Finding the Way Through Water Roland K Price, 2014-05-01 Finding the Way through Water explores how water contributes to our understanding of the created world and our Christian beliefs. As an Emeritus Professor and an ordained priest in the Church of England, author Roland Price explores how water features in the Bible. Important at creation, water brings about global catastrophe, enables escape from slavery, ensures survival in the wilderness, prepares people for worship, and sustains warriors and exiles. In the gospels, Jesus turns water into wine, stills the storm, has his feet washed with a woman's tears, and washes his own disciples' feet. For the Christians who were the first followers of the Way, water was important in baptism and in prophecy. You will be surprised by the extent to which water pervades God's story in the Bible, and how an understanding of the management of water today can make that story accessible to all. Take a look at familiar stories in the Old and New Testaments from the unfamiliar perspective of water. Learn something about the relationship between the world of the Bible and our modern world. Prepare to be challenged, whether you are a water sector professional, or a Christian wanting to understand more about water in God's world today. The forty brief chapters make this an ideal book to read and discuss during the forty days of Lent.

Lao-tzu's Taoteching Laozi, 2009 One of the best-selling English-language translations of the Taoteching. A refreshing new translation. . . . Highly recommended.--Library Journal With its clarity and scholarly range, this version of the Taoteching works as both a readable text and a valuable resource of Taoist interpretation.--Publishers Weekly Read it in confidence that it comes as close as possible to expressing the Chinese text in English.--Victor Mair, professor of Chinese studies, University of Pennsylvania Lao-tzu's Taoteching is an essential volume of world literature, and Red Pine's nuanced and authoritative English translation--reissued and published with the Chinese text en face--is one of the best-selling versions. Features that set this volume apart from other translations are its commentaries by scores of Taoist scholars, poets, monks, recluses, adepts, and emperors spanning more than two thousand years. I envisioned this book, Red Pine notes in his introduction, as a discussion between Lao-tzu and a group of people who have thought deeply about his text. Sages have no mind of their own their mind is the mind of the people to the good they are good to the bad they are good until they become good to the true they are true to the false they are true until they become true . . . Lao-tzu (ca. 600 BCE) was a Chinese sage who Confucius called a dragon among men. He served as Keeper of the Royal Archives and authored the Taoteching. Red Pine is one of the world's foremost translators of Chinese literary and religious texts. His books include The Heart Sutra, Poems of the Masters, and a collection of all the known poems by the mountain hermit Han Shan, The Collected Songs of Cold Mountain.
