Insider's French: Intermediate Conversation Course (Learn French with the Michel Thomas Method) Akshay Bakaya, Michel Thomas, 2017-11-16 Do you want to be able to express yourself in French with confidence and fluency? Insider's French offers a genuine perspective on Francophone culture, opinions and language use so that you can speak confidently on topical issues that are key to the French speaker today. This intermediate French conversation course, devised for all intermediate-level learners or those following on from Total or Perfect French, will advance your overall fluency, listening comprehension and conversation skills, expand your vocabulary and improve your grammar. Through authentic, lively conversations around engaging topics, and the unique Michel Thomas Method for learning, this course focuses on the colloquial language and conversation strategies used by native French speakers so that you can fit in and communicate more naturally. Michel Thomas, the preeminent language teacher, always said that learners start by mastering basic linguist structures (as in his Total and Perfect courses), which provide the bare walls of the house, but that that it was up to us, the learner, to decorate it in our own personal way. Insider's German reflects Michel Thomas's 'Phase 2' courses that he and his team offered at his New York language school, allowing increased vocabulary, improved speaking, comprehension and reading and writing skills - the tools with which to decorate their houses. Insider's French includes:

- Twenty authentic conversations around a comprehensive range of subjects that reflect contemporary French culture
- Language plus: conversation strategies, pronunciation and intonation to help learners express themselves naturally
- Listening and speaking practice to help learners progress to the next level
- Cultural insights into the unspoken rules of the language

This ebook includes 10 chapters with integrated audio conversations. Why is the Michel Thomas Method so successful? The Michel Thomas Method draws on the principles of instructional psychology. Knowledge is structured and organised for the student so that you assimilate the language easily and don't forget it. The method deconstructs the language into building blocks that are introduced sequentially in such a way that the learner creates his/her response and moves on to ever-more-complex

sentences. Michel said: I will dissect everything into small parts and reassemble it in such a way that one will understand everything step by step. He was also very clear about his ground rules: no memorisation, no drills, no homework; relax and leave off the anxiety normally associated with language learning.

The Michel Thomas Method Hodder Education,Paul Howard,2008-05-30 The amazing success of the Michel Thomas method of learning a language is now available for schools. The package offers a comprehensive, accelerated learning course perfect as a grounding for those new to French. No other materials are needed: in fact, the use of other materials would detract from the effectiveness of the course. The author, Paul Howard, has been using the Michel Thomas method in school for some three years, with amazing, and quantifiable, results. Faithfully following the Michel Thomas recordings published by Hodder, Paul has created a teaching and learning programme that additionally uses ICT to support class work. Now teachers and students can experience the success and the confidence that this success generates, to master the structure of the language in a fraction of the time taken by traditional methods. The Michel Thomas method, with its bilingual approach to teaching and interest in engaging with language and decoding meaning, is praised in the Dearing Report, whose authors report its 'considerable success and motivated learners' ('The Languages Review', DfES, March 2007).The course is delivered in two ring binders (one for each Phase), two Teacher's CDRs, and two audio CDs with listening comprehension files, and is supported by two interactive CDRs for students to use at home or in the language laboratory.All the CDs and CDRs are networkable. The teaching is designed for complete beginners and is taught in English. The process appears informal, relaxed and unhurried, but progress is rapid. Learning is based on understanding, not memorisation. The excitement of learning motivates students to make much faster progress than with conventional courses. By the end of the second year of just one hour a week learning French using this method, pupils will have a solid grounding in the grammatical structures equivalent to the requirements of GCSE and beyond. The course comprises: 2 ring binders (one for each of two phases of 25 and 20 lessons respectively) containing hard copies of: scheme of work, lesson plans, pupils' hand-outs, homework sheets, listening comprehension transcripts; CDR with PowerPoints and editable Word files of the scheme of work and all work and answer sheets; audio CD with listening comprehension exercises; 2 class sets of 20 interactive CDRs (one set for each of the two phases) containing audio-visual presentations of the lessons, work sheets (and help), interactive games, and listening comprehension. All these CDs and CDRs are networkable.The course also includes one copy of each of the published Michel Thomas Foundation and Advanced French courses (RRP GBP120).This sample CDR comprises some of the introductory material (including 'How to use the course'), the course overview and the teaching resources for a sample module.

Reflections on Language and Language Learning Marcel Bax, C. Jan-Wouter Zwart, 2001 In *Reflections on Language and Language Learning: In honour of Arthur van Essen*, thirty-one leading language scholars and educational linguists in the Netherlands and abroad with whom over the years Professor van Essen, one of the grandees of applied linguistics, has collaborated provide original essays and studies which discuss the most recent insights and trends in the fields of linguistics and foreign language teaching. While interdisciplinary in scope, the volume encompasses theoretical advances in (educational) linguistic thinking; for example, the perceptive articles written by Michael Byram, Christopher N. Candlin, Natalia Gvishiani, Peter Jordens, Jan Koster, Leo van Lier, and Bondi Sciarone – as well as a sample of the latest methodological developments in areas such as ELT, LSP, and content-based language teaching; cases in point are the useful contributions by Jeanine Deen & Hilde Hacquebord, Michaël Goethals, Paul Meara & Ignacio Rodríguez Sánchez, Rosamond Mitchell & Christopher Brumfit, and Uta Thürmer.
