Canadian Sport Marketing Norm O'Reilly,Benoit Seguin,Gashaw Abeza,Michael L. Naraine,2022-05-04 The rapid professionalization of marketing in the sport industry has helped vault the business of sport into the upper echelons of the economy. Innovative, effective, timely, and culturally sensitive marketing allows sport managers to vie for consumer attention in an ever-expanding marketplace of competitors. *Canadian Sport Marketing, Third Edition With HKPropel Access*, brings to life the fundamental principles of marketing, drawn from Canadian experience, with the end goal of providing students with a toolbox of useful tactics, frameworks, models, and knowledge to support a promising career or future learning in sport marketing. It covers essential topics, including the Canadian sport system and Canadian consumer behavior, market research, branding, pricing, sponsorship, ambush marketing, traditional media, social media, and digital marketing. Additionally, a sample marketing plan provides instructors an invaluable opportunity for assigned experiential learning and gives students a practical tool for use in early career work. The only text focusing on Canadian sport marketing, this edition has been extensively updated to foster applied learning in sport marketing concepts and theories, supported by expert

perspectives from the Canadian sport industry. Over 40 sport industry executives and experts contribute to the In the Know sidebars, Executive Perspective, and case studies, which draw from the most successful Canadian sport brands, events, and organizations to provide real-life application of the material. Authors Norm O'Reilly and Benoit Séguin welcome Gashaw Abeza and Michael Naraine, forming an author team with comprehensive professional experience in the Canadian sport sector. With reflections on, and references to, a variety of Canadian and provincial sport entities, this third edition offers the following: Learning objectives provide students a road map to navigate the content while maximizing retention. In the Know sidebars direct student attention to the consideration of real-world situations and sport business analysis. Executive Perspective sidebars, written by individuals who work within the industry, bring sport marketing concepts to life by using examples from Canadian sport businesses. Case studies in HKPropel allow enhanced practical application and use real Canadian examples with questions to ensure critical analysis and understanding. Test Your Knowledge questions help students assess their learning. Answers are provided in the instructor guide. A glossary helps students identify and learn key vocabulary within the text. A sample marketing plan provides an opportunity to review a completed marketing plan, and students can also use it as a template for creating their own plan. Also new to Canadian Sport Marketing, Third Edition, are case studies and quizzes delivered through HKPropel. These are designed to increase student engagement and help students more deeply examine their comprehension of the material. Strengthen and prepare students for future success in the sport industry with Canadian Sport Marketing, Third Edition With HKPropel Access. Note: A code for accessing HKPropel is not included with this ebook but may be purchased separately.

Veterans and Agent Orange Institute of Medicine,Board on the Health of Select Populations,Committee to Review the Health Effects in Vietnam Veterans of Exposure to Herbicides (Ninth Biennial Update),2014-03-06 From 1962 to 1971, the US military sprayed herbicides over Vietnam to strip the thick jungle canopy that could conceal opposition forces, to destroy crops that those forces might depend on, and to clear tall grasses and bushes from the perimeters of US base camps and outlying fire-support bases. Mixtures of 2,4-dichlorophenoxyacetic acid (2,4-D), 2,4,5-trichlorophenoxyacetic acid (2,4,5-T), picloram, and cacodylic acid made up the bulk of the herbicides sprayed. The main chemical mixture sprayed was Agent Orange, a 50:50 mixture of 2,4-D and 2,4,5-T. At the time of the spraying, 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD), the most toxic form of dioxin, was an unintended contaminant generated during the production of 2,4,5-T and so was present in

Agent Orange and some other formulations sprayed in Vietnam. Because of complaints from returning Vietnam veterans about their own health and that of their children combined with emerging toxicologic evidence of adverse effects of phenoxy herbicides and TCDD, the National Academy of Sciences (NAS) was asked to perform a comprehensive evaluation of scientific and medical information regarding the health effects of exposure to Agent Orange, other herbicides used in Vietnam, and the various components of those herbicides, including TCDD. Updated evaluations are conducted every two years to review newly available literature and draw conclusions from the overall evidence. Veterans and Agent Orange: Update 2012 reviews peer-reviewed scientific reports concerning associations between health outcomes and exposure to TCDD and other chemicals in the herbicides used in Vietnam that were published in October 2010-September 2012 and integrates this information with the previously established evidence database. This report considers whether a statistical association with herbicide exposure exists, taking into account the strength of the scientific evidence and the appropriateness of the statistical and epidemiological methods used to detect the association; the increased risk of disease among those exposed to herbicides during service in the Republic of Vietnam during the Vietnam era; and whether there exists a plausible biological mechanism or other evidence of a causal relationship between herbicide exposure and the disease.
