

The Scars Of Anatomy

Sir Malcolm Morris

Scars of Anatomy Nicole Alfrine, 2025-06-24 A sweet and spicy, opposites attract, sports romance about a star quarterback and a pre-med student, who discover they have more in common than either expected Debut author Nicole Alfrine blends sweet romance with spice to create a book that is a perfect mixture of Hannah Grace and Ali Hazelwood. Hotshot college quarterback Bronx Miller is on track to make it to the NFL, but while he's hyper focused on football, that doesn't mean he doesn't have fun. In fact, he's the most notorious player on and off the field. Even with a zero commitments policy, he's never met a girl who can resist him. However, when he's paired with straight-A, pre-med student Olivia McCausland as his anatomy lab partner, he realizes he may want something more. Olivia is quiet, thoughtful, and unimpressed by his big-man-on-campus status. As the semester unfolds with study sessions and bets based on test scores, the pair grow close. Still, even as Bronx starts to let his guard down and shed his playboy persona, outside forces are determined to rip them apart. While Bronx and Olivia may be more alike than they ever imagined, they'll have to fight for a future together. Along the way, they'll both learn that while scars come in various forms, they don't decide someone's future.
