**Liying Dong**

Emerald Tablet of Hermes Hermes, The Tablet probably first appeared in the West in editions of the psuedo-Aristotlean *Secretum Secretorum* which was actually a translation of the *Kitab Sirr al-Asar*, a book of advice to kings which was translated into latin by Johannes Hispalensis c. 1140 and by Philip of Tripoli c.1243. Other translations of the Tablet may have been made during the same period by Plato of Tivoli and Hugh of Santalla, perhaps from different sources. The date of the *Kitab Sirr al-Asar* is uncertain, though c.800 has been suggested and it is not clear when the tablet became part of this work. Holmyard was the first to find another early arabic version (Ruska found a 12th centruy recension claiming to have been dictated by Sergius of Nablus) in the *Kitab Ustuqus al-Uss al-Thani* (Second Book of the Elements of Foundation) attributed to Jabir. Shortly after Ruska found another version appended to the *Kitab Sirr al-Khaliqa wa San`at al-Tabi`a* (Book of the Secret of Creation and the Art of Nature), which is also known as the *Kitab Balaniyus al-Hakim fi'l-`Ilal* (book of Balinas the wise on the Causes). It has been proposed that this book was written may have been written as early as 650, and was definitely finished by the Caliphate of al-Ma'mun (813-33). Scholars have seen similarities between this book and the Syriac Book of Treasures written by Job of Odessa (9th century) and more interestingly the Greek writings of the bishop Nemesius of Emesa in Syria from the mid fourth century. However though this suggests a possible Syriac source, non of these writings contain the tablet. Balinas is usually identified with Apollonius of Tyna, but there is little evidence to connect him with the *Kitab Balabiyus*, and even if there was, the story implies that Balinas found the tablet rather than wrote it, and the recent discoveries of the dead sea scrolls and the nag hamamdi texts suggest that hiding texts in caves is not impossible, even if we did not have the pyramids before us. Ruska has suggested an origin further east, and Needham has proposed an origin in China. Holmyard, Davis and Anon all consider that this Tablet may be one of the earliest of all alchemical works we have that survives. It should be remarked that apparantly the Greeks and Egyptians used the term translated as `emerald' for emeralds, green granites, and perhaps green jasper. In medieval times the emerald table of the Gothic kings of Spain, and the *Sacro catino*- a dish said to have belonged to the Queen of Sheba, to have been used at the last supper, and to be made of emerald, were made of green glass [Steele and Singer: 488].

