Barron, Steven A. Stilwell

Animate(d) Architecture Vahid Vahdat, 2024-03-25 At their peak, architectural marvels such as the Sagrada Família, the Tower of London, the Mosque-Cathedral of Córdoba, and the Eiffel tower, had a combined annual visit of almost 16.4 million people. The animated icebound castle in Disney's (2019) *Frozen* had 116.4 million views, from one single YouTube trailer, in less than 24 hours. The spaces of such massively consumed animation have for generations informed the architectural imagination of people across the globe and from very early in their lives. Yet, not only have the architectural disciplines remained rather absent in the design of these massively consumed spaces, architectural theory has likewise failed to articulate a framework to approach the architecture of animation. To address this void, this book offers an interdisciplinary approach to survey the role of space in animation, including in creating humorous moments in early cartoon shorts, generating action and suspense in Japanese anime, and even stimulating erotic pleasure in pornographic Hentai. Exploring the imagined architecture of animation, from early motion picture to digital animation and from computer graphics to game engines, offers an analytical frame to reconceptualize space. An Open Access version of Yuko Yoshida's chapter 'Animated Embodiments of Witnessing: An Architectural Narrative of Silence' is available on the Liverpool University Press website.

Tourism, Travel, and Blogging Deepti Ruth Azariah, 2016-11-10 Travel often inspires the creation of narratives about journeys and destinations, more so with the increasing availability of online platforms, applications for smartphones and tablets, and various other social media technologies. This book examines travel blogs and their associated social media as a form of self-presentation that negotiates the tensions between discourses of travel and tourism. As such, it addresses how contemporary travellers use online platforms to communicate their experiences of journeys and destinations, and how the traveller/tourist dichotomy finds expression in these narratives. Addressing the need for more in-depth analysis through a study of blogs, this exploration of networked narratives of an individual's travel experience considers personal motivations, self-promotion, and self-presentation as key factors in the creation of both personal and commercial travel blogs. As this text applies concepts such as self-presentation and heteroglossia, it will be of interest to both students and scholars of tourism, new media, sociology, cultural studies, and discourse studies.

Fantasy Jacqueline Furby, Claire Hines, 2011-09-02 Fantasy addresses a previously neglected area within film studies. The book looks at the key aesthetics, themes, debates and issues at work within this popular genre and examines films and franchises that illustrate these concerns. Contemporary case studies include: Alice in Wonderland (2010) Avatar (2009) The Dark Knight (2008) Edward Scissorhands (1990) Lord of the Rings (2001-2003) Pirates of the Caribbean (2003-2007) Prince of Persia: The Sands of Time (2010) Shrek (2001) Twelve Monkeys (1995) The authors also consider fantasy film and its relationship to myth, legend and fairy tale, examining its important role in contemporary culture. The book provides an historical overview of the genre, its influences and evolution, placing fantasy film within the socio-cultural contexts of production and consumption and with reference to relevant theory and critical debates. This is the perfect introduction to the world of fantasy film and investigates the links between fantasy film and gender, fantasy film and race, fantasy film and psychoanalysis, fantasy film and technology, fantasy film storytelling and spectacle, fantasy film and realism, fantasy film and adaptation, and fantasy film and time.

Fantasy/Animation Christopher Holliday, Alexander Sergeant, 2018-04-27 This book examines the relationship that exists between fantasy cinema and the medium of animation. Animation has played a key role in defining our collective expectations and experiences of fantasy cinema, just as fantasy storytelling has often served as inspiration for our most popular animated film and television. Bringing together contributions from world-renowned film and media scholars, Fantasy/Animation considers the various historical, theoretical, and cultural ramifications of the animated fantasy film. This collection provides a range of chapters on subjects including Disney, Pixar, and Studio Ghibli, filmmakers such as Ralph Bakshi and James Cameron, and on film and television franchises such as Dreamworks' How To Train Your Dragon (2010-) and HBO's Game of Thrones (2011-).

Green Media and Popular Culture John Parham, 2015-12-03 This comprehensive survey of green media and popular culture introduces the reader to the key debates and theories surrounding green interpretations of popular film, television

and journalism, as well as comedy, music, animation, and computer games. With stimulating and original case studies on U2, Björk, the animated films of Disney, the computer game Journey, and more, this engaging text reveals the complicated and often contradictory relationship between the media and environmentalism. Examining the ways in which green media can influence the public's awareness of environmental issues, this innovative textbook is a critical starting point for students of Media, Film and Cultural Studies, and anyone else researching and studying in the rapidly growing field of green media and cultural studies.

Wizard's Castle Diana Wynne Jones, 2002 Howl's moving castle - Eldest of three sisters, in a land where it is considered to be a misfortune, Sophie is resigned to her fate as a hat shop apprentice until a witch turns her into an old woman and she finds herself in the castle of the greatly feared Wizard Howl. *Castle in the air* - Having long indulged himself in daydreams more exciting than his mundane life as a carpet merchant, Abdullah unexpectedly purchases a magic carpet and his life changes dramatically as his daydreams come true and

Steampunk Film Robbie McAllister, 2019-03-07 Steampunk Film: A Critical Introduction is a concise and accessible overview of steampunk's indelible impact within film, and acts as a case study for examining the ways with which genres hybridize and coalesce into new forms. Since the beginning of the 21st century, a series of high-profile and big-budget films have adopted steampunk identities to re-imagine periods of industrial development into fantastical histories where future meets past. By calling this growing mass-cultural fetishism for anachronistic machines into question, this book examines how a retro-futuristic romanticism for technology powered by cogs, pistons and steam-engines has taken center stage in blockbuster cinema. As the first monograph to consider cinema's unique relationship with steampunk, it places this burgeoning genre in the context of ongoing debates within film theory: each of which reflecting the movement's remarkable interest in reengineering historical technologies. Rather than acting as a niche subculture, Robbie McAllister argues that steampunk's proliferation in mainstream filmmaking reflects a desire to reassess contemporary relationships with technology and navigate the intense changes that the medium itself is experiencing in the 21st century.
