Drysine Legacy Joel Shepherd, 2016-06-21 The legendary battle-carrier UFS Phoenix is on the run in Outer Neutral Space. Lieutenant Commander Erik Debogande and Major Trace Thakur are determined to use neutral territory to broker a peace between humanity's warring factions, away from Fleet's strong arm. But as machinations in Fleet Command send a legendary warrior from Trace's past on a sworn path to kill her, there arises in the territory of an insectoid foe an ancient enemy from the nightmares of Spiral history, bent on Phoenix's destruction....

Renegade Joel Shepherd, 2016-06-20 One thousand years after Earth was destroyed in an unprovoked attack, humanity has emerged victorious from a series of terrible wars to assure its place in the galaxy. But during celebrations on humanity's new homeworld, the legendary Captain Pantillo of the battle carrier Phoenix is court-martialed then killed, and his deputy, Lieutenant Commander Erik Debogande, the heir to humanity's most powerful industrial family, is framed for his murder. Assisted by Phoenix's marine commander Trace Thakur, Erik and Phoenix are forced to go on the run as they seek to unravel the conspiracy behind their captain's demise, pursued to the death by their own fleet. What they discover about the truth behind the wars and the nature of humanity's ancient alien allies will shake the sentient galaxy to its core.

Breakaway Joel Shepherd, 2011-03-01 the second Cassandra Kresnov novel. Fantastic sci-fi in the tradition of Blade Runner...?very dangerous girl?'96 the Advertiser. Cassandra Kresnov is a highly advanced hunter-killer android. She has escaped the League and fled to Callay, a member of the Federation. Because of her fighting skills she was able to save the President's life and is now a trusted member of the security forces. However, not all tanushans are happy to have her on their turf and Cassandra has to tread carefully. As Callay moves towards a vote on whether to break away from the Federation, confusion reigns and terrorist groups plot their own agendas. Cassandra becomes involved with two young troubleshooters for the secret service and finds out more than she ever wanted to know about the tanushan underground and those on the fringes. Furthermore, there is a delegation from the League in tanusha, and Cassandra is not sure that they won't try to take her back. A great story with a cracking plot and strong characters. At its heart is the enigma of Cassandra: Is she more human than human, or is she totally untrustworthy?

Croma Venture Joel Shepherd, 2018-11-11 Upon the ancient drysine moon/city of Defiance, the UFS Phoenix is being rebuilt, but her crew cannot do so in peace. Parren factions jostle for control of not only Defiance, but of the drysine data-

core that Phoenix won at such an awful price. But the parren do not lay sole claim to that ancient knowledge, and within the bowels of the machine-city, something long-dead is awakening. While aliens battle, Captain Debogande struggles to decide his next step. Human emissaries beckon him home, while a terrible new threat drives him toward the far edge of Spiral space. There live the cromas, locked in a titanic struggle against the reeh, a species more terrifying than any yet faced by humanity. And holding perhaps the key to humanity's salvation are a small force of freedom fighters, waging a hopeless battle against impossible odds, having waited a thousand years for just such a saviour as the UFS Phoenix...

Kantovan Vault Joel Shepherd, 2017-08-15 The UFS Phoenix is on a mission to find a lost data-core that may contain the secret to defeating the alo-deepynine alliance. But the means to find the data-core is hidden deep in tavalai space, in a highest-security vault where the tavalai's manipulative State Department keep all their most treacherous secrets. To recover it, Phoenix must pull off the most daring heist the Spiral has ever seen. But Phoenix will need help -- in the form of a rebellious faction of the tavalai Fleet; a fanatical parren mystic who lusts mostly for power; a cynical old tavalai marine who's spent much of his life fighting humans; and a super-intelligent AI queen who will sacrifice anything to rescue her race from extinction. None of them can be trusted, and neither Captain Erik Debogande nor Major Trace Thakur are experienced in this kind of work. But each must gather their ingenuity and courage, and learn as they go, as the scale of the threat confronting humanity looms larger, and the clock is ticking...

Defiance Joel Shepherd, 2017-09-30 The UFS Phoenix is hunting for the long-lost drysine data-core. Within it lie the secrets to saving humanity from the resurgent deepynine machine-race. To recover it, Captain Erik Debogande must work together with the man who holds his sister hostage - the power-hungry parren leader Aristan. Aristan has sworn he will return Lisbeth Debogande once Phoenix grants him equal access to its prize. But now from the direction of hostile space comes word of a dark force hunting humans and parren alike, determined at all costs that the store of the lost Drysine Empire's knowledge should be possessed by neither...

