The Shadowhunter's Codex ,2013-10-29 A fictional guide to the Shadowhunter's universe--

GOETIAN CODEX MIRGONAEL,2014-12-25 Unlike the original Goetia, or Lesser Key of Solomon, the GOETIAN CODEX has been written to be more readily useable by the practitioner. Information previously scattered about the text has been collected, organized, and presented in a more user-friendly format. Each of the 72 prime sigils for the Geotic spirits has been meticulously redrawn to remove any imperfections resulting from years of copying and reprint of the original text. These sigils, combined with the collected information, have been organized alphabetically for easy reference. Additionally, a series of appendices have been added to include a list of the demons by rank, a collection of their known aliases, a rewritten conjuration and banishment, and a collection of instructions translated from the steles found in one of the source texts. The Hexagram, Pentacle, and Circle of Solomon have also been remastered, and are included within the appendices. For any student of demonology or the occult, this book is a must-have.

The Voynich Manuscript Stephen Skinner,Rafal T. Prinke,René Zandbergen,2017-09-18 "The Voynich Manuscript is the limit text of Western occultism. It is truly an occult book - one that no one can read." - Terence McKenna, ethnobotanist and mystic This complete edition of the Voynich Manuscript includes a fascinating and authoritative foreword and

introduction by Dr Stephen Skinner, Dr Rafal Prinke and Dr Ren Zandbergen, who together detail all that is currently known about this mysterious medieval manuscript, the only book in existence that has been written in this particular language and alphabet - a language that nobody can read. Drawing on their extensive knowledge of the period, of other esoteric and alchemical works and of the curious history of the Voynich, they explore its relation to magic and alchemy, and what may be guessed about the meaning of its beautiful illustrations. This information, together with the images themselves, invites readers to form their own interpretations of this most famous of enduring mysteries. The elegant design of this Watkins edition is a fitting showcase for the manuscript's strangely beautiful cryptographic script and otherworldly illustrations, which include astrological, astronomy, herbal medicine and enigmatic drawings of naked women bathing.