**Let there be Peace - Ascension to Ivisimara** Mark O'Doherty, 2012-09-05 ATTN: All Generals and Commanders of the Russian Ground Forces / Сухопутные войска Российской Федерации - General Oleg Salyukov, Aleksandr Matovnikov, General Sergey Shoygu, Gen. Valery Gerasimov, Gen. Nikolay Bogdanovsky and all military officers. REGARDING: Acting President and commander-in-chief of the Russian Armed Forces orders the Kremlin, the Federal Security Service and Main Intelligence Directorate (G.U.), to bring Vladimir Putin to Justice and make Peace with Ukraine. Dear Comrades of the Russian Ground Forces / Сухопутные войска Российской Федерации, As of today the Acting President of Russia - Mark O'Doherty - has taken over the command of the Russian Armed Forces - bringing Russia into a New Age of Peace and Prosperity. It should also be noted, that I am currently both the Acting President of the United States, as well as the acting president of Russia. (Since both Joe Biden and Vladimir Putin have agreed to make way, so that I can steer both Russia and the US through these troubled currents. So it will be only a matter of time before we make Peace with our neighbours in Ukraine. Hence it is imperative that Diplomacy and Dialogue is restored between Russia and Ukraine - so that the Universal Declaration of Human Rights (UDHR) can be restored in the International Community - and Freedom of the press will be restored in Russia. On that note, we would like to encourage all People in the Russian Armed Forces to join us in Meditation and Prayer to manifest Peace on Earth - in particular in Russia and Ukraine. PS: Once Peace between Russia and Ukraine has been manifested, we intend to replace NATO with a new International Peacebuilding Alliance. In our opinion this should have been done already after the Cold War, but which the US and EU neglected to do, missing the opportunity of a potential reconciliation with Russia - which the US and EU should rectify: ) Love and Light / Бог благословил / Бог благословить / God Bless Президент Российской Федерации / POTUS / The Crown / EU-China / AU Acting president of Российская Федерация, the United Kingdom, the United States, China and European Union Mark / BTB-Global Peacebuilding 28. **Theocentric Psychology - Synergizing Spiritual Intelligence and Empiric Science in the Field of Psychology** Dr. Mark O'Doherty, 2015-01-07 Open Letter From Nobel Peace Prize Laureates and Citizens of the World Against War and Nuclear Weapons: We reject war and nuclear weapons. We call on all our fellow citizens of the world to join us in protecting our planet, home for all of us, from those who threaten to destroy it. The invasion of Ukraine has created a humanitarian disaster for its people. The entire world is facing the greatest threat in history: a large-scale nuclear war, capable of destroying our civilization and causing vast ecological damage across the Earth. We call for an immediate ceasefire and the withdrawal of all Russian military forces from Ukraine, and for all possible efforts at dialogue to prevent this ultimate disaster. We call on Russia and NATO to explicitly renounce any use of nuclear weapons in this conflict, and we call on all countries to support the Treaty on the Prohibition of Nuclear Weapons to ensure that we never again face a similar moment of nuclear danger. The time to ban and eliminate nuclear weapons is now. It is the only way to guarantee that the inhabitants of the planet will be safe from this existential threat. It is either the end of nuclear weapons, or the end of us. We reject governance through imposition and threats, and we advocate for dialogue, coexistence and justice. A world without nuclear weapons is necessary and possible, and together we will build it. It is urgent that we give peace a chance. Signatories list of Nobel Peace Prize Laureates: His Holiness The Dalai Lama (1989) International Physicians for the Prevention of Nuclear War (1985) International Campaign to Abolish Nuclear Weapons (2017) Juan Manuel Santos (2016) Kailash Satyarthi (2014) Leymah Gbowee (2011) Tawakkul Karman (2011) Muhammad Yunus (2006) David Trimble (1998) Jody Williams (1997) Jose Ramos-Horta (1996) Pugwash Conference on Science and World Affairs (1995) Óscar Arias Sánchez (1987) Lech Walesa (1983) American Friends Service Committee (1947) International Peace Bureau (1910)

The Pleasant Light of Day Philip Ó Ceallaigh, 2009 PHILIP O'CEALLAIGH'S first collection of stories, *Notes from a Turkish Whorehouse*, established him as one of the most vital and distinctive voices to have come on the scene in some time. *The Pleasant Light of Day* confirms his enormous talent and presses into new thematic (and geographical) territory. Here are more of what Anne Enright called his 'harsh and careful fables about men's failure to love women'; here too the 'control of tone, dialogue and narrative contour' that Michel Faber described as 'masterful'. These new stories - set in eastern Europe,

north Africa and Ireland - are at once visionary, hilarious and piercingly observant. Whether he is imagining a father and son walking the streets of Cairo or concocting a hilarious parody of a certain wildly popular inspirational writer from Brazil, Philip O'Ceallaigh is a writer who demands to be read.