Crossover Joel Shepherd, 2010-10-28 Crossover is the first novel in a series which follows the adventures of Cassandra Kresnov, an artificial person, or android, created by the League, one side of an interstellar war against the more powerful, conservative Federation. Cassandra is an experimental design — more intelligent, more creative, and far more dangerous than any that have preceded her. But with her intellect come questions, and a moral awakening. She deserts the League and heads incognito into the space of her former enemy, the Federation, in search of a new life. Her chosen world is Callay, and its enormous, decadent capital metropolis of Tanusha, where the concerns of the war are literally and figuratively so many light years away. But the war between the League and the Federation was ideological as much as political, with much of that ideological dispute regarding the very existence of artificial sentience and the rules that govern its creation. Cassandra discovers that even in Tanusha, the powerful entities of this bloody conflict have wound their tentacles. Many in the League and the Federation have cause to want her dead, and Cassandra's history, inevitably, catches up with her. Cassandra finds herself at the mercy of a society whose values preclude her own right even to exist. But her presence in Tanusha reveals other fault lines, and when Federal agents attempt to assassinate the Callayan president, she finds herself thrust into the service of her former enemies, using her lethal skills to attempt to protect her former enemies from forces beyond their ability to control. As she struggles for her place and survival in a new world, Cassandra must forge new friendships with old enemies, while attempting to confront the most disturbing and deadly realities of her own existence.

Killswitch Joel Shepherd, 2011-02-01 the third instalment of this gripping trilogy from an exciting new sci-fi author. two years after the unhatching of Callayan President Neiland's plot to make the capital city of tanusha the centre of the Federation, Callay is under siege. A powerful faction of conservative Fleet captains have surrounded Callay, at Earth's behest, and are threatening a blockade - or worse. A fearful Earth does not wish to lose direct control of its precious war machine, and there are fears of civil war. All that Callay has to oppose the warships of the Fleet is the CDF, or Callayan Defence Force - a newly formed group of raw recruits led by a politically hamstrung general, but largely trained and organised by Major Vanessa Rice and her best friend, Callay's very own tame combat-android Commander Cassandra Kresnov. But when Cassandra's lover, Special Agent Ari Ruben, discovers a plot to kill her using a killswitch that her old masters in the League built into her brainstem, Sandy is forced to go underground to stay alive ...

Petrodor Joel Shepherd, 2011-02-24 Petrodor is a city of alleys and shadows, where life is cheap and the only respected currency is blood. Sasha, the wilful yet talented heroine of Sasha, returns to battle in Joel Shepherd's stunning second volume of A Trial of Blood & Steel. Away from the hills of her Lenayin homeland, she is fighting a new battle in the dark alleys and wealthy houses of Petrodor. An influential trading centre, Petrodor holds the key to preventing the coming war between Lenayin and the mighty Bacosh. Together with her mentor Kessligh, Sasha attempts to navigate the political intrigues of the

port city and find a way to stop the war. It is the serrin, the beautiful but dangerous people from beyond the Bacosh, who will be the pivot in this struggle. How much can Sasha trust her old serrin friend Errollyn? And how much can she trust herself?

Haven Joel Shepherd, 2011-06-30 The page-turning conclusion and final instalment of the Trial of Blood & Steel Quartet. The Army of the Regent Arrosh advances on the forces loyal to Saalshen, homeland of the serrin people, as the serrin's friends are in full retreat. Their only hope is to reach the city of Jahnd - the serrin word for Haven - across the River Ipshaal, the only human city in Saalshen itself.

Homecoming JOEL. SHEPHERD, 2024-07-06 The UFS Phoenix is finally homeward bound. On the way is Tuki Station, in barabo space, hit just now by a force of sard ships, working in concert with a larger invasion from alo space. An alo and deepynine fleet has attacked, and humanity's forces are in turmoil despite all of Phoenix's efforts over the past three years to prepare them. Nia leads the assault, Styx's old AI queen nemesis from the Drysine/Deepynine War, the greatest armed conflict in Spiral history, twenty-five thousand years ago. But what does Nia seek? Is she after the drysine data-core, which Phoenix recovered nearly three years ago? Does she pursue members of the Debogande family visiting Hoffen Station, as a way to get at Phoenix's captain personally? And if she's making a full-scale attempt to remove humanity as a strategic threat, why do her battle plans look so odd? Nia is the greatest synthetic military mind in history, save for Styx. Human Fleet desperately needs Styx's help, yet Supreme Commander Mazungu is terrified of ceding her, and Phoenix, too much power. And now Styx herself has competition, as Phoenix's shipboard AI Shali has just acquired a massive analysis program from reeh space, designed specifically to map Nia's mind, and beat her. But can Nia be predicted, before it's all too late? Reviews for Renegade: (Spiral Wars Book #1) I thought this was going to be yet another cookie-cutter space opera, boy was I wrong! This was fantastic. ...it hits the sweet spot between hard-science and imaginary scifi science. The hard science is very hard, from the perils of centrifugal spin-gravity in combat spacecraft to the destructive potential of ultra-fast kinetic energy weapons. The scifi science is made-up, but it has the key properties which all-too-often are missing: Internal Self-Consistency and Attention To Unintended Consequences. This makes the scifi science semi-hard as well... ...The characters are memorable and engaging... ...I have read this series out to book #6. It just keeps getting better and better. Buy these books. Winchell D Chung Founder, Atomic Rockets Website http://projectrho.com/public_html/rocket/ Amazon Review, September 25, 2019. Joel Shepherd is one of the most dynamic science fiction writers working in the field today. Each of his books blends pulse-pounding action with mind-blowing concepts and a deep understanding of the complications of the human heart. He is one of our very best. Edible Moments Joel Shepherd, 2019-05-20

