Información radiofónica María del Pilar Martínez-Costa,2002-09 La radio es un medio de información por excelencia. A pesar de que muchos auguraron su muerte súbita tras el triunfo de las emisoras especializadas, la radio informativa sigue teniendo una vigencia que corroboran diariamente unas audiencias millonarias. Sin embargo, el aprendizaje de los modelos y el manejo de las herramientas necesarios para contar y construir los relatos informativos en la radio es una ciencia, una técnica y un arte difícil de adquirir. Este manual de Información Radiofónica es un instrumento que se ofrece a los estudiantes de las Facultades de Comunicación con el objetivo de ayudarles a adquirir las rutinas de trabajo propias de los profesionales de la radio informativa. Se trata de una obra colectiva en la que se incluye por primera vez una perspectiva completa de cada uno de los pasos a seguir en el proceso de construcción de la información y los programas informativos radiofónicos.
