Johann Sebastian Bach's Christmas Oratorio Markus Rathey, 2016 In the last decades of the 17th century, the feast of Christmas in Lutheran Germany underwent a major transformation when theologians and local governments waged an early modern war on Christmas, discouraging riotous pageants and carnivalesque rituals in favor of more personal and internalized expressions of piety. Christmas rituals, such as the Heilig Christ plays and the rocking of the child (Kindelwiegen) were abolished, and Christian devotion focused increasingly on the metaphor of a birth of Christ in the human heart. John Sebastian Bach's Christmas Oratorio, composed in 1734, both reflects this new piety and conveys the composer's experience living through this tumult during his own childhood and early career. Markus Rathey's book is the first thorough study of this popular masterpiece in English. While giving a comprehensive overview of the Christmas Oratorio as a whole, the book focuses on two themes in particular: the cultural and theological understanding of Christmas in Bach's time and the compositional process that led Bach from the earliest concepts to the completed piece. The cultural and religious context of the oratorio provides the backdrop for Rathey's detailed analysis of the composition, in which he explores Bach's compositional practices, for example, his reuse and parodies of movements that had originally been composed for secular cantatas. The book analyzes Bach's original score and sheds new light on the way Bach wrote the piece, how he shaped musical themes, and how he revised his initial ideas into the final composition.

**Johann Sebastian Bach, Christmas Oratorio (BWV 248)** Ignace Bossuyt, 2004 This book is intended to provide the inquisitive listener with a guide to exploring the many layers of meaning found in Bach's Christmas Oratorio. The first section offers a general sketch of the specific context in which this composition was created at the end of 1734, shedding light on the work's liturgical function and taking a closer look at the biblical and broader religious themes. This first section will also focus on the contemporary textual and musical components of the oratorio genre, of which Bach's composition is a prime example. The second section is a detailed discussion of the 64 movements making up the work, with a focus on three aspects: the text, the music and the relation between the two. The nature of the musical setting and its structure depends on the nature of the text, be it prose (the Bible story) or poetry (the chorales and the inserted commentary), narrative or dramatic (indirect or direct speech). Moreover, the music was governed by the particular musical canons of the day, which largely determined and regulated the structure of each section and the coherence between successive sections or those at a greater remove from one another. In order to get to the essence of Bach's oeuvre, the reader-listener must be prepared to become immersed in the literary and musical idiom, the specific terminology and grammar of the day.
