Arab-Iranian Relations Since the Arab Uprisings Mahjoob Zweiri, 2023-09-01 Unlike most writing on Arab-Iran relations, which looks at specific episodes and specific countries, this book, taking a long term view, assesses the overall dynamics of the relationship, discussing in particular how far religion or politics drives the relationship. It argues that although Iran asserts that religion is a key factor underpinning a coherent approach to international relations, in fact what turns out to be the key factor is the politics of particular circumstances and Iran's specific interests. The book considers Iran's differing reactions to the Arab uprisings of 2011 onwards, showing that while Iran supported the uprisings in some countries it sided with repressive governments in other countries. The book also examines Iran's reaction to its own outbreak of popular discontent in 2009 which was controlled by what has been considered as severe repression and explores how Iran is viewed by ordinary people in different Arab countries. Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

The Rise and Fall of the Arab Empire and the Founding of Western Pre-eminence Rodney Collomb, 2006 Describes the conditions, social, economic and climactic rise and fall of the several culturally fettered Arab empires of the Middle Ages, and the rise of the freer West to pre-eminence. This book explains the spiritual and cultural divide between the Arabs and the West, and how they distanced themselves from the West and declined into a dark age.

Imagine! The Fall of Ayatollahs Constitution Sohrab Chamanara, 2023-03-30 Protests to change the Constitution of Islamic Republic of Iran has been going on since its writing at summer 1979. The protest reached its peak when Ayatollah Khamenei declared Ahmadinejad as President at 2009, known as Green Movement. There are thousands known activists for Change of Constitution in Iran. Here shown pictures of them, who represent millions before them: But 14 People of Manifestation, at June 2019 set the movement at its 4th phase of the eight phases described in this book. Here shown picture of 14 people.

2020 the Fall of Ayatollahs Constitution Sohrab Chamanara, 2020-02-11 This book up to Chapter five is the same as the book "2020 the Fall of Islamic States & The Rise of a New Political Order". Following chapters after a brief description of the events, argues the Islamic Republic of Iran Constitution will be changed if the US Administration supports the movement

for “Change of Constitution”, which started at June 2019 in Iran by the Manifestation of fourteen political activists, shown their pictures here, now is a movement supported by millions.

The History of the Rise and Fall of the World's Religions and their Evolution Younus Samadzada,2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of hunter-gatherer societies in which religion was not part of any institution, the next stages of human life from the agricultural revolution to the modern religions of today are discussed. Among the modern religions discussed are Judaism, Buddhism, Christianity, Islam, Scientology, and numerous others. The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods, and the possible downfalls of the religious belief system.

Heirs to Forgotten Kingdoms Gerard Russell,2015-12-01 Despite its reputation for religious intolerance, the Middle East has long sheltered many distinctive and strange faiths: one regards the Greek prophets as incarnations of God, another reveres Lucifer in the form of a peacock, and yet another believes that their followers are reincarnated beings who have existed in various forms for thousands of years. These religions represent the last vestiges of the magnificent civilizations in ancient history: Persia, Babylon, Egypt in the time of the Pharaohs. Their followers have learned how to survive foreign attacks and the perils of assimilation. But today, with the Middle East in turmoil, they face greater challenges than ever before. In *Heirs to Forgotten Kingdoms*, former diplomat Gerard Russell ventures to the distant, nearly impassable regions where these mysterious religions still cling to survival. He lives alongside the Mandaean and Ezidis of Iraq, the Zoroastrians of Iran, the Copts of Egypt, and others. He learns their histories, participates in their rituals, and comes to understand the threats to their communities. Historically a tolerant faith, Islam has, since the early 20th century, witnessed the rise of

militant, extremist sects. This development, along with the rippling effects of Western invasion, now pose existential threats to these minority faiths. And as more and more of their youth flee to the West in search of greater freedoms and job prospects, these religions face the dire possibility of extinction. Drawing on his extensive travels and archival research, Russell provides an essential record of the past, present, and perilous future of these remarkable religions.
