William Shakespeare

Macbeth through Multiple Intelligences Alan David Pritchard, 2011-08-15 The activity pages in this book complement the teaching of Macbeth by providing teachers with differentiated tasks which invite the students to explore the play using Howard Gardner's Theory of the Multiple Intelligences.* There are pre-framing activities to introduce key ideas and concepts.* There are class discussion pages to provide context and establish understanding of key ideas.* Activity pages can then be given to individuals, pairs, and small groups for independent work. These pages access different intelligences and critical + creative thinking skills.* These activities are differentiated to suit National Curriculum levels 2 to 5.

Shakespearean Allusion in Crime Fiction Lisa Hopkins, 2016-04-21 This book explores why crime fiction so often alludes to Shakespeare. It ranges widely over a variety of authors including classic golden age crime writers such as the four 'queens of crime' (Allingham, Christie, Marsh, Sayers), Nicholas Blake and Edmund Crispin, as well as more recent authors such as Reginald Hill, Kate Atkinson and Val McDermid. It also looks at the fondness for Shakespearean allusion in a number of television crime series, most notably Midsomer Murders, Inspector Morse and Lewis, and considers the special sub-genre of detective stories in which a lost Shakespeare play is found. It shows how Shakespeare facilitates discussions about what constitutes justice, what authorises the detective to track down the villain, who owns the countryside, national and social identities, and the question of how we measure cultural value.

Shakespeare for Young People Abigail Rokison-Woodall, 2015-01-01 The search to find engaging and inspiring ways to introduce children and young adults to Shakespeare has resulted in a rich variety of approaches to producing and adapting Shakespeare's plays and the stories and characters at their heart. Shakespeare for Young People is the only comprehensive overview of such productions and adaptations, and engages with a wide range of genres, including both British and American examples. Abigail Rokison covers stage and screen productions, shortened versions, prose narratives and picture books (including Manga), animations and original novels. The book combines an informative guide to these interpretations of Shakespeare, discussed with critical analysis of their relative strengths. It also includes extensive interviews with directors, actors and writers involved in the projects discussed'.

How To Teach English Literature: Overcoming cultural poverty Jennifer Webb, 2019-04-15 A practical guide to pedagogy in the English classroom, supporting the teaching abstract, classic and challenging texts and concepts. Many

Iris Murdoch and Remorse Frances White, 2023-11-24 This exploration of the crucially important role played by remorse in Iris Murdoch's philosophical, theological, and political thinking identifies it as a critical concept in her moral psychology and a recurrent theme in her art. Through engagement with Simone Weil, current theories of remorse, trauma theory and Holocaust studies, it offers fresh perspectives on Murdoch's fiction – particularly the late novels, her radio play *The One Alone*, and her monograph Heidegger.

The Oxford Handbook of George Eliot ,2025-02-20 George Eliot repeatedly stressed the aesthetic and ethical importance of viewing subjects from different perspectives: *The Oxford Handbook of George Eliot* presents fifty-two perspectives on this major nineteenth-century writer. Together, the chapters provide the most wide-ranging collection of essays on Eliot's life and works published to date. While providing fresh perspectives on the important themes running through Eliot's works, the volume is distinctive in placing a concern with literary form at its heart. Part I questions longstanding conceptions of Eliot as a figure isolated by scandal by exploring her personal and intellectual relationships with her contemporaries. Part II focuses on Eliot's close engagement with earlier poets, dramatists, and novelists, as well as with painting, sculpture, and music, and in so doing probes Eliot's interest in the nature of influence itself. Part III explores the full range of Eliot's unpublished and published works: chapters on each of the novels make a renewed case for the centrality of Eliot's works to current scholarly debates about nineteenth-century literature; other chapters offer ways into texts that have either been neglected (such as the novellas and poetry) or more often mined for biographical and historical contexts than given a close reading (such as the notebooks, manuscripts, letters, and journals). Part IV gives close scrutiny to those aspects of literary form which characterise Eliot's writing, particularly her preoccupation with genre and her handling of voice, both that of her narrators and her characters. Part V assesses the complexity of Eliot's legacy for later writers, concluding with five shorter essays which tackle the nature and impact of the enduring cultural status of *Middlemarch* as a (often declared the) 'great English novel'.

Hot Art, Cold War – Western and Northern European Writing on American Art 1945-1990 Claudia Hopkins, Iain Boyd Whyte, 2020-09-17 *Hot Art, Cold War – Northern and Western European Writing on American Art 1945-1990* is one of two text anthologies that trace the reception of American art in Europe during the Cold War era through primary sources. With the exception of those originally published in English, the majority of these texts are translated into English for the first time from eight languages, and are introduced by scholarly essays. They offer a representative selection of the diverse responses to American art in Great Britain, Ireland, France, Belgium, the Netherlands, West Germany (FRG), Austria, Switzerland, Denmark, Norway, Sweden, and Finland. There was no single European discourse, as attitudes to American art were determined by a wide range of ideological, political, social, cultural, and artistic positions that varied considerably across the European nations. This volume and its companion, *Hot Art, Cold War – Southern and Eastern European Writing on American Art 1945-1990*, offer the reader a unique opportunity to compare how European art writers introduced and explained contemporary American art to their many and varied audiences. Whilst many are fluent in one or two foreign languages, few are able to read all twenty-five languages represented in the two volumes. These ground-breaking publications significantly enrich the fields of American art studies and European art criticism. This book, together with its companion volume *Hot Art, Cold War – Southern and Eastern European Writing on American Art 1945-1990*, is a joint initiative of the Terra Foundation for American Art and the editors of the journal *Art in Translation* at the University of Edinburgh. The journal, launched in 2009, publishes English-language translations of the most significant texts on art and visual cultures presently only available only in their source language. It is committed to widening the perspectives of art history, making it more pluralist in terms of its authors, viewpoints, and subject matter.