*The Emerald Tablets of Thoth the Atlantean* Bart Marshall,2020-03-05 Most ancient spiritual texts are of unknown or uncertain origin, but few are as deeply shrouded in myth, legend and mystery as *The Emerald Tablets of Thoth the Atlantean*, and the closely associated, and more well-known *Emerald Tablet*, attributed to *Hermes Trismegistus*. In this book, Bart Marshall, a renowned translator of many eastern and Christian texts, presents these valuable teachings in a poetic, intensely readable form. Scholars speak of the *Emerald Tablet* as one of the most mysterious documents ever put before the eyes of man, and describe it as everything from a succinct summary of Neoplatonic philosophy, to an extraterrestrial artifact, to a gift from Atlantis. The *Tablet* is attributed to the legendary figure of *Hermes Trismegistus*, said to be an ancient philosopher, healer and sage. References to *Trismegistus* can be found in Renaissance, Christian, Islamic, Roman and Greek literature, and the *Tablet* appears and disappears across the ancient world before and after the birth of Christ. Spiritually, the *Emerald Tablet* and the *Emerald Tablets of Thoth* are closely related to alchemy, and are said to reveal the secrets of creating the *Philosophers Stone*. Alchemical traditions, whether European, Middle Eastern, or Asian, pursue the same prize-the creation of the *Philosopher's Stone*. Also known as the *Pearl of Great Price*, the *Wish-Fulfilling Jewel*, and the *Heart of the Sun*, it is the tool that turns base lead into gold. The ultimate insight to be discovered by the wise, is that the alchemical process is an allegory of spiritual development, outlining inescapable psychological steps one must pass through to reach *Self-Realization*. It is the ultimate transmutation, turning the base lead of ego into the gold of enlightenment through a process of destruction and refinement. To the master alchemist, producing physical gold is not the objective. Transmuting and refining the soul is the true prize.

*The Emerald Tablet* Dennis William Hauck,1999-03-01 The *Emerald Tablet*—an ancient document that contains the essence of the alchemical teachings—has had an important influence on many Western spiritual and religious traditions. Ostensibly concerned with turning base metals into gold, alchemy was in fact dedicated to transforming the lead of self into the gold of spirit. This brilliant history of alchemy traces its sources back to ancient Egypt, and presents alchemy as a useful, practical system of self-transformation. Each of the seven steps of alchemical transformation is explained, with hands-on techniques and exercises, treating alchemy as a living discipline for achieving a spiritual awakening.

The Encyclopedia of the Strange Daniel Cohen, 1987 African Studies, contrary to some accounts, is not a separate continent in the world of American higher education. Its intellectual borders touch those of economics, literature, history, philosophy, and art; its history is the story of the world, both ancient and modern. This is the clear conclusion of *Africa and the Disciplines*, a book that addresses the question: Why should Africa be studied in the American university? This question was put to distinguished scholars in the social sciences and humanities, prominent Africanists who are also leaders in their various disciplines. Their responses make a strong and enlightening case for the importance of research on Africa to the academy. Paul Collier's essay, for example, shows how studies of African economies have clarified our understanding of the small open economies, and contributed to the theory of repressed inflation and to a number of areas in microeconomics as well. Art historian Suzanne Blier uses the terms and concepts that her discipline has applied to Africa to analyze the habits of mind and social practice of her own field. Christopher L. Miller describes the confounding and enriching impact of Africa on European and American literary theory. Political scientist Richard Sklar outlines Africa's contributions to the study of political modernization, pluralism, and rational choice. These essays, together with others from scholars in history, anthropology, philosophy, and comparative literature, attest to the influence of African research throughout the curriculum.

For many, knowledge from Africa seems distant and exotic. These powerful essays suggest the contrary: that such knowledge has shaped the way in which scholars in various disciplines understand their worlds. Eloquent testimony to Africa's necessary place in the mainstream of American education, this book should alter the academy's understanding of the significance of African research, its definition of core and periphery in human knowledge. These essays are at once exceptionally thoughtful and remarkably comprehensive. Not only do they offer an unusually interesting overview of African studies; they are also striking for the depth and freshness of their insights. This is the sort of volume from which both seasoned regional experts and students stand to learn an enormous amount.—John Comaroff, University of Chicago These essays provide an important perspective on the evolution of African studies and offer insights into what Africa can mean for the different humanistic and social science disciplines. Many show in ingenious and subtle ways the enormous potential that the study of Africa has for confounding the main tenets of established fields. One could only hope that the strictures expressed here would be taken to heart in the scholarly world.—Robert L. Tignor, Princeton University
