Sample Book Insights: #1 The Hmong, a hilltribe people, believed that if a couple failed to produce children, they could call in a shaman who would enter a trance and summon a posse of helpful familiars. The shaman would ride a winged horse between the earth and the sky, and negotiate with the spirits for the patients' health. #2 When a Hmong woman became pregnant, she would pay close attention to her food cravings. If she craved ginger, and did not eat it, her child would be born with an extra finger or toe. If she craved chicken flesh, and did not eat it, her child would have a blemish near its ear. #3 The Lees' 13th child, Mai, was born in a refugee camp in Thailand. Their 14th child, Lia, was born in the Merced Community Medical Center in California. The Lees' placenta was incinerated, and some Hmong women have asked the doctors at MCMC if they could take their babies' placentas home. #4 When Lia was born, at 7:09 p. m. on July 19, 1982, Fousha was lying on her back on a steel table, her body covered with sterile drapes, her genital area painted with a brown Betadine solution, with a high-wattage lamp trained on her perineum. Hmong American Concepts of Health, Healing, and Conventional Medicine Dia Cha,2003 America's healthcare system in the twenty-first century faces a variety of pressures and challenges, not the least of which is that posed by the increasingly multicultural nature of American society itself. Large numbers among the Hmong, immigrants from the landlocked Asian nation of Laos, continue to prefer their own ancient medical traditions. That these Hmong Americans should continue to adhere to a tradition of folk medicine, rather than embrace the modern healthcare system of America, poses questions that must be answered. This book takes up the task of examining Hmong American concepts of health, illness and healing, and looks at the Hmong American experience with conventional medicine. In so doing, it identifies factors that either obstruct or enable healthcare delivery to the Hmong, specifically a target sample of Hmong Americans resident in Colorado. Drawing upon scientific methods of data collection, the research reveals attitudes currently held by a group of American citizens toward health and medicine which run the gamut from the very modern to those which have prevailed in the highlands of Southeast Asia for centuries.

Asian American Studies Now Jean Yu-Wen Shen Wu,Thomas Chen,2010-03-08 Asian American Studies Now truly represents the enormous changes occurring in Asian American communities and the world, changes that require a reconsideration of how the interdisciplinary field of Asian American studies is defined and taught. This comprehensive anthology, arranged in four parts and featuring a stellar group of contributors, summarizes and defines the current shape of this rapidly changing field, addressing topics such as transnationalism, U.S. imperialism, multiracial identity, racism, immigration, citizenship, social justice, and pedagogy. Jean Yu-wen Shen Wu and Thomas C. Chen have selected essays for

the significance of their contribution to the field and their clarity, brevity, and accessibility to readers with little to no prior knowledge of Asian American studies. Featuring both reprints of seminal articles and groundbreaking texts, as well as bold new scholarship, Asian American Studies Now addresses the new circumstances, new communities, and new concerns that are reconstituting Asian America.

Quicklet on The Spirit Catches You and You Fall Down by Anne Fadiman Marcin Ossowski, 2012-03-02 Quicklets: Your Reading Sidekick! This Hyperink Quicklet includes an overall summary, chapter commentary, key characters, literary themes, fun trivia, and recommended related readings. ABOUT THE BOOK Anne Fadiman's seminal work of nonfiction, *The Spirit Catches You and You Fall Down*, examines the myriad difficulties and complications that arise when two radically different cultures come in to contact with one another. However, the author contextualizes these larger clashes within a much more intimate, and ultimately human, story: that of the travails of a Hmong family, the Lees, who came to the United States in the 1970's from Laos as political refugees, and settled in Merced, California. The Hmong are an ethnic group that inhabited the mountainous and densely forested highlands of Southeast Asia. They originally hailed from the southern mainland of China as one of the sub-populations of the Miao ethnicity, but were relentlessly subjugated and brutalized by the Han peoples, who have long been the dominant ethnic group in the area. This eventually drove them far south to the highlands of China, Vietnam, Laos and Thailand, where the borders between these countries are practically non-existent. MEET THE AUTHOR Marcin Ossowski is a native of Merced, California, a town located at the foot of the Sierra Nevada Mountains and home to the newest University of California campus. He finished his undergraduate work at UCLA in 2007 and majored in linguistics and neuroscience, respectively. EXCERPT FROM THE BOOK In accordance with Hmong tradition, Lia's name was given to her three days after her birth, in a ceremony called *hu plig*, translated as "soul-calling." Perhaps more accurately, this is described as the tradition whereby the soul is installed in the newborn child. The Hmong believed that the most common cause of illness was the loss of the soul since humans are bound to *yaaj-yang*, the earthly realm, and can not travel freely to *yeeb-yin*, the spiritual realm. However, the body is deeply bound to the soul, and both are equally bound to life; this bond of all three was necessary for health and happiness. However, the soul could be, in turn, flighty, skittish or even easily stolen; those who possessed the ability to maintain their unity with the soul were deeply blessed. Furthermore, the souls of babies were especially prone to disappearance or kidnapping. This was always done at the hands of malevolent spirits known as *dab*, and the guarding of one's spirit and its crucial bond with soul and body was a profound fixture in the Hmong cultural identity...
