A Million Little Miracles Mark Batterson, 2024-11-19 The New York Times bestselling author of *Win the Day* reminds us of the millions of miracles God performs every day and inspires us to live with a clearer sense of identity and purpose. Think you've never experienced a miracle? With all due respect, you have never not. In fact, you are one! There never has been—and there never will be—anyone else like you. That isn't a testament to you. It's a testament to the God who created you. Your fingerprint, eyeprint, and voiceprint are unlike anyone else's. Simply put, you matter to God. Most of us take everyday miracles for granted, including the one that stares back at us in the mirror. It's time to take them for gratitude. Why is that so important? Because whatever you don't turn into praise turns into pride. The miracle of life becomes mundane. We get so wrapped up in our own little world, we end up worshipping a god who looks like us, acts like us, and thinks like us. It's no wonder we've lost our wonder. But there is a way to recapture holy curiosity! In *A Million Little Miracles*, New York Times bestselling author Mark Batterson reveals three miraculous truths that awaken us to the Creator and His creation: 1. God Is Bigger Than We Think—we can rest in His wisdom and strength 2. God Is Closer Than We Realize—we never have to do life alone 3. God Is Better Than We Imagine—we can reclaim our childlike wonder A million little miracles are waiting to be discovered, including the miracle called you.

The Origin of the Life of a Human Being Rahul Peter Das, 2003-01-01 This study attempts to determine how the ancient Indian medicinal and sexological texts would answer a non medical question but also social and religious relevance namely: what happens in a woman's body at the time of conception? To this end, numerous relevant texts were exhaustively analysed, along with several secondary sources and other traditional medicinal systems.

Levinas and Analytic Philosophy Michael Fagenblat, Melis Erdur, 2019-11-27 This volume examines the relevance of Emmanuel Levinas's work to recent developments in analytic philosophy. Contemporary analytic philosophers working in metaethics, the philosophy of mind, and the metaphysics of personal identity have argued for views similar to those espoused by Levinas. Often disparately pursued, Levinas's account of ethics as first philosophy affords a way of connecting these respective enterprises and showing how moral normativity enters into the structure of rationality and personal identity. In metaethics, the volume shows how Levinas's moral phenomenology relates to recent work on the normativity of rationality and intentionality, and how it can illuminate a wide range of moral concepts including accountability, moral intuition, respect, conscience, attention, blame, indignity, shame, hatred, dependence, gratitude and guilt. The volume also tests Levinas's innovative claim that ethical relations provide a way of accounting for the irreducibility of personal identity to

psychological identity. The essays here contribute to ongoing discussions about the metaphysical significance and sustainability of a naturalistic but nonreductive account of personhood. Finally, the volume connects Levinas's second-person standpoint with analogous developments in moral philosophy.

Life Is a Song of Love Sally Patton, 2023-10-27 For over half her life, Sally Patton has engaged in a contemplative, spiritual practice to awaken from separation consciousness. In *Life Is a Song of Love*, she draws upon channeled non-dual teachings from Yeshua and Mother Mary, combined with a variety of teachings from many faith traditions and spiritual paths, to answer a unique call to be an emissary of Divine Feminine Compassionate Consciousness. The Holy Mother has returned to heal into wholeness the division between feminine and masculine energies, necessary to end thousands of years of patriarchal domination. Sally helps women wake to the strength of the Mother within, embracing the sacredness of all life on Mother Earth.
