**Biofeedback and Mindfulness in Everyday Life** Inna Khazan, 2019-07-30 A mind-body approach to taking control of your physical and emotional health. Biofeedback is the process of training your body to control its involuntary actions, such as breathing and heart rate. Minor changes to these actions can significantly improve physical and emotional well-being. In *Biofeedback and Mindfulness in Everyday Life*, Harvard Medical School faculty member Inna Khazan pairs biofeedback techniques with mindfulness practice to address some of life's most common ailments— from anxiety and fear to stress and insomnia. She begins with a description of basic physiological information, explaining concepts such as breathing and overbreathing. In Part Two she dives into the practice of mindfulness. And in Part Three she zeroes in on applying this mind-body approach to an array of common problems. Khazan's approach outlines simple solutions for readers who want to improve the way they respond to challenges. She guides them through increasing their resilience and emotional flexibility while empowering them to take back control of their overall health.

*Everyday Arguments* Katherine J. Mayberry, 2004-07 *Everyday Arguments* combines a practical, student-oriented argument rhetoric with an anthology of illustrative readings drawn from arguments of everyday life. The rhetoric portion of the text contains a four-part taxonomy and guides students through the process of generating, drafting, composing, and revising written arguments. The anthology of readings is closely tied to the principles and practices introduced in the rhetoric section. Throughout the text, the author emphasizes that much can be learned about written argument and its practice from the texts we encounter on a daily basis. Writing-intensive exercises in each chapter encourage students to practice new skills as they learn them, while refreshing their knowledge of previously mastered skills. These exercises emphasize the value of collaboration, revision, and responsible research. Helpful student samples encourage students in their own writing.

**Do One Thing Every Day That Scares You** Robie Rogge, Dian G. Smith, 2013-12-31 A year's worth of fear-facing prompts and mottoes of encouragement will motivate you to jot down one thing a day and make a daily habit of thinking courageously. Each day is an opportunity to perform one small act of bravery; singing out loud, asking for help, admitting a mistake, pitching an idea, accepting a compliment, changing your hair, going for the prize, failing spectacularly and trying again. This journal contains a year's worth of fear-facing prompts and mottoes of encouragement. It provides space to jot down daily examples of your own courage--the small steps that culminate in one bold year. Jotting down one thing a day, especially on fortifying subjects like gratitude and happiness, is an enormously popular journaling practice (one that is recommended by nearly every best-selling self-help author). Bravery is another key ingredient of self-actualization, so why not make a daily habit of thinking courageously? This journal is perfect for recent graduates, milestone birthdays, or as a year-end holiday gift to kick off New Year, New You projects.