Rando Splicer Joel Shepherd, 2019-11 Separated from her ship, Major Trace Thakur is stranded on the reeh-occupied world of Rando. The native corbi have suffered beneath reeh tyranny for 800 years, and many have given up hope. But Trace

needs the data stored in the reeh's genetic technology and command center - the Rando Splicer - if she's to learn how to save humanity from impending disaster, and is planning an assault against overwhelming odds. She'll need help from the UFS Phoenix, though, which is caught in a ritual medieval battle to change the croma leadership that sees her crew embarking on a perilous journey across a warring desert continent. Should they fail, humanity could be just one of many species to die.

Sasha Joel Shepherd, 2008 Sasha is a princess, the like of which the highland country of Lenayin has never seen before. But she turns her back on her regal heritage and trains under the great warrior Kesslighin to be a powerful warrior, fighting for the good of the people her father commands. Her exquisite swordplay astonishes all who witness it, yet Sasha is still young, untested in battle and often led by her rash temper. In the complex world of Lenayin loyalties, her defiant wilfulness is drawing the wrong kind of attention. Lenayin is a land almost divided by its two faiths: the Verenthane of the ruling classes and the pagan Goeren-yai, amongst whom Sasha now lives. The Goeren-yai worship swordplay and honour and begin to see Sasha as the great spirit - the Synnich - who will unite them. But Sasha is searching for what she believes and must choose her side carefully. When the Udalyn people - the symbol of Goeren-yai pride and courage - are attacked, Sasha will face her moment of testing. How will she act? Is she ready to lead? Can she be the saviour they need her to be?

Precursor Joel Shepherd, 2025-08-08 The UFS Phoenix returns to Homeworld, after more than three years of searching the galaxy for a way to save humanity from the looming AI threat. Many Fleet captains are unhappy with their own command, following the massive casualties of Nia's first strike. Some say that Captain Erik Debogande is the war leader humanity truly needs. Others warn of civil war. But on Homeworld lurks an even older threat, a secret kept by Fleet Command since Homeworld's first conquest by humans. A secret that could tear Fleet, and Erik's powerful family, apart.

Tracato Joel Shepherd, 2010 For two hundred years Tracato has been the centre of enlightenment, as the serrin have occupied human lands and sought to remake humanity anew. But the serrin have not destroyed Rhodaan's feudal families entirely, and as Tracato faces the greatest threat to its survival in two centuries, old rivalries are stirring. Sasha must assist her mentor Kessligh to strengthen the Tracato Nasi-Keth, yet with one royal sister siding with the feudalists, and another soon to be married to Tracato's most powerful foe, her loyalties are agonisingly divided. Worse still, from Sasha's homeland the Army of Lenayin is marching to make war upon Tracato. Can she fight her own people? Or must she join them, and fight not only her lover Errollyn, but to extinguish the brightest light of hope in all the land - serrin civilisation itself?--Cover.

Ceephay Queen Joel Shepherd, 2022-05-06 Deep within hostile Reeh Empire space, the UFS Phoenix is hunting another AI queen. This one is named Chion, and she has been installed at the heart of Reeh Empire power, enslaved against her will, for the past 8,000 years. Within her vast knowledge lies the most intimate data on Nia, the deepynine queen now threatening humanity's very existence. Freeing Chion could be the key to beating Nia, and saving humanity. But Phoenix's allied drysine queen Styx, and Chion's AI former sidekick Shali, both want Chion for their own purposes. And Chion, of course, will be

defended by the full might of the Reeh Empire. To free her, Phoenix and Styx must win control of an AI fleet known as Raka, derived from Nia's deepynine technology long ago, and used by the Reeh Empire for special missions. But this will mean placing the most powerful AI war fleet in known space into the hands of Styx. Shali insists it's suicide, and every bit the existential threat to humanity that Nia is. But do Captain Debogande and Major Thakur have any other choice?

Qalea Drop Joel Shepherd, 2020-11-23 The UFS Phoenix embarks on a dangerous quest for the AI Ceephay Queen who rules at the heart of the Reeh Empire. For cover, Phoenix will use the enormous war being launched by the new rulers of the Croma, Croma'Dokran, into reeh space. This war is intended in part to evacuate the corbi homeworld of Rando, thus righting a great wrong of Croma history by rescuing two hundred million corbi from reeh tyranny. While Lisbeth defies her parren seniors to use drysine and parren firepower in assisting the evacuation, Erik captains Phoenix, accompanied by Styx's four drysine warships, to the world of Eshir, where Styx insists the Ceephay Queen was once located. There, in the ancient, ruined city of Qalea, Trace and Styx must lead an away mission through buried layers of Reeh Empire history to uncover its long-forgotten secrets. Discovering the Ceephay Queen's present location could set them on the road to saving humanity. But Qalea's secrets have been hidden by the reeh for millennia, secrets that could rock their Empire, and they will stop at nothing to keep hidden.
