply something more than mere the Satsuma or any of the accidental features like colour, taste, etc. Questions have also been raised in terms of what actually exists as against what is believed to exist. The discourse quickly like wild fire moved from the level of mere conceptualizing the terms to the level of philosophers trying to find out which of essence and existence precedes each other. In other words, granted, at least, at level of assumption that both human and objects exist, philosophers are asking whether their essence precedes their existence. The battle to resolve this crisis of concepts pitted modern Christian philosophers like Bishop George Berkeley and Immanuel Kant against contemporary existentialists like Jean Paul Sartre and Martin Heidegger. The former school, led by Berkeley in its submission had argued that essence precedes existence, while the latter, championed by extensively by Sartre disagrees, saying existence precedes essence. However, there are other variations to the discourse but it is sufficient for the scope of this paper to limit discussion to these two, with more emphasis on Sartre.

*Existentialism: A Guide for the Perplexed* Steven Earnshaw,2006-11-07 Existentialism is often studied by students with

little or no background in philosophy; either as an introduction to the idea of studying philosophy or as part of a literary course. Although it is often an attractive topic for students interested in thinking about questions of 'self' or 'being', it also requires them to study difficult thinkers and texts. This Guide for the Perplexed begins with the question of 'What is Existentialism?' and then moves on to provide a brief analysis of the key thinkers, writers and texts - both philosophical and literary - central to existentialism. Chapters focus particularly on Kierkegaard, Heidegger, Sartre and Camus but also discuss other philosophers and writers such as Nietzsche, Dostoevsky and Kafka. The second section of the Guide introduces key topics associated with existentialist thought; Self, Consciousness, the question of God and Commitment. Each chapter explains the concepts and debates and provides guidance on reading and analysing the philosophical and literary texts addressed, focusing throughout on clarifying the areas students find most difficult

*Existentialism* Tanja Staehler, 2012 Existentialism entered the public consciousness after the Second World War, especially through the work of Jean-Paul Sartre and Simone de Beauvoir. Indeed, these charismatic and engaged thinkers gave philosophy a level of glamour it had not before enjoyed, while existentialism's forefathers including Friedrich Nietzsche and Søren Kierkegaard were soon rediscovered and embraced anew. Moreover, in addition to the initial connection between existentialism and literature, the movement developed many interdisciplinary approaches: feminist existentialism, religious existentialism, and political existentialism, to name just a few. As a broad philosophical doctrine, as well as in its interdisciplinary combinations, existentialism is of lasting significance, and remains a thriving enterprise. To make sense of existentialism's huge and growing corpus of scholarly literature, this new Routledge collection answers the need for an authoritative, up-to-date, and comprehensive reference work. In four volumes, it assembles the foundational and the very best cutting-edge research. Volume I ( Key Figures and Definitions ) maps the development of existentialism from the first existentialist to the classic and contemporary existentialists. It also gives users an impression of the most prominent

definitions of existentialism. Volume II ( Basic Themes and Concepts ), meanwhile, collects the most important texts on the key notions of existentialism, such as subject/object, authenticity, ambiguity, humanism, and emotions. Volume III ( Existentialist Aesthetics and Psychology ) attends to those areas outside philosophy which have been most influenced by existentialism: aesthetics (literature, theatre, art, theory) and psychology (psychoanalysis, psychotherapy). The final volume in the collection ( Horizons of Existentialism ) considers several other interdisciplinary areas, including: religion, feminism, communications, and politics. Existentialism is supplemented with a full index, and includes a newly written comprehensive introduction which places the collected material in its historical and intellectual context. The collection will be valued by scholars, students, and researchers as a vital research resource.
